## Ingredients

### Ketone Salts

These exogenous ketones help jumpstart ketosis, allowing your body to enter a fat-burning state faster.

### Apple Cider Vinegar

ACV aids digestion, supports healthy gut bacteria, and may help control blood sugar levels.

### MCT Oil

MCT oil provides a quick source of energy and helps increase ketone production in the body.

- **Apple cider vinegar (ACV):** ACV is a fermented apple product that contains acetic acid, which some studies suggest may help with weight loss by reducing appetite and increasing fat burning.
- **Beta-hydroxybutyrate (BHB):** BHB is a ketone body that is produced by the body when it breaks down fat for energy. Supplementing with BHB is thought to help the body enter a state of ketosis, which may promote weight loss.
- **Garcinia cambogia:** Garcinia cambogia is a fruit that contains hydroxycitric acid (HCA), which is thought to help with weight loss by blocking the production of fat.
- **Green tea extract:** Green tea extract is a rich source of antioxidants and polyphenols, which have been linked to a number of health benefits, including weight loss.

# How to Use True Ketosis Keto ACV Gummies

1. Take two gummies daily, preferably with meals.
2. For best results, maintain a low-carb, high-fat diet.
3. Stay hydrated by drinking plenty of water throughout the day.
