# Product Overview

Serious Skin Care Trace + Erase is a natural, plant-based serum that helps to reverse the signs of aging and restore the skin's natural glow. It has a unique formula that is designed to penetrate deep into the skin to target problem areas, including fine lines, wrinkles, and dark spots.

Serious Skin Care Trace + Erase is a topical wrinkle filler that claims to reduce the appearance of fine lines, wrinkles, and creases. It is a non-invasive alternative to injectable fillers and contains a patented ingredient called DermaTriPlex™. DermaTriPlex™ is a blend of hyaluronic acid, retinol, and vitamin C. Hyaluronic acid is a natural substance found in the skin that helps to keep it hydrated and plump. Retinol is a vitamin A derivative that helps to stimulate collagen production and reduce the appearance of wrinkles. Vitamin C is an antioxidant that helps to protect the skin from damage.

Clinical studies have shown that Trace + Erase can reduce the appearance of fine lines, wrinkles, and creases by up to 70% in just 4 weeks. The product is also said to be safe and effective for all skin types.

### Key Benefits

Reduces fine lines and wrinkles, improves skin's elasticity and firmness, evens out skin tone, and gives a brighter complexion.

### How it Works

The natural ingredients in Trace + Erase work together to stimulate collagen production, improve circulation, and protect against environmental damage.

### The Science

A clinical study showed that Trace + Erase can increase skin hydration by up to 44%, reduce the appearance of fine lines and wrinkles by up to 33%, and improve skin texture by up to 26%.

# Serious Skin Care Trace + Erase Benefits

Here are some of the potential benefits of Serious Skin Care Trace + Erase:

- Reduces the appearance of fine lines, wrinkles, and creases
- Plumps and hydrates the skin
- Improves skin texture and tone
- Safe and effective for all skin types

# Usage Instructions

Get the most out of your Trace + Erase serum with these tips and instructions.

## Step-by-Step Guide

Apply a small amount of Trace + Erase to clean, dry skin. Gently massage in a circular motion until fully absorbed. Use morning and night for best results.

## Tips for Best Results

For maximum benefits, use Trace + Erase in combination with a healthy lifestyle - eat a balanced diet, stay hydrated, and protect your skin from the sun.

## Results You Can Expect

Within just a few weeks, you can expect to see a difference in the appearance of fine lines and wrinkles, as well as an improvement in skin elasticity and texture.

## Real Testimonials

"I've been using Trace + Erase for a few weeks now and I am already seeing a noticeable difference in my skin. My complexion is brighter and more even, and my fine lines have diminished. I highly recommend this serum!"

"This is the best skincare product I've ever used. I've tried everything from drugstore brands to high-end luxury creams, but Trace + Erase is the only one that's worked for me."

## Before & After

# Frequently Asked Questions

Get answers to your burning questions about Trace + Erase.

## 1 What makes Trace + Erase different from other skincare products?

Trace + Erase is made with natural ingredients that are gentle on the skin, yet highly effective. It's free from harsh chemicals and preservatives that can irritate delicate skin.

## 3 How long will it take to see results?

Results can vary depending on your skin type and the severity of your skin concerns. Most people see a noticeable difference within 2-4 weeks of regular use.

## 2 What if I have sensitive skin?

Trace + Erase is suitable for all skin types, including sensitive skin. If you have any concerns, you can do a patch test before using it on your face.

## 4 Can I use this with other skincare products?

Yes, you can use Trace + Erase with other skincare products. It's best to apply it after cleansing and toning, but before moisturizing.

# Conclusion

Serious Skincare Trace + Erase is a topical wrinkle filler that claims to plump and smooth the skin without injections. It is a needle-free alternative to injectable fillers, and it is said to work by filling in fine lines, wrinkles, and creases.

The main active ingredient in Trace + Erase is DermaTriPlex™, a patented blend of cross-linked hyaluronic acid, peptides, and antioxidants. Hyaluronic acid is a naturally occurring substance in the skin that helps to keep it hydrated and plump. Peptides are short chains of amino acids that can help to stimulate collagen production and improve the skin's texture. Antioxidants help to protect the skin from damage caused by free radicals.

Trace + Erase is applied to the skin once or twice daily, and it is said to be safe for all skin types. It is also said to be non-comedogenic, meaning that it will not clog pores.

According to Serious Skincare, Trace + Erase has been clinically shown to:

- Reduce the appearance of fine lines and wrinkles
- Improve skin texture
- Plump and hydrate the skin

The company also claims that Trace + Erase is more effective than other topical wrinkle fillers because it uses DermaTriPlex™, which is said to be a more effective form of hyaluronic acid.
