The infographic features a central image of a black bottle with a white label that reads "Lean for Good LeanBiome DIETARY SUPPLEMENT | 60 CAPSULES". Surrounding the bottle are several callout boxes with icons and text:

- NATURAL FORMULA** (Icon: plant growing in a hand)
- EASY TO TAKE** (Icon: white capsule)
- PLANT INGREDIENTS** (Icon: green leaf)
- DOCTOR FORMULATED** (Icon: stethoscope)
- SUPPORT HEALTHY WEIGHT LOSS** (Icon: female torso with arrows pointing out)
- PROMOTES DIGESTIVE HEALTH** (Icon: stomach with internal organs)
- FIRE UP THE METABOLISM** (Icon: circular arrows around a central point)
- REVERSES GUT IMBALANCE** (Icon: stomach with arrows indicating balance)
- REDUCES HUNGER AND APPETITE** (Icon: stomach with a minus sign)
- BOOST THE IMMUNE SYSTEM** (Icon: shield with a plus sign)

At the bottom, there are three circular icons representing ingredients: **GREENSELECT PHYTOSOME** (green), **LACTOBACILLUS RHAMNOSUS** (green), and **LACTOBACILLUS GASSERI** (red). To the right, there are three circular icons representing safety and quality: **LACTOBACILLUS FERMENTUM** (yellow), **NO GMO** (no symbol), **MADE IN USA** (American flag), and **NO TOXINS** (no symbol).

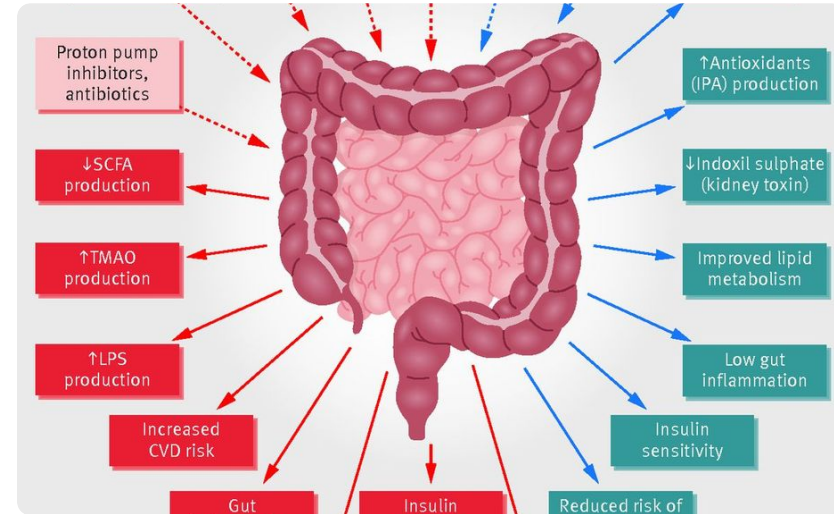

On the bottom left, there are three icons representing quality and safety: **GMP**, **FDA REGISTERED**, and **LAB TESTED**.

What is LeanBiome?

Natural Ingredients

LeanBiome is formulated with a powerful combination of natural ingredients carefully selected for their digestive and metabolic benefits. These ingredients work synergistically to support a healthy gut and promote overall well-being.

Gut Health Support

LeanBiome is specifically designed to nurture a healthy gut environment. It contains prebiotics and probiotics that help maintain a balanced gut microbiome, contributing to improved digestion and nutrient absorption.

[CLICK HERE TO CHECK DISCOUNTED PRICE \(24HRS LIMITED OFFER\)](#)

How does LeanBiome work?

1

Supports Digestive Health

LeanBiome aids in supporting digestive health by promoting a balanced gut microbiome and enhancing nutrient absorption.

2

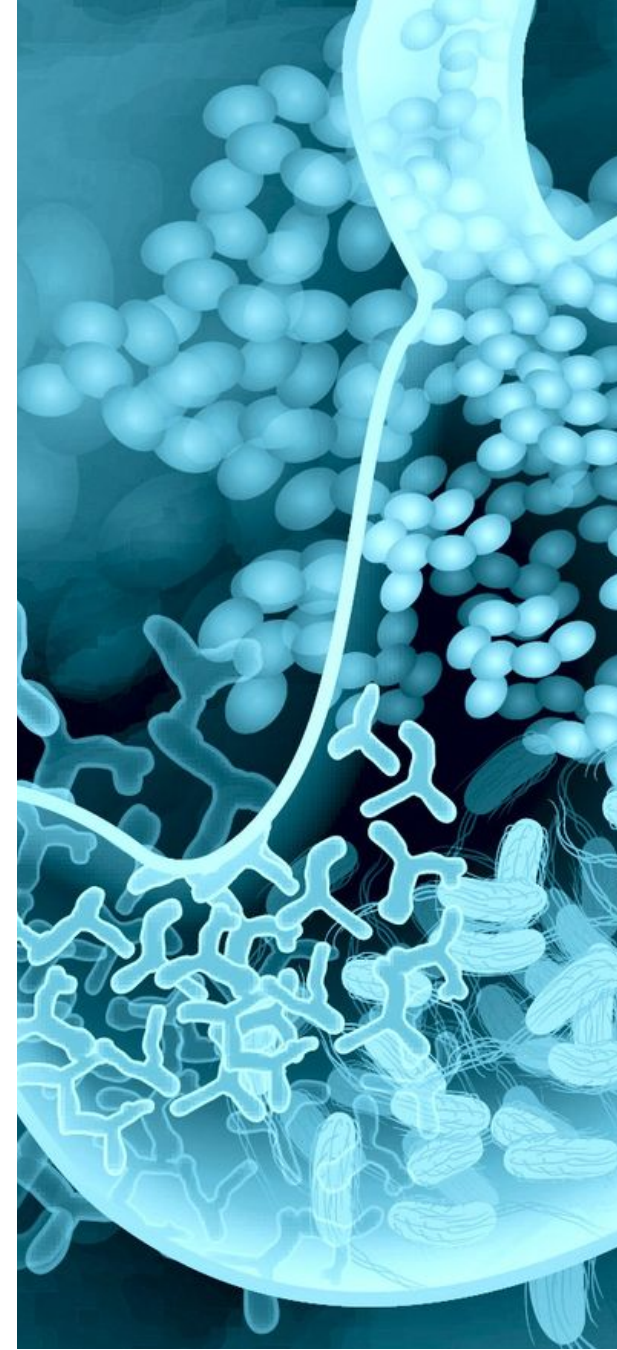

Boosts Metabolism

Through its natural ingredients, LeanBiome helps in boosting metabolism and supporting healthy weight management.

3

Promotes Gut Wellness

By providing the essential nutrients and compounds, LeanBiome promotes optimal gut wellness, which is crucial for overall health and well-being.

Key ingredients in LeanBiome

Prebiotics

Prebiotics are a key component of LeanBiome, nourishing beneficial bacteria and promoting a healthy gut environment.

Probiotics

LeanBiome contains probiotics that help in maintaining a balanced gut microbiome, supporting overall digestive health.

Enzymes

Enzymes in LeanBiome aid in the breakdown and absorption of nutrients, contributing to improved digestion and nutrient utilization.

Weight loss options

Obesity is one of the leading causes of death in America. The medical treatment for obesity is very complex, but new treatments are being developed and approved quickly.

bypass
Two main steps:
1. The stomach is stapled to the size of a golf ball.
2. The small intestine is placed around the stomach.
The stomach is a large portion of the small intestine.

Adjustable Gastric Banding
A laparoscopic adjustable gastric band is placed around the stomach to treat obesity by restricting the amount of food consumed.
In the U.S., market share of adjustable gastric bands has been increasing since the introduction of LAP-BAND®.
Average Excess Weight Loss with Lap-Band: 44.4%
Number of patients who have improved their health conditions: 73%

80.4%
Sleep Apnea

rectomy
Sleeve gastrectomy is a surgical procedure that removes a portion of the stomach. The remaining stomach is then stapled together to reduce its size.
The gastric plication procedure, also known as stomach plication, is a non-surgical procedure that is already shown to be effective in reducing stomach size.
In this procedure, the stomach is stitched to itself to reduce its original size, which in turn reduces the amount of food that can be consumed.
Unlike the gastric bypass procedure, the stomach remains in its original position.
Unlike the lap-banding procedure, the stomach does not need to be removed and support is not required.

New! Gastric Sleeve
The gastric plication procedure, also known as stomach plication, is a non-surgical procedure that is already shown to be effective in reducing stomach size.
In this procedure, the stomach is stitched to itself to reduce its original size, which in turn reduces the amount of food that can be consumed.
Unlike the gastric bypass procedure, the stomach remains in its original position.
Unlike the lap-banding procedure, the stomach does not need to be removed and support is not required.

For these reasons, sleeve gastrectomy is a viable alternative to other bariatric procedures for effective weight loss.
