HOLLYWOOD
Construction Update
September 2018

Hollywood, 5 Missouri Avenue, Media City, Salford, M50 2NP

The latest Hollywood Construction Update shows that most pre-construction works are now completed. Design proposals have been developed and amended, construction packages are in place, costings are being evaluated and initial set up and surveys of the site have commenced.

Works Progressed

Co-ordinated design proposals are complete and have been developed with input from appointed structural, building services and fire engineering consultants.

Co-ordinated design proposals for minor alterations to the exterior of the building are complete and have been submitted for determination.

The first phase construction package is enabling works and includes internal drainage structural alterations and first fix activities.

Final costs are being confirmed.

The site set up and welfare facilities for Phase 1 works are complete.

A refurbishment and demolition intrusive asbestos survey has been carried out on the building. A small amount of asbestos was discovered and is now being removed.

Site surveys and instructive opening-up works have been carried out to allow technical design to progress.

Trial pits have been excavated and structural details have been submitted to allow for the removal of the internal staircase.
