

City Residence- the Apartments

Construction Update

November 2020

November 2020

Design of Blocks A and B is all but complete.

The apartments at City Residence in Liverpool have undergone near completion of Block A and B design whilst other pre-construction activities have continued into the period. Construction will begin on site in the new year.

Summary of Works Progressed

- First formal design team meeting held
- Foundation design including drainage and retaining walls structures issued
- Brick specification finalised
- Pre-construction preparations on site

Works Scheduled

- Architect to update the planning tracker
- Highways review to be undertaken with the Local Authority
- Final design co-ordination to take place following Acoustic report
- Workshop to be arranged with the mechanical and electrical consultant
- CFD modelling for building control to be carried out
