My Theme: It's Time to Wake Up

2) On October 31, 2017, Q said Barack Obama, Vladimir Putin, Hillary Clinton, and other world leaders were secretly controlled by 3 families.

Anonymous ID:grTMpzzL Tue 31 Oct 2017 20:00:47 No.147434025 Report
Quoted By: >>147435234 >>147444628 >>147448067 >>147450143 >>147451286

There are more good people than bad. The wizards and warlocks (inside term) will not allow another Satanic Evil POS control our country. Realize Soros, Clintons, Obama, Putin, etc. are all controlled by 3 families (the 4th was removed post Trump's victory).

11.3 - Podesta indicted
11.6 - Huma indicted

Manafort was placed into Trump's camp (as well as others). The corruption that will come out is so serious that deals must be cut for people to walk away otherwise 70% of elected politicians would be in jail (you are seeing it already begin). A deep cleaning is occurring and the prevention and defense of pure evil is occurring on a daily basis. They never thought they were going to lose control of the Presidency (not just D's) and thought they had control since making past mistakes (JFK, Reagan).

Good speed, Patriots.
PS, Soros is targeted.

3) After the arrest of members of the Saudi royal family on November 4th, 2017, Q said a significant shift in power had occurred.

One of the 3 controlling families (the House of Saud) had lost its power.

4) Since then, there has been a battle to free world leaders from the grip of the corrupt people who control them.

The peace talks POTUS has had with Kim Jong-un were made possible by freeing him from those who previously controlled him.

5) In 2009, while Hillary Clinton was Secretary of State, she launched the famous "Russia Reset" program where the U.S hoped to improve its strained relations with Russia.

6) The "Russia Reset" allowed dozens of tech companies to build a knock-off of Silicon Valley in Russia, called Skolkovo.

(Many of the firms that participated in the project had donated to the Clinton Foundation or paid Bill Clinton a speaking fee.)

<https://www.investors.com/politics/editorials/hillarys-biggest-scandal-russia-and-her-reset-pal-vladimir-putin/>

New [revelations](#) from Peter Schweizer, the author of the meticulously documented book "Clinton Cash," and Stephen K. Bannon, executive chairman of Breitbart, show that Hillary's campaign Chairman John Podesta "sat on the board of a small energy company alongside Russian officials that received \$35 million from a Putin-connected Russian government fund."

Making things worse, Podesta never fully disclosed the relationship, as the law requires. But of greater concern than Podesta is what it says about Clinton's strange and mutually beneficial relationship with Russia that led to Clinton lending a hand in helping Vladimir Putin build Skolkovo, a high-tech community meant to be "the Russian equivalent of America's Silicon Valley."

This is not some sort of free-enterprise experiment. [As the authors detail](#) in a study published by the Government Accountability Institute, some 30,000 workers toiled in the state-of-the-art tech hub "under strict governmental control." While Clinton was in charge at the State Department, the U.S. recruited a bunch of U.S. high-tech powerhouses -- including Google, Cisco and Intel -- to take part in the project. Of the 28 companies from the U.S., Europe and Russia that took part, 17 were donors to the Clinton Foundation or paid for Bill Clinton to give speeches.

It's yet another stunning example of the Clinton Foundation's growing list of conflicts of interest, suggesting that Hillary used the State Department's offices to line her family's pockets through the Clinton Foundation. Don't forget that, with her email carelessness on her home-brew server during her tenure as secretary of state, Hillary has already exposed the United States' most secret information to the Russian government. As radio talk show host and law professor Hugh Hewitt noted Monday: "Hillary is already a Putin pawn."

This was no accident. Nor was it innocent. FBI Assistant Special Agent Lucia Ziobro in 2014 sent a letter to several U.S. corporate participants in the project warning: "The (Skolkovo) foundation may be a means for the Russian government to access our nation's sensitive or classified research development facilities and dual-use technologies with military and commercial application."

7) The Russia Reset also paved the way for the sale of the North American company Uranium One to the Russian state-owned energy company Rosatom.

6 EXPLOSIVE URANIUM ONE FACTS: SECRETARY CLINTON BETRAYED AMERICA

1. THE FORMER HEAD OF RUSSIA'S URANIUM COMPANY MADE FOUR HIDDEN DONATIONS TO THE CLINTON FOUNDATION TOTALING \$2.35 MILLION
2. BILL CLINTON BAGGED A \$500,000 SPEECH IN MOSCOW PAID FOR BY A KREMLIN-BACKED BANK
3. THE FBI HAS UNCOVERED EVIDENCE THAT RUSSIAN NUCLEAR INDUSTRY OFFICIALS ENGAGED IN BRIBERY, KICKBACKS, EXTORTION AND MONEY LAUNDERING
4. THE CLINTON FOUNDATION RECEIVED \$145 MILLION FROM FOREIGN INVESTORS INVOLVED IN THE URANIUM DEAL
5. FBI AGENTS HAVE AN EYEWITNESS AND DOCUMENTS TO SUPPORT THE MOST EXPLOSIVE PARTS OF THE URANIUM ONE STORY
6. CLINTON MEGA DONOR FRANK HOLMES LIED ABOUT SELLING URANIUM ONE BEFORE CLINTON APPROVED THE RUSSIAN TRANSFER

8) 8) Democrats claim that Russia is an eternal bogeyman that wants nothing more than to destroy the U.S.,

The Russia reset and Obama's hot mic statements prove that this narrative is a smokescreen created by politicians to hide their real intentions.

9) While Ukraine battled Russia, the Obama administration provided aid to Ukraine but none of it was military.

If Russia is such a serious threat, why didn't Obama provide military aid to Ukraine?

The White House
Office of the Press Secretary

For Immediate Release June 15, 2016

FACT SHEET: U.S. Assistance to Ukraine since February 2014

During his meeting with Ukrainian Prime Minister Volodymyr Groysman, Vice President Joe Biden announced today in Washington that, pending Congressional notification, **the White House plans to commit \$220 million in new assistance to Ukraine** this year in support of economic, political, and energy reforms. This assistance package will continue our support for Ukraine's efforts to strengthen democratic institutions and the rule of law, reinforce the foundations for sustainable economic growth, and respond to humanitarian needs. The new assistance will also support other key areas of Prime Minister Groysman's ambitious reform agenda, including:

- **Accelerating customs reform**, including by providing legal, regulatory, infrastructure, and e-customs support; creating a new customs monitoring center; and assisting in implementing reforms of the recruitment, selection, vetting, training, and equipping of new customs officers, based on the successful patrol police model.
- **Fighting corruption** through support for key justice sector reforms, including implementation of the constitutional amendments adopted by the Rada on June 2 and Prosecutor General Yuriy Lutsenko's reform agenda, and by expanding our partnerships with the National Anti-Corruption Bureau, Specialized Anti-Corruption Prosecutor's Office, and National Police, as well as support for independent media and civil society.
- **Extending decentralization** across Ukraine, helping to improve service delivery, increase citizen engagement and oversight, and raise public awareness of the benefits of reforms.
- **Expanding support for energy security** through programs that establish competitive and transparent gas and electricity markets in line with EU standards, diversify sources of energy, improve energy efficiency, support privatization, and enhance cybersecurity.

In addition, on June 9, the Overseas Private Investment Corporation (OPIC) approved up to \$62.5 million in financial support to two private equity funds that will invest in Ukraine across a number of sectors including agribusiness,

10) During his impeachment, Dems accused POTUS of illegally withholding military aid to Ukraine—aid that Obama never authorized.

If withholding military aid to Ukraine is such a terrible decision, how do you explain Obama's decision not to approve any military aid to Ukraine?

Hunter Biden Accused of \$156M Counterfeiting Scheme With Burisma, CrowdStrike, Legal Filing Claims

BY TYLER O'NEIL DECEMBER 30, 2019

COMMENTS

Hunter Biden's bank account records reveal a \$156 million counterfeiting scheme involving Ukrainian gas firm Burisma and the cybersecurity firm CrowdStrike, according to a new legal filing in an Arkansas paternity case. The document, filed Friday by the Florida-based private-eye firm D&A Investigations, intends to notify the court of "felonies including Fraud and Counterfeiting." The document names Burisma, the gas company that hired Biden to the board while his father, then-Vice President Joe Biden, was the Obama administration point person on Ukraine, and CrowdStrike, which investigated the hacking of DNC emails in 2016.

In the case, Lunden Alexis Roberts, a former Washington, D.C., stripper, is seeking full custody and child support after a November paternity test confirmed that Roberts' son — born in August 2018 — was indeed Hunter Biden's child. Hunter Biden's older brother, Beau, passed away in 2015. In 2017, the younger brother divorced his wife of more than 20 years, Kathleen Biden, and dated Hallie Biden, Beau's widow. Since he did not break up with his late brother's widow until April 2019, the paternity test showed that he cheated on her.

One month after the break-up with Hallie, he married Melissa Cohen in a surprise wedding.

While the paternity case reveals the sordid details of Hunter Biden's sex life, it may also shed light on potential corruption in Ukraine.

According to the filing, "the bank account records provide the source and destination bank account numbers of: Burisma Holdings Limited, PrivatBank, Bank of China, DEFENDANT's business partners, Rosemont Seneca Bohai, LLC, a/k/a RSB, LLC, a/k/a RSB01, LLC."

"They also verify the Counterfeiting scheme accumulating \$156,073,944.24 with an Average Account Value (monthly balance) in the amount of: \$6,785,823.66," the filing adds.

45) The claim links Burisma and CrowdStrike. "Burisma Holdings Limited, finances Atlantic Council (Ukraine) and associated rogue operatives from the USDOS, FVEY and CrowdStrike in Ukraine, using PrivatBank."

PJ MEDIA NEWS & POLITICS COLUMNS ELECTION 2020 CULTURE

Investigation Involving Burisma, Legal Filing Claims

Perhaps the most explosive claim came with the link between Burisma and CrowdStrike. "Burisma Holdings Limited, finances Atlantic Council (Ukraine) and associated rogue operatives from the USDOS, FVEY and CrowdStrike in Ukraine, using PrivatBank."

The document provides a brief background to PrivatBank's slimy dealings. "December 2016 into January 2017. After the theft of \$5.4 +/- billion in foreign aid, the International Monetary Fund (IMF) froze foreign aid to Ukraine and suspended PrivatBank's international transactions. On 11 September 2019. The IMF released the freeze to allow foreign aid after the Ukraine Court issued Search and Seizure Warrants to be executed on PrivatBank."

These claims would back up President Donald Trump's suspicions voiced in a call with Ukraine President Volodymyr Zelensky. In the call, which has become the center of the Democrats' impeachment push, Trump asked Zelensky to investigate Hunter Biden and CrowdStrike.

Trump's request on CrowdStrike seems related to a rather questionable theory -- described by mainstream media outlets as a conspiracy theory -- that when CrowdStrike investigated the DNC server hacked in 2016, the company took them to Ukraine to hide them. There are many problems with the theory, including the fact that the hacked servers were cloud-based.

48) On July 25th, the IMF said it had a standby loan for Ukraine for \$3.9 billion but it was contingent upon further talks with the incoming government later in the year.

(The IMF also conditioned the loan on reforms to Ukraine's oligarchic structure.)

There's a question online on Ukraine, asking about the Ukrainian authorities expect the IMF to soften its stance on natural gas prices for Ukrainian households. They also said that Ukraine could receive 2 billion in loans from the IMF this year under a new assistance program. Any update on that? On Ukraine, we have approved, in the recent past, a standby arrangement and it's in the order of about \$3.9 billion, and there was a disbursement made actually under that following the Board approval.

So, to update that we had an IMF Mission visiting Kiev earlier this summer, toward the end of May, to discuss recent developments and economic policies including with the new government. We issued a statement after that in which we noted, and this is kind of where we are that the team stands ready to return to Kiev, to the Ukraine to continue discussions after the Parliamentary Elections and as soon as the new government is able to clarify its policy intentions.

49) That same day, IMF alternate managing director Vladyslav Rashkovan wrote an editorial expressing optimism that Ukraine had turned a corner, financially.

**ADHERENCE TO AND COMPLIANCE WITH
ARMS CONTROL, NONPROLIFERATION, AND DISARMAMENT
AGREEMENTS AND COMMITMENTS**

August 2019
Prepared by the U.S. Department of State

59) Although China signed a zero-yield nuclear weapons testing moratorium, the State Department believes they are likely in violation of the agreement.

**PEOPLE'S REPUBLIC OF CHINA (CHINA)
FINDING**

The information raised by DIA Director LTG Robert Ashley in his remarks at the Hudson Institute on May 29, 2019, including China's possible preparation to operate its test site year round and its use of explosive containment chambers, coupled with China's lack of transparency on their nuclear testing activities, raise questions regarding its adherence to the "zero-yield" nuclear weapons testing moratorium adhered to by the United States, United Kingdom, and France.

CONDUCT GIVING RISE TO COMPLIANCE CONCERNS

China probably carried out multiple nuclear weapon-related tests or experiments in 2018. Additional information is provided in the higher classification version of this report.

ANALYSIS OF COMPLIANCE CONCERNS

The nature of these tests raises concerns regarding China's adherence to its moratorium, which China declared in 1996, judged against the U.S. "zero-yield" standard.

EFFORTS TO RESOLVE ADHERENCE CONCERNS AND NEXT STEPS

The United States has in previous years attempted to engage China in discussions about test site transparency, as a confidence building measure, and sought to begin the process by inviting the P5 States (China, France, the UK, and Russia) to the Nevada National Security Site.

In addition, the United States will continue to monitor activities in China.

60) The State Department believes Russia is also in violation of the zero-yield nuclear testing agreement.

RUSSIAN FEDERATION (RUSSIA)

FINDING

The United States assesses that Russia has not adhered to its nuclear testing moratorium in a manner consistent with the U.S. “zero-yield” standard. The United States, including the Intelligence Community, has assessed that Russia has conducted nuclear weapons tests that have created nuclear yield.

CONDUCT GIVING RISE TO COMPLIANCE CONCERNS AND ANALYSIS OF COMPLIANCE CONCERNS

Despite Russia renewing its nuclear testing moratorium in 1996, some activities in Russia have demonstrated a failure to adhere to the U.S. zero-yield standard, which would prohibit supercritical tests. Additional information is provided in the higher classification version of this report.

EFFORTS TO RESOLVE ADHERENCE CONCERNS AND NEXT STEPS

The United States has in previous years attempted to engage Russia in a discussion on test site transparency measures, as a confidence building measure, and sought to begin the process by inviting the P5 States (China, France, the UK, and Russia) to the Nevada National Security Site.

In addition, due to ongoing activities in Russia, the United States will continue to monitor Russia for evidence of nuclear testing activities.

IMPLICATIONS FOR U.S. SECURITY AND OTHER INTERESTS

Russia’s development of new warhead designs and overall stockpile management efforts have been enhanced by its approach to nuclear testing. Our understanding of nuclear weapon development leads the United States to assess that Russia’s testing activities would help it to improve its nuclear weapons capabilities. The United States, by contrast, has forgone such benefits by upholding a “zero-yield” standard.

61) For many years, Iran has harbored secret nuclear weapons facilities and programs and they've denied access to IAEA inspectors.

Activities in connection with Iran’s past violations of its obligations under Articles II and III of the NPT and its CSA began in the early 1980s. In 2002, an Iranian opposition group publicly revealed covert nuclear facilities under construction at Natanz and Arak that Iran had failed to declare to the IAEA. Reports from the resulting IAEA investigation led the IAEA Board of Governors (BOG) to declare Iran in noncompliance with its CSA in 2005 and to report the case to the United Nations Security Council (UNSC) in 2006. In 2009, Iran announced another previously undeclared uranium enrichment facility under construction near the city of Qom, Iran, after the United States, the UK, and France publicly disclosed the facility’s existence. From 2006 to 2011, the Security Council adopted multiple resolutions on Iran, four of which imposed binding obligations under Chapter VII of the UN Charter (UNSCRs 1696, 1737, 1747, and 1803).

From 2006-2013, as detailed in previous Compliance Reports and as well as multiple IAEA reports, Iran continued to perform uranium enrichment-related and plutonium production-related activities in contravention of both UNSC and IAEA BOG resolutions, including: research and development work on advanced centrifuges; enrichment of uranium up to nearly 20 percent at both the Natanz Pilot Fuel Enrichment Plant and the Fordow Fuel Enrichment Plant; construction of the IR-40 heavy water-moderated research reactor at Arak; and operation of its heavy water production plant at Arak. During this timeframe, Iran did not fully cooperate with the IAEA in regard to its declared facilities. In particular, as noted in previous versions of this report, Iran did not provide design information or report design changes in advance of any action taken to modify existing facilities or construct new ones, as required by modified Code 3.1 of the Subsidiary Arrangements to Iran’s CSA.

62) The State Department's latest report shows that nothing has changed. Iran continues to conceal the details of its weapons programs.

From 2008 through 2014, the IAEA reported ongoing concerns about the possible existence in Iran of undeclared nuclear-related activities involving military-related organizations. The Annex to the November 2011 report of the IAEA Director General detailed the basis for concerns regarding elements of Iran’s nuclear program with PMD. The report stated that, according to credible reports from multiple sources, Iran had a structured military program through 2003, including activities related to the development of a nuclear payload for a missile, and that some nuclear weapon-related activities may have continued after 2003.

On December 2, 2015, the IAEA issued its Final Assessment on Past and Present Outstanding Issues regarding Iran’s Nuclear Program. The report noted areas where the IAEA did not receive further information in response to its inquiries, or where other information available to the IAEA did not support Iran’s statements regarding some of the activities in the PMD file. The discovery of Iran’s secret nuclear archive in 2018 raises unresolved questions about Iran’s concealment of critical information about its past nuclear weapons activities from the IAEA.

As noted in previous editions of this report dating back to 2015, the December 15, 2015, decision by the IAEA BOG to close its PMD agenda item does not preclude the IAEA from investigating any information that is new or inconsistent with its previous assessment of Iran’s past nuclear weapons program, or where it has concerns regarding the potential existence of undeclared nuclear materials or activities.

63) Like Iran, Syria has concealed its nuclear programs from inspectors and governing agencies.

SYRIAN ARAB REPUBLIC (SYRIA)

FINDING

The Syrian Arab Republic (Syria) remains in violation of its obligations under Article III of the NPT and its CSA with the IAEA. Syria failed to declare and provide design information to the IAEA for the construction of the reactor at Al Kibar (also known as Dair Alzour), which was destroyed in an Israeli airstrike in September of 2007. Syria's clandestine construction of the Al Kibar reactor and its continued denial of IAEA requests for access and information concerning the Al Kibar reactor and information concerning functionally related locations are clear violations of its obligations under its CSA, including with respect to modified Code 3.1 of the Subsidiary Arrangements to its CSA. To the extent that these activities were undertaken in connection with an effort to develop nuclear weapons, Syria may have violated Article II of the NPT. Given the IAEA's finding of anthropogenic uranium particles at the site, we have compliance concerns with regard to whether any undeclared nuclear material might exist in Syria.

64) It's apparent that Syria gets much of its nuclear technology from Iran. An inspection of one facility in Syria found design elements similar to a facility located in North Korea.

Syria became a State Party to the NPT in 1968, and its CSA entered into force in 1992. It had not signed the AP as of the end of 2018.

Al Kibar Site. Until September 2007, Syria was building an undeclared nuclear reactor at Al Kibar (in the province of Dair Alzour) in Syria's eastern desert. North Korea assisted Syria with its construction.

Despite repeated requests, Syria did not allow the IAEA access to Al Kibar until June 2008. In May 2011, the IAEA Director General (DG) released a report assessing that the facility at Al Kibar was "very likely" a nuclear reactor that should have been declared to the Agency pursuant to Articles 41 and 42 of Syria's CSA and Code 3.1 of the Subsidiary Arrangement thereto. The report also noted that the reactor had features comparable to the gas-cooled, graphite-moderated reactor at Yongbyon in the DPRK.

The 2007 Israeli air strike destroyed the reactor before it could become operational. Following the reactor's destruction, Syria went to great lengths to clean up the site and to destroy evidence of what had previously existed at the site. By December 2007, Syria had constructed a large building directly over the location where the reactor had once stood.

During the reporting period, the IAEA DG issued a written report on Syria and provided updates at IAEA Board of Governors (BOG) meetings confirming that Syria had not provided any new information that would have an impact on the Agency's assessment that the facility at Dair Alzour was a nuclear reactor that should have been declared to the Agency. The IAEA DG continued to call on Syria to provide all information and access necessary for the IAEA to address all outstanding issues related to the site, including information on additional sites having a possible functional relationship to the Al Kibar reactor.

65) In November of 2017, Q said North Korea gets its strategic (nuclear) intel from Iran. That fact is born out by this State Department report.

Would it blow your mind if I told you BO has been to NK and perhaps there now?

Why did his administration do little to slow their nuclear and missile capabilities?

Who feeds NK w/ strategic intel? Iran?

What deal was done with Iran under BO?

Why was the deal sealed under a top secret classification?

Why wasn't Congress notified?

Why after BO left office all of a sudden NK has nukes and the tech to miniaturize for payload delivery within the US?

What about NSA CIA DI etc all confirming tech won't be in place for 5+ years (statements made in 2016).

Why is all of this relevant and what does it tell you?

Big picture is rare.

67) On page 174, I discuss a post that suggests POTUS may have secretly flown to Las Vegas the night of the mass shooting on October 1st, 2017

I incorrectly calculated the time zone difference. The shooting happened at 10 pm in Las Vegas which was 1 am in Washington DC, not 7 pm

Was POTUS in LV that night?
Yes/no?
Why was he there?
Who did he have a classified meeting with?
Did AF1 land at McCarran?
What unmarked tail numbers flew into McCarran that night?
Trace AF1 that entire day.
What do you notice?
Classified.
Q

Military and commercial air traffic can be tracked on a number of publicly accessible websites. Air Force One flight logs do not conclusively show the President making a trip to McCarran airport in Las Vegas on October 1st, 2017. It's possible that Air Force One's transponder was turned off if there was a flight to Las Vegas. If the transponder *was* turned off, there would be no data available by which to track the flight. That may be what Q was hinting at when he said, "Trace AF1 that entire day. What do you notice?"

Q suggested more than one aircraft flew into McCarran with unmarked tail numbers. I would assume if this was the case, these measures were taken to ensure privacy. President Trump could have taken an aircraft other than the Boeing 747 he normally uses. Did he take a military flight?

The shooting in Las Vegas happened at around 10 pm local time. That corresponds to 7 pm on the east coast. On the afternoon of October 1st, POTUS was at the President's Cup golf tournament in Bedminster, New Jersey. After the tournament, he returned to Joint Base Andrews at 7:34 pm eastern and then, at 7:50, took a short flight on Marine One back to the White House.

Public Pool is an automated feed of White House press pool reports. This was the report from the evening of October 1st, 2017:

68) Since the shooting happened at 1 am in Washington DC, if POTUS did travel to Las Vegas that night, he may have arrived there before the shooting.

Huma and HUMA

Air Force One touched down at Joint Base Andrews at 7:34pm after an uneventful flight. No gaggle or POTUS remarks on plane.

10 minutes later Trump deplaned, but answered none of the shouted questions about tweets and Puerto Rico.

At 7:50 pm he lifted off on Marine One, bound for the White House.

By the time the President returned to the White House the night of October 1st, the shooting had already happened. On Monday morning, October 2nd, the President received his daily briefing at 10 am as reported by *Conservative Daily News*.

By the time POTUS returned to the White House, the shooting had not yet happened.

ATTACHMENT B

I, Isidro Cruz, am a Special Agent with the Department of Homeland Security, Homeland Security Investigations. I am fully familiar with the facts set forth herein based on my own investigation, my conversations with other law enforcement officers, and my review of reports, documents, and items of evidence. Where statements of others are related herein, they are related in substance and part. Because this complaint is being submitted for a limited purpose, I have not set forth each and every fact that I know concerning this investigation. Where I assert that an event took place on a particular date, I am asserting that it took place on or about the date alleged.

Background

1. At all times relevant to this Complaint, defendant Stephen Salamak ("SALAMAK") was a resident of Lodi, New Jersey. At all times relevant to this Complaint, Stephen Salamak was employed as a corrections officer at East Jersey State Prison in Rahway, New Jersey.

The Investigation

2. In or about May 2017, a law enforcement officer working in an undercover capacity (the "UC") responded to a Craigslist personals advertisement placed by SALAMAK entitled "Woman/Moms that are into Cheese Pizza" which sought to connect with mothers who were "into perverted topics."

3. The UC responded to the Craigslist ad and engaged in email communications with SALAMAK. In those emails, SALAMAK discussed a potential meeting with the UC and her 8 year old daughter. As part of the communications, SALAMAK stated to the UC that his name was "Steven" and forwarded a clothed image of himself. SALAMAK also requested an image of the 8 year old child and asked, "What gets her in the mood? Porn on tv or internet?"

4. SALAMAK told the UC that he lived in Bergen County and asked to continue their communications via telephone and text message, which they did. SALAMAK provided the UC with a cell phone number that is registered to SALAMAK.

5. In or about July 2017, law enforcement officers executed a lawfully obtained search warrant on an email address that SALAMAK provided to the UC (the "Gmail Account"). A review of the emails contained in the Gmail Account revealed that SALAMAK communicated with multiple individuals regarding an interest in pedophilia and child pornography.

6. As only one example, on or about May 21, 2017, SALAMAK sent an email to an individual ("Individual 1") stating, in part, "Amazing stepdaughter...I

78) Section 10 of the complaint is where Q's screencap was taken from.

<https://www.justice.gov/usao-nj/press-release/file/1005496/download>

9. On or about October 19, 2017, law enforcement officers executed a search warrant at defendant SALAMAK's residence in Lodi, New Jersey (the "residence"). At the residence, law enforcement discovered computer equipment belonging to defendant SALAMAK. A preliminary forensic review of these devices by law enforcement revealed images of child erotica.

10. During and after the search of the residence, and after being advised of his Miranda rights, defendant SALAMAK admitted to law enforcement officers, among other things, in substance and in part, that: (1) he placed the Craigslist advertisement referenced in paragraph 2 above and that "Cheese Pizza" was a reference to child pornography, (2) he engaged in the communications with the UC referenced in paragraph 3 above; (3) he has knowingly received emails containing child pornography; and (4) he has knowingly communicated with various individuals online regarding child pornography and pedophilia.

11. Based upon my education, training and experience, and my discussions with other law enforcement officers, and to the best of my knowledge, the images described in paragraph 7 above traveled in interstate commerce because they were transmitted to SALAMAK via Internet-based email.
