## IDENTIFICATION OF GERMAN AIRCRAFT

(This manual supersedes FM 30-35, July 5, 1941.)
The material contained in this manual has been secured from many sources. It is the best material available but may be incomplete and, in some respects, inaccurate.

This manual containing illustrations with explanatory data relative to German aircraft is published for distribution. It will be used for instruction of officers and men in appearance and general characteristics of German aircraft.

The German airplane markings are as shown below:
