Culture of Insight

Saved 3 days per month

# Increased reporting abilities

# Eliminated processing errors

Culture of Insight

# No disruption to workflow

Culture of Insight

# Future-proofed the project

Culture of Insight

# Re-used code for other clients

NOTHING IS IMPOSSIBLE

You can learn code more  
easily than you think

Code makes data tasks more  
accurate and saves time

Code lets you automate  
and repeat

# R programming language training

[Book now](#)

SHARE THIS EVENT

Due to popular demand we are laying on another training course designed for Market Research teams in Data Cleaning, Manipulation and Reporting, using the R programming language.

- **Date:** Wednesday 30th November 2019
- **Time:** 9:30am - 4:30pm
- **Venue:** Telmar Communications, 43/45 Dorset Street, London W1U 7NA

## Why?

Market Research and Insight teams are under pressure to work faster and more accurately, with ever bigger datasets. Too much time and resource is spent on slow and error-prone processes in Excel, when free, efficient and high-powered alternatives are available.

**June 27th**

9:30am - 4:30pm

**Telmar Communications**

43/45 Dorset Street, London, W1U 7NA
