7) Social distancing is a tactic that reinforces dependency.
The puppet masters need us to rely on them to tell us what is good for us.
If they create fear in our minds, we'll do what they say, which is how they control our behavior.

15) The only reason we're not discussing Joe and Hunter Biden and Ukraine corruption is that we allowed politicians and the media to set the public narrative for 2 months.

What would happen if we simply stopped engaging in discussions about THEIR favorite topics?

16) We've been trained to react to whatever the press wants to discuss.

We're accustomed to letting THEM establish the narrative.

As digital soldiers, we need to be more consistent at establishing OUR narrative.

Q helps us identify the topics we should be discussing.

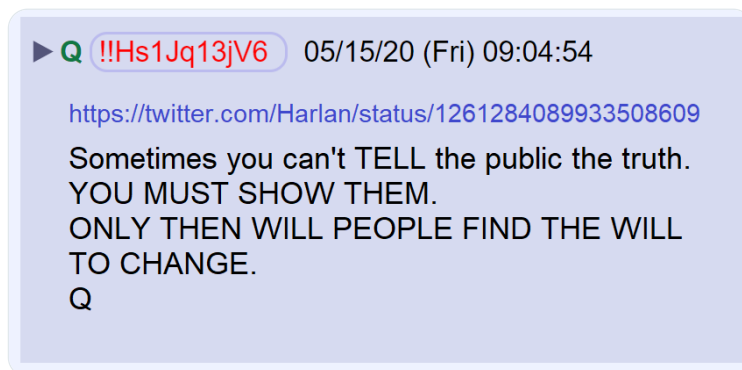

17) Some wonder why POTUS has allowed our economy to be destroyed.

18) We allow ourselves to be controlled until we're put in a situation where we either surrender all personal freedoms or throw off the chains of oppression.

By allowing Mayors and Governors to lock us in our homes, POTUS is SHOWING us the corruption of our political leaders.

Director of National Intelligence Announces Changes to Election Security Briefings

WASHINGTON, D.C. –Today, the ODNI announced that the U.S. Intelligence Community (IC) will lead all intelligence-based threat briefings to candidates, campaigns, and political organizations under the U.S. Government's notification framework. Bill Evanina, the Director of the National Counterintelligence and Security Center, will serve as the IC's leader to this critical effort.

"US elections are the foundation of our nation's democracy. We are committed to supporting this Administration's whole-of-government effort to secure the 2020 election," said Evanina.

This change represents an important improvement and simplification to the threat notification process. The IC will continue to work in partnership with FBI and DHS to identify and integrate threat information, and Evanina and the elections team will act swiftly to deliver the timely and thorough assessments to those affected by potential malicious influence.
