ONE BALTIC SQUARE CONSTRUCTION UPDATE

August 2019

ONE BALTIC SQUARE CONSTRUCTION UPDATE

August 2019

Works are progressing well at One Baltic Square where a number of preparations are being made to the site in order to commence construction.

Demolition of Phase 2 is now complete, and the site has been 100% cleared of all surplus materials.

The groundworks have begun which consists of a number of tasks, including turning over, flattening and digging trenches in the ground where the foundations for Blocks A and D will then be installed.

Concrete has also been poured and steel footings have been installed to form part of the substructure.

Diggers on site progressing the groundworks.

Trenches being dug for Blocks A and D foundations.

Flattening of the ground.
