My theme: Red October

2) Heading toward the midterm elections, Q has often used the term Red October. Lots of possible decodes (multiple meanings exist) but I believe presently, it simply refers to the red wave that is coming to DC.

3) Q posted links to a couple of tweets to give us a quick history lesson.

8) It's not easy to find recent stats on airplane crashes so it's difficult to say if the number is abnormal. There have been no military crashes since the 29th (at least none that I was able to find.) Q previously noted there were many military crashes in a short period of time

9) The day before Q posted about the Air National Guard, (the 28th) there was a first-ever crash of an F-35.

14) What follows is a lot of information about John Perry Barlow, Edward Snowden, the Freedom of the Press Foundation, and Secure Drop. It isn't absolutely necessary to understand all this information.

You simply need to know that something was exposed by Q and then dealt with.

15) If you'd like to get the backstory on these people and issues, information is provided in the tweet below. But as I said, it isn't absolutely necessary. A summary will be provided as an alternative.

16) In February, Q hosted extensive discussions about Edward Snowden and John Perry Barlow and their work related to Secure Drop and the Freedom of the Press Foundation. This thread provides background information.

The relevant information begins here:

17) If you don't have time/interest to read the above information, keep moving and skim through the next posts.

18) Last night, an anon reposted this comment by an anon from February and then provided a long commentary on it.

19) The main point:

Edward Snowden was being used by the clowns to get journaists to use Secure Drop for communications with leakers & whistleblowers.

The clowns were monitoring Secure Drop which allowed them to control stories & shape the public narrative.

20) This was Q's response.

Those involved in Freedom of the Press Foundation & Secure Drop were dying under mysterious circumstances.

Q told Snowden, "You are now a liability" (to the deep state).

He asked Snowden how long it would be before they killed him.

John Barlow dig

Who would want to kill John Barlow?

What benefit would John Barlow's death provide?

When was John Barlow murdered?

Did John Barlow survive a murder attempt only to succumb to its lingering effects eventually?

Washington Post:

Meet the man whose utopian vision for the Internet conquered, and then warped, Silicon Valley

By Jacob Silverman

"To understand where this cyber-libertarian ideology came from, you have to understand the influence of "A Declaration of the Independence of Cyberspace," one of the strangest artifacts of the '90s, and its singular author, John Perry Barlow. Perhaps more than any other, it's his philosophy — which melded countercultural utopianism, a rancher's skepticism toward government and a futurist's faith in the virtual world — that shaped the industry.

## Part 2

"A Declaration of the Independence of Cyberspace" was an utterly serious document for a deliriously optimistic era

Barlow's 846-word text, published online in February 1996, begins with a bold rebuke of traditional sovereign powers: "Governments of the Industrial World, you weary giants of flesh and steel, I come from Cyberspace, the new home of Mind. On behalf of the future, I ask you of the past to leave us alone. You are not welcome among us. You have no sovereignty where we gather." He then explains how cyberspace is a place of ultimate freedom, where conventional laws don't apply.

When Eric Schmidt describes the Internet, however misguided, as "the world's largest ungoverned space" in his book "The New Digital Age," he is borrowing Barlow's rhetoric. When tech mogul Peter Thiel writes, in "The Education of a Libertarian," that he founded PayPal to create a currency free from government control and that "by starting a new Internet business, an entrepreneur may create a new world," it's impossible not to hear **Barlovian** echoes. (That grandiose attitude is so common now that HBO has a comedy, "Silicon Valley," dedicated to mocking it.)

The above article was published on March 20, 2015

Barlow suffered a near-fatal heart attack on May 27, 2015. He later reported that he was recovering.

### 23) Part 3

## Part 3

### John Perry Barlow - 187 post name [DROP]

187 = murder

post = Washington Post

Barlovian = name [DROP]

Q suggests John Barlow was murdered for his ability to influence through his activities in the Freedom of the Press Foundation. The Washington Post article highlights Barlow's ability to influence wealthy technocapitalists towards his idealistic goals.

**@Snowden**

**You are now a liability.**

Freedom of the Press Foundation (FPF) is a non-profit organization founded in 2012 to fund and support free speech and freedom of the press.

**Its mission includes "promoting and funding aggressive, public-interest journalism focused on exposing mismanagement, corruption, and law-breaking in government"**

If wealthy people support Barlow's idealistic goals then they might help support the Freedom of the Press Foundation's goals, "promoting and funding aggressive, public-interest journalism focused on exposing mismanagement, corruption, and law-breaking in government."

Edward Snowden has moved in to the position which was vacant due to Barlow's death. Q is stating Edward Snowden is identified as a liability by the same individuals who caused John Barlow's 187.

<https://pbs.twimg.com/media/Doh1FbzU8AAKMS0.jpg>

### 24) Part 4

## Part 4

Other Unanswered Questions:

Whose crimes are threatened to be exposed by John Barlow's activities?

Was John Barlow's relationship with Dick Cheney part of the motive that led to his death?

Was the heart related death of Barlow's girlfriend Cynthia Horner a botched first attempt to murder John Barlow?

*John Barlow was engaged to Cynthia Horner, a doctor whom he met in 1993 at the Moscone Center in San Francisco while she was attending a psychiatry conference and Barlow was participating in a Steve Jobs comedy roast at a convention for the NeXT Computer. Cynthia Horner died unexpectedly in 1994 while asleep on a flight from Los Angeles to New York City, days before her 30th birthday, from a heart arrhythmia apparently caused by an undetected viral myocarditis.*

Who adapted Jacob Silverman's book for the Washington Post article?

Jacob Silverman is the author of "Terms of Service: Social Media and the Price of Constant Connection," from which this article is adapted.

Is the Washington Post article a HIT piece or coincidence?

**John McCain, military hero and Senate "maverick," has died at 81**

Share / Tweet / Reddit / Flipboard / Email

John McCain, the military hero who had a long career as a "maverick" Republican senator, has died, his Senate office confirmed on Saturday. He was 81.

In a statement, his Senate office said he died at 4:28 p.m. on August 25, surrounded by his wife Cindy and his family.

McCain was diagnosed with glioblastoma, an aggressive form of brain cancer, in July 2017. On August 24, McCain's family said that "with his usual strength of will," he had chosen to discontinue treatment. Though McCain had "surpassed expectations for his survival, ... the progress of disease and the inexorable advance of age render their verdict," the statement said.
