What are Essential Oils?

Natural
Medicine
50-70 times
more powerful
than herbs

Natures Pharmacy

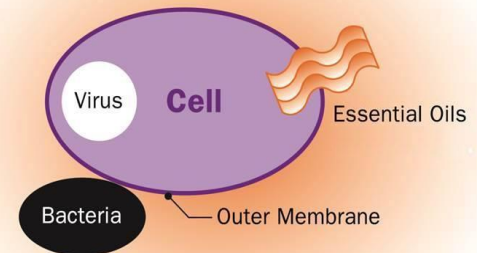

Essential Oils are found in plant material taken from the root, stems, bark and leaves. **They help to form the plant's own immunity and defence against microbes, bacteria, fungus, insects, and disease, as well as being the fluid that regenerates and heals the plant.**

Our bodies are made of similar building blocks as plants, so **when we use the oils they go to work in our bodies in the same way they would for the plant.**

Essential oils can enter into our blood stream in just 30 seconds - and can start to affect the cells in our body within 20 minutes!

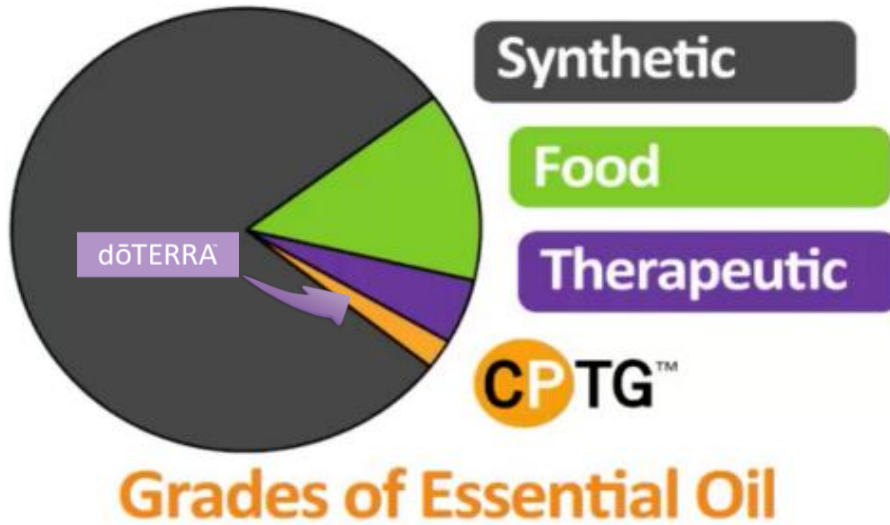

Why are Essential Oils so Effective? They have the ability to pass through the cell membrane, due to their lipophilic properties. They can therefore penetrate cells in our body to help support our bodies to optimise good health.

Not all Oils are Created Equal!

World Class Product - CPTG – Certified Pure Therapeutic Grade, a quality standard representing only 1% of all essential oils available in the marketplace today

Guaranteed purity, FREE from artificial ingredients, fillers, pesticides

FACT

According to government standards, **an essential oil can be labelled as "PURE" and still legally contain synthetic fillers.** Many oils found on the market, including Health food stores, are of low quality.

dōTERRA[®] science

HOW TO FIND YOUR QUALITY ID

The doTERRA Kids collection is the complete ready-made 'Whole Body' Essential oil toolbox!

Designed to empower parents to confidently support the health and wellness of little ones.

'Kids Essential Oils Collection'

Pre-diluted with Fractionated Coconut Oil, these essential oil blends are gentle enough for children of all ages. Each of these kid-friendly blends is formulated with children in mind—their fragrance preferences, emotional needs, and most common health complaints. Color-coded labels and roll-on tops make application easy and fun. And while they are created with children in mind, don't be surprised if you fall in love with a few of these blends yourself.

One of the most frequently asked questions!

“How Do I Use Essential Oils Safely With My Children?”

doTERRA essential oils are 100% Certified Pure Therapeutic Grade (CPTG) They are considered safe and effective for babies, children, and adults.

When using essential with children, owing to the sensitive nature of their skin they need to be diluted. A good ratio to start with is 1-2 drops of oil with 2 TBSP of fractionated coconut oil.

The great thing about our **Kids** collection is they are already Pre-diluted and gentle enough for children of all ages.

dōTERRA[®] science

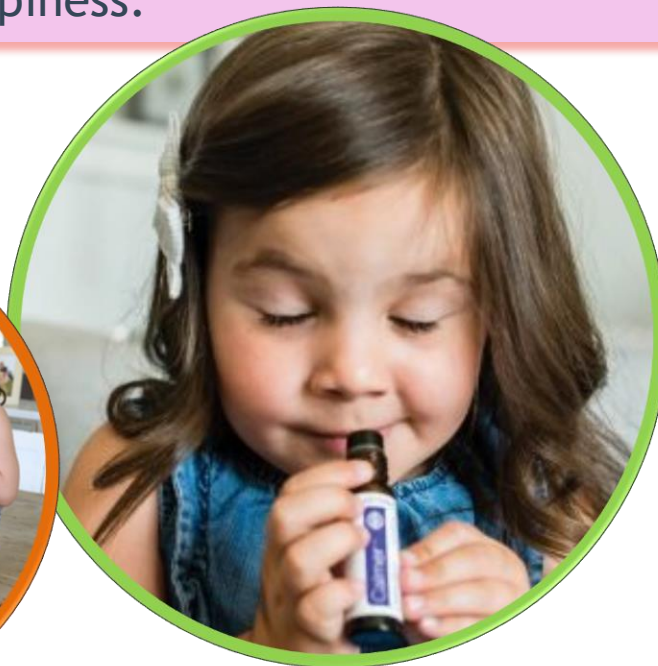

When trying an oil for the first time—or when using oils on children—the bottoms of the feet are a good place to start, because the skin there is thick & less prone to sensitivity

With adult help, your child can learn to safely apply these essential oil blends to their tummy, hands, head, and heart.

As your children grow up using these oils, they can learn to identify their feelings and solve everyday complaints for lifelong success and happiness.

It includes 5 billion live cells of a unique blend of six different probiotic strains, specifically selected for their benefits among children. A fun and tasty way to integrate probiotics into anyone's daily routine

doTERRA Baby

dōTERRA™

doTERRA has created a Baby Hair & Body Wash, and Diaper Rash Cream. Each product is infused with essential oils, and helps to cleanse, moisturize, and protect your baby's skin.

doTERRA

Baby Diaper

Rash Cream

Primary Use

Topical

Directions For Use:

Change soiled diapers quickly. Cleanse the diaper area and allow to dry. Apply cream liberally as often as necessary with each diaper change especially at bedtime or any time exposure to wet diapers may be prolonged.

Diaper Rash Cream – Protects delicate baby skin from excess moisture, helps balance and soothe skin, clinically tested and approved for sensitive skin

Many diaper creams, despite their intentions, can cause your baby's skin to become more irritated. The doTERRA Diaper Rash Cream is tested and approved for even the most sensitive skin. The Lavender, Carrot Seed, and Tea Tree essential oils included in the cream work to balance and soothe the skin, and work in concert with the Muya Shea Butter as it moisturizes.

doTERRA

Baby Hair &

Body Wash

Directions For Use:
Dispense several pumps onto hands or wash cloth and apply to hair and body. Lather and rinse thoroughly. Gentle enough for every day use.

Primary Use

Topical

Hair & Body Wash – Supports a baby’s soft skin, cleanses without disrupting skin’s natural balance, clinically tested to be tear free

The doTERRA Baby Hair & Body Wash contains Vanilla Extract, Lavender, and Roman Chamomile oils, which create the signature soft scent. You will also find raw East African Muya Shea Butter (an ingredient in all three baby products) which possesses fatty acids that support your baby’s soft skin.

Perhaps one of the most noticeable differences between the doTERRA **Baby Collection** and other brands is the chemicals that haven't been used; These include parabens, phthalates, propylene glycol, artificial colours, petrolatum, mineral oil, and talc.
