

Written Documentation of The Purpose Club Executive Dinner at ORKA Restaurant Central on 19 June 2025 Thursday

Aaron Pang: the next speaker will be Lam Tung, how will you describe yourself? Please tell us about medical law in Hong Kong. Lam was knighted with lordship by British Royalty due to his medical law contribution.

Lam Tung: thank you Aaron. I will describe myself as easy going person. My medical law starts in 2009 after I come into contact with advance directive at United States. The Law Reform Commission publishes a report in 2006 but very few locals notice it. I start its promotion through opinion survey, online & conventional media and on-site campaigns until former Chief Executive of Hong Kong Carrie Lam passes it in 2018 Policy Address with my contact and lobby. My upcoming moves will be on voluntary active euthanasia and no fault system of medical misadventure.
