3) On Friday, Q reposted these messages from an anon regarding treason, James Comey and John Brennan.

Note that the column mentioning James Comey has 10 sets of 5 lines, while Brennan's has 12 sets of 4 lines.

Is there a particular meaning we're supposed to take from this?

4) Perhaps.

The anon may have alluded to a statement by Lindsay Graham on the 10th while discussing Spygate developments with Sean Hannity.

"We'll talk in about 10 or 12 days..."

Comey 10 sets.

Brennan 12 sets.

10 to 12 days from Thursday the 10th would be September 20-22nd.

5) On September 11th, Q reposted a tweet by @kevincorke who wrote that a DOJ source told him to set his alarm clock in reference to arrests and indictments.

76) The activities we're witnessing are a coordinated insurgency campaign that is being waged against the legitimate powers of government.

Q !!Hs1Jq13jV6 09/14/20 (Mon) 09:34:31

Worth remembering [think what you see today].

<https://2009-2017.state.gov/documents/organization/119629.pdf>

Insurgency can be defined as 'the organized use of subversion and violence to seize, nullify, or challenge political control of a region.'
Insurgents seek to subvert or displace the government and completely or partially control the resources and population of a given territory. They do so through the use of force (including guerrilla warfare, terrorism and coercion/intimidation), propa- ganda, subversion and political mobilization. Insurgents fight government forces only to the extent needed to achieve their political aims: their main effort is not to kill counterinsurgents, but rather to establish a competitive system of control over the population, making it impossible for the government to administer its territory and people. Insurgent activity is therefore designed to weaken government control and legitimacy while increasing insurgent control and influence. Insurgents require supporters, recruits, safe havens, money, supplies, weapons and intelligence on government actions. A robust insurgency can be waged with the support of just a small percentage of a given population.

NEXT:

Counterinsurgency may be defined as 'comprehensive civilian and military efforts taken to simultaneously defeat and contain insurgency and address its root causes'.

Q

77) U.S. Government Counterinsurgency Initiative.

<https://2009-2017.state.gov/documents/organization/119629.pdf>

Insurgency is the organized use of subversion and violence to seize, nullify or challenge political control of a region. As such, it is primarily a political struggle, in which both sides use armed force to create space for their political, economic and influence activities to be effective. Insurgency is not always conducted by a single group with a centralized, military-style command structure, but may involve a complex matrix of different actors with various aims, loosely connected in dynamic and non-hierarchical networks. To be successful, insurgencies require charismatic leadership, supporters, recruits, supplies, safe havens and funding (often from illicit activities). They only need the active support of a few enabling individuals, but the passive acquiescence of a large proportion of the contested population will give a higher probability of success. This is best achieved when the political cause of the insurgency has strong appeal, manipulating religious, tribal or local identity to exploit common societal grievances or needs. Insurgents seek to gain control of populations through a combination of persuasion, subversion and coercion while using guerrilla tactics to offset the strengths of government security forces. Their intent is usually to protract the struggle, exhaust the government and win sufficient popular support to force capitulation or political accommodation. Consequently, insurgencies evolve through a series of stages, though the progression and outcome will be different in almost every case.

Counterinsurgency (COIN) is the blend of comprehensive civilian and military efforts designed to simultaneously contain insurgency and address its root causes. Unlike conventional warfare, non-military means are often the most effective elements, with military forces playing an enabling role. COIN is an extremely complex undertaking, which demands of policy makers a detailed understanding of their own specialist field, but also a broad knowledge of a wide variety of related disciplines. COIN approaches must be adaptable and agile. Strategies will usually be focused primarily on the population rather than the enemy and will seek to reinforce the legitimacy of the affected government while reducing insurgent influence. This can often only be achieved in concert with political reform to improve the quality of governance and address underlying grievances, many of which may be legitimate. Since U.S. COIN campaigns will normally involve engagement in support of a foreign government (either independently or as part of a coalition), success will often depend on the willingness of that government to undertake the necessary political changes. However great its know-how and enthusiasm, an outside actor can never fully compensate for lack of will, incapacity or counter-productive behavior on the part of the supported government.

78) Insurgents recruit citizens to join an anti-government movement.

It's the responsibility of citizens to actively [#fightback](#) against the tactics used by insurgent forces.

One way in which we do that is countering the propaganda used by political figures and the media.

Starting now for Portland replace the V.O. definition accompanying our FIRS and OSIRS to VIOLENT ANTI-FA ANARCHISTS INSPIRED (VAAI). Why? Myself and other leaders have been reviewing the Portland FIRS, OSIRS, Baseball cards of the arrested and FIRS as well as the Ops info. The individuals are violently attacking the Federal facilities based on those ideologies. We can't say any longer that this violent situation is opportunistic. Additionally, we have overwhelming intelligence regarding the ideologies driving individuals towards violence and why the violence has continued. A core set of threat actors are organized, show up right after night, share common tips and drawing on like minded individuals to their cause. However, we may not be able to attribute every individual as VAAI however we need to look at the totality of the intelligence both current and previous and recognize the motivation for the violence and why people have shown up to commit violence for about 60 days. And why individuals are using social media to encourage the VAAI on the ground to carry out acts of violence.

Not every threat actor may be a VAAI. For example should we have the intel to show something different we will obviously adjust.

The VAAI is specific to Portland and specific to the Federal State and Local facilities under violent assault. If similar situations arise down the line the VAAI may apply.

Here is the VAAI definition which will be applied from now forward:
DHS to HPSCI 09/14/2020 Page 343

Threat actors who are motivated by Anarchist or ANTIFA (or a combination of both) ideologies to carry out acts of violence against State, local, and Federal authorities and infrastructure they believe represent authority or represent political and social ideas they reject.

In close the team continues to do great work which is preventing injury, death, and destruction of property
