Divide and conquer. To reach Equilibrium with Kate, I have decided to divide Game Theory Masters from students. GameTheory.ai will become an educational resource for students. As for the Masters, let's go international at julianassange.ai

It has been a pleasure being your apprentice. I showed my cousin an email I recently wrote to you. She said, "Did he write back?" I thought, "What an odd question. She clearly doesn't understand how the game works at this level."

Information is the currency of perception.
