

[www.usecapillus.com](http://www.usecapillus.com) – Capillus Laser Cap Review

If you've been struggling with hair loss whether from hereditary or from the side effects of taking your medications the [www.usecapillus.com](http://www.usecapillus.com) TV offer provides a degree of hope for new hair growth. Capillus, the company behind the Capillus Hair Cap, offers products catering to both women and men struggling with thinning hair.

### **Use Capillus Review**

The Capillus as seen on TV is a personal LLLT (low level laser therapy) cap that utilizes safe low level lasers to stimulate hair growth and prevent hair loss. LLLT or laser therapy is not a new technology but has been around for years and has been encapsulated inside a baseball cap. The [Capillus hat](#) is to be worn for 6 minutes per day everyday for maximum effectiveness.

Over the course of 6 months to a year if used as directed you should see some results. You should notice new hair growth and a slowing down of hair loss. You will need to be patient and be committed to the process as it will take time. Hair regrowth in clinical trials was 51% more hair in 17 weeks. Over 95% of active clinical study participants had increase in hair counts within 17 weeks.

It is recommended before deciding to purchase a [Capillus product](#) to see the advice of a hair restoration expert to determine if laser therapy is right for you. At [www.usecapillus.com](http://www.usecapillus.com) there is

a hair loss evaluation form that you can complete which will connect you with a specialist in your area.

## **Capillus Cap Models**

There are 3 different types of caps that customers can choose from with differences basically in the number of laser diodes that each unit offers. As each cap increases in laser diodes the Capillus cost increases as well as the warranty. You can select which one is best for you based on your budget. Each device has auto-programmed treatment sessions built in.
