What is VITO doing?

VITO®
oil filter system
MADE IN GERMANY

Thanks to the patented pressure-flow filtration, VITO filters chips and particles out of your coolant.
You benefit from an increased tool life, save on maintenance costs around your machines and increase the performance of your coolant.
In addition, water based coolants get ventilated during the filtration with VITO.

VITO works in water based coolants as well as in oils.

Your benefits with VITO

- Reduced wear on the tools
- Less maintenance and involved costs on your machines
- Higher performance of the coolant
- Environmentally friendly and protection of health
- Reduced fungus und bacteria growth

made in Germany
