RE: FUSION GPS

Dear Mr. Taylor:

I write on behalf of Perkins Coie LLP as its General Counsel. We understand that your client, Fusion GPS, has received a number of requests for information regarding the identity of clients who engaged Fusion GPS to conduct research during the 2016 Presidential campaign. We further are aware that Fusion GPS is currently engaged in litigation in the United States District Court for the District of Columbia in an effort to prevent the compelled disclosure of its bank records which would reveal confidential client information.

We recognize the important principle of client confidentiality, and we appreciate your efforts to fulfill your obligation to maintain client confidentiality. In the circumstances, however, we believe it is appropriate to release Fusion GPS from this obligation as it relates to the identity of Perkins Coie. Further, given the interest in this issue, we believe it would be appropriate for all parties who hired Fusion GPS in connection with the 2016 presidential campaign to release Fusion GPS from this obligation as well. Finally, note that the appropriate client representatives have been informed of the specifics of our engagement with Fusion GPS, and with their consent, Perkins Coie therefore authorizes you to disclose the following:

-- Fusion GPS approached Perkins Coie in early March of 2016 and, aware that Perkins Coie represented the Democratic National Committee ("DNC") and HFAC, Inc. ("Hillary for America") with respect to the 2016 elections, expressed interest in an engagement with the Firm in connection with the 2016 presidential election to continue research regarding then-Presidential candidate Donald Trump, research that Fusion GPS had conducted for one or more other clients during the Republican primary contest.

No one knew just how bad the breach was — but it was clear that a lot more than a single filing cabinet worth of materials might have been taken. A secret committee was immediately created, including Ms. Dacey, Ms. Wasserman Schultz, Mr. Brown and **Michael Sussmann**, a former cybercrimes prosecutor at the Department of Justice **who now works at Perkins Coie**, the Washington law firm that handles D.N.C. political matters.

Donald J. Trump
Statement on National Strategy for Counterterrorism: whitehouse.gov/briefings-stat...

As your President, I am committed to protecting the United States and its interests abroad from the threat of terrorism. The National Strategy for Counterterrorism that I approved today will help protect our great Nation, enhance our national security, and guide our continued effort to defeat terrorists and terrorist organizations that threaten the United States.

Under my leadership, the United States has accelerated efforts to defeat terrorists. Working with coalition partners, we have decimated ISIS in Syria and Iraq. Likewise, I ended United States participation in the horrible Iran deal, which had provided a windfall for the Islamic Revolutionary Guard Corps and its proxies, funding Iran's malign activities throughout the world. Importantly, I have also secured historic increases in defense funding to rebuild our Nation's military.

The National Strategy for Counterterrorism is an important next step. It outlines the approach of the United States to countering the increasingly complex and evolving terrorist threats and represents the Nation's first fully articulated counterterrorism strategy since 2011. It provides the strategic guidance needed to protect the United States against all terrorist threats, while simultaneously fostering the agility to anticipate, prevent, and respond to new threats.

Guided by the National Strategy for Counterterrorism, we will use all instruments of American power to protect our great Nation, and we will defeat our enemies with the full force of American might.

"Elemental's servers could be found in Department of Defense data centers, the CIA's drone operations, and the onboard networks of Navy warships."
"Multiple people familiar with the matter say investigators found that the chips had been inserted at factories run by manufacturing subcontractors in China."
"One official says investigators found that it eventually affected almost 30 companies, including a major bank, government contractors, and the world's most valuable company, Apple Inc."
"One country in particular has an advantage executing this kind of attack: China, which by some estimates makes 75 percent of the world's mobile phones and 90 percent of its PCs."
"But that's just what U.S. investigators found: The chips had been inserted during the manufacturing process, two officials say, by operatives from a unit of the People's Liberation Army. In Supermicro, China's spies appear to have found a perfect conduit for what U.S. officials now describe as the most significant supply chain attack known to have been carried out against American companies."

73) The lawsuit alleges that President Trump illegally used his non-profit for personal gain and political purposes.

PRELIMINARY STATEMENT

The Petition filed in this case demonstrates that respondent Donald J. Trump used his control over the Donald J. Trump Foundation for his benefit to advance his personal, business, and political interests in violation of federal and state law governing charities. He breached his fiduciary duties by engaging in political activity in violation of state and federal law, failing to comply with basic governance rules required by New York law, and directing numerous unlawful diversions and distributions of charitable assets committed to his charge. His children, who were nominally the other directors of the Foundation, ignored their responsibilities. Those responsibilities include such basic actions as holding regular meetings to discuss Foundation business, overseeing the Foundation's finances, implementing conflict of interest policies, and, most importantly, upholding the fundamental principle that the charitable assets under their care are not to be used for personal benefit.

As a result of Respondents' failures, Foundation funds – consisting primarily of money donated by persons other than Donald Trump – were used improperly, not once, but numerous times. The law is clear – private foundations cannot use their funds for the personal or business benefit of their directors, and they cannot engage in political activity. These prohibitions are absolute. As the entity charged with overseeing the activity of foundations and the proper use of charitable assets, it is the role of the Attorney General of the State of New York (the “Attorney General”) to seek the appropriate remedies. As courts have long recognized, the Attorney General's role in overseeing the charitable sector is a crucial one. Foundations do not have

The Hunt for Red October (film)

From Wikipedia, the free encyclopedia

The Hunt for Red October is a 1990 American espionage thriller film produced by Mace Neufeld, directed by John McTiernan, that stars Sean Connery, Alec Baldwin, Scott Glenn, James Earl Jones, and Sam Neill. The film is based on Tom Clancy's 1984 bestselling novel of the same name.

The story is set during the late Cold War era and involves a rogue Soviet naval captain who wishes to defect to the United States with his officers and the Soviet Navy's newest and most advanced nuclear missile submarine. An American CIA analyst correctly deduces his motive and must prove his theory to the U.S. Navy before a violent confrontation between the Soviet and the American navies spirals out of control.

The film was a co-production between the motion picture studios Paramount Pictures, Mace Neufeld Productions, and Nina Saxon Film Design. Theatrically, it was commercially distributed by Paramount Pictures and by the Paramount Home Entertainment division for home media markets. Following its wide theatrical release, the film was nominated for and won a number of accolades. At the 63rd Academy Awards, the film was honored with the Academy Award for Best Sound Editing, along with nominations for Best Sound Mixing and Best Film Editing. On June 12, 1990, the original soundtrack, composed and conducted by Basil Poledouris, was released by MCA Records.
