

This communication between the real estate agent and us transpired since November 2017 until March 2019 with the oldest email/letter at the top and the latest at the bottom. As it provides a big picture into our intentions and motives for starting Love For Life, we thought it was time to share it in full.

Fiona and Arthur Cristian

6th November 2017

Dear Fiona and Arthur

**MAINTENANCE OF PROPERTY
(SANITISED ADDRESS)**

I refer to the subject property you are currently leasing through our agency.

We confirm that your owners have recently driven past the property and have advised our office that they would like the following items addressed with you immediately.

1. All structures and pot plants to be removed from the driveway and to the side of the driveway and access to the home must be kept clear at all times.
2. All plants in the front yard and garden beds must be kept to a reasonable height so that the house is fully visible from the street.
3. No structures or garden beds to be affixed to the house or fence at the property under any circumstances.
4. Nothing to be placed in the front yard area that will detract from the overall presentation of the property.

It should also be noted that the water meter in the front garden bed **MUST** remain clear and easily accessible at all times in the event of a plumbing issue at the property.

Upon vacating the property you will also need to ensure that all plants, garden beds and associated structures are removed from the property, the yard repaired with fresh top soil and lawn in accordance with the original ingoing condition report completed on the property.

Your immediate attention to these items is greatly appreciated.

Yours Sincerely

(Sanitised)

Senior Portfolio Manager

(Sanitised All Contact And Address Details Of The Agent)

10th December 2017

Dear (Sanitised),

In response to your letter dated 6th November 2017, please consider the following:

We've used the driveway as a temporary location for various food in large pots on bricks and pavers we normally grow out back while we are upgrading some of the larger back garden beds into one bed using hardwood. And as explained to you months ago, we will be moving all the pots from the driveway, all of them sitting on pavers, before the end of this year. Currently all pots have now been removed from the east side of the driveway and the driveway has been cleaned. All that remain on the west side are 6 large pots on bricks and pavers with fruit trees placed there late October 2017 and these will also be removed when the hardwood upgrades out back have been completed this year and we have removed all the beds and pots down the east side of the back garden. The food production tasks behind the temporary two of three rows of frames made of tomato stakes nearest to the western side of the driveway have concluded and have also been removed.

The native garden at the front of the house has been pruned as usual. The house is mostly visible from most aspects of the street. Please note that number 9 and number 13 are also only partly visible from the street due to hedges planted by the current occupants. Number 11 is also set back much further from the street than number 9, hence there being more space in front of the house to create gardens and why number 9 seems to be more visible. The garage of number 11 is as close to the street as the whole width of the house at number 9. The two tall Robinias in front of the house, the plane tree in the front, south eastern corner of the block and the hedges forming the continuation of the fence line between number 9 and number 11 were all planted by the previous occupants of number 11, now living in number 9. This impacts anyone driving down (Sanitised) Street from east to west because not much of the house can be seen until you are directly in front of it.

We actually love all this because, with the native garden that we have planted out front, it has contributed to making a wind break and sun trap of up to 3 - 5 metres because the prevailing winds here are south to south west, as well as west, and wind tunnels

form down the sides of the house. These winds are cold all year round and they howl around the house but they are gradually diminishing because of the trees in the garden of number 13, that are a Silky Oak, conifers and various deciduous trees that now come high over the fence of number 11. Some of the wind is now forced higher over the house so that we do not experience the affects of it so much, and this will continue to improve as the wind trap and sun trap grows. This makes being outside much more enjoyable.

East Bowral has some of the worst frost in the Southern Highlands, which often kills off the lawn but, through the increase of trees planted in the area, less of the garden is being affected. East Bowral is recognised as being the greenest suburb (i.e. with the most trees per acre) in Australia, if not the Southern Hemisphere. This is growing with more and more trees being planted everywhere, month by month.

As for anything in the front yard detracting from the overall presentation of the property, we regularly receive comments from neighbours and passers by (in the hundreds, thanks to word of mouth spreading) to the effect that the front garden is the most attractive garden in this street and the surrounding streets. We have also noticed a big increase in bird, insect and reptile life, especially bees. Many of those who talk to us complain that they don't see any bees in their gardens. We don't have that problem, probably because we don't use any poisons, toxins or chemicals in the garden and have been encouraging neighbours to do the same, to show that there are natural ways of gardening that increase biodiversity rather than destroying it. We probably have enough bees to spread the pollen in the gardens of the surrounding streets and beyond!

We moved here in November 2005, when our family battles quickly began against the organised crime syndicate of perpetrators inside Macquarie Bank and the Bar who stole what would today be worth around \$2.5 million by ignoring the fraud of Macquarie Bank staff inventing contracts that we had nothing to do with, which were then used to switch with originating approval documents while using the law to enforce the taking of possession of the family home, all the while the judges ignored all the incontrovertible evidence of the fraud we presented. They were determined to protect Bill Moss and his bank and its Perpetual Limited.

Out of this fraud, two cash flow businesses, one 20 years old, and the family home were stolen from us. We went from around a \$4000 per week income over 20 years to Centrelink parenting payments when we never committed a crime, broke the peace, injured anybody or did anything wrong. We were setting everything up for semi-retirement. During the first 6 years we were here, we didn't do any gardening apart from general maintenance because we were too bogged down with these battles, but, when the dust was settling in around 2011, we realised that the only choice was to either take up guns and start killing the perpetrators or to find a much bigger picture, peaceful solution to this problem, which is where we have ended up, with Arthur

completely out of "The System" (with all contracts dropped from 2006, never to be used or renewed again) to focus on this conspiracy against innocent, everyday Australians. We could not see the point in Arthur going back into "The System" again and making money again when it could all be taken, as has happened to many thousands of innocent Australians.

Along the way, as the dust was settling, we have experienced four assassination attempts, one with our then 2 year old daughter in the car, Fiona being kidnapped and a supporter, a multi-millionaire in his seventies, who helped us to re-claim the family home (with a well known Sydney dentist also in his seventies) by changing the locks and staying in the family home for us for four days, who, along with his wife (also in her seventies), were both hog-tied, gagged, hooded and tortured for hours with a bullet put through his hip by two men who broke into his home in balaclavas, very early in the morning the day after he came back home and took only an old computer and a small, cheap Grandfather clock. The story was due to appear on all the major news stations and in all the major newspapers which had representatives all around him when he called us from his hospital bed to tell us what was happening, but was pulled at the last moment, between 6 and 7pm.

Back then, we all agreed it was because we had been documenting everything that was happening to us on the Love For Life website that we launched in December 2006, and we were also receiving and documenting hundreds of stories from many, many Australians who had also had their businesses destroyed and homes and assets stolen by similar organised crime syndicates, despite none of them having had any issues with defaulting on payments or any bad debts.

We were left close to destitution and poverty but we realised that what had happened to us was not important any more because there were many who had lost far, far more than we ever had, from hundreds of millions to hundreds of thousands, with many of them having family members committing suicide because of the shame, trauma and stress of losing everything they had worked so hard for for many years. In some families, people died in strange circumstances, leaving their family members deeply suspicious. They all had unloseable cases but they were all losing.

What shocked us the most was the lack of community immunity; everyone around us just assumed everything would be sorted out and the vast majority of people do not have the time to put aside their responsibilities and come to stand by the side of those who are being harmed by the top end of town. We were left as easy pickings, just as all the other people we heard from were easy pickings. Those behind these crimes control the media, the courts and the police, and all facets of "The System", and we realised that there was a much bigger, international picture to look at.

Most around us did not believe that the conspiracy we were talking about was that large so we decided to prove a point. In 2005, we did not pay a not voting fine of

\$25.00 x 2 or a \$65.00 fine for not changing the address for the registration of the family dog. With the website having been launched in December 2006, and the ramifications of not paying these fines dragging on until 2010, you can find in the Love For Life website the documentation of the enormous effort put in by Federal and State Government Departments, the State Debt Recovery Office, etc, where they spent up to half a million dollars to get back \$115.00, and this is happening on what is supposed to be the land of the free. With multi millions of unique IP addresses/browsers visiting the website (today it is heading towards four hundred million), what we did upset a lot of people in the top end of town because of the precedence we have established and how we have been helping tens of thousands of Australians ever since to defeat third party debt collection agencies and the law itself in courts before judges/magistrates.

With four very young daughters that we were responsible for, we realised that we had to do something to end this crime against the people and we have dedicated the last 12 years to this and the remedy to the problem, and we will continue to do so for the rest of our lives. We realised that creating and expanding food forests (gardening) to provide healthy, living food for the family and independence from the shops is the way to go and this is now how Arthur provides for the family on a full time basis. Instead of being an income earner, he grows high quality food for the family and encourages others to do the same so that we can learn to do without the providers of "The System" with all its garbage and offerings of harm and stop giving all our power away to those in control of "The System". The value of what he brings to the family now is far more than when he had a business with staff levels of up to 30. For your interest, there are millionaires, many with great wealth, on both sides of Arthur's family and he has never asked any of them for help, nor told them about what has happened to us. He prefers to stand on his own two feet and deal with everything himself. We have created the gardens here with hardly any money, just with lots of ingenuity and hard work.

We realised that the key principals are land, food, shelter, water and every MAN has a natural, inherent legacy and inheritance of earth/nature to live by. Because what are we without this? Are we scum? Are we slaves to be treated as something less than someone else? Are we less entitled to live truly free on the land as a free MAN with full responsibility for everything we think, feel and do, and provide food, shelter and water for our family? Are we slaves or are we free? Take this natural inheritance away from a MAN and you force that MAN into uncertainty which forces the MAN under the power and control of another MAN. This is slavery, educated slaves (covert) or not (overt). This is what is coming into the halls of power of "The System" and this is why the Love For Life work is hated by those in power.

Arthur is not a slave because he no longer exists in "The System" and he carries the full responsibility for the land here. He does not accept government handouts, Medicare, etc, and he works with young people to show them that life is a gift on a do no harm path. Those high up in the law are terrified of Arthur because they know that their law no longer applies to Arthur here on this land that he cares for.

We are a clean living family. We do not drink alcohol, smoke, gamble or take drugs, recreational or Big Pharma. We do not kill animals to eat them, nor consume any animal products apart from sustainably harvested honey. We do not carry weapons and we are not Ned Kellys or revolutionaries. We are not part of any cult, sect, religion, movement, think tank, political party and we do not have any alignment with any groups or societies, secret or not. We are just a simple everyday family who see life as a gift on a do no harm path where nobody owns anything of nature/earth. This can be seen very clearly in the Love For Life insight work that we do, particularly after 3.5 thousand debates, many with experts in all areas of "The System" all across earth, none of whom can prove what we are saying to be wrong and lies. All they can offer is opinions, belief and faith, none of which are proof of fact.

We go where the truth takes us and we are not interested in lies or in processing the curses associated with them. We are not interested in creating mischief or controversy where there is none and we always operate from full disclosure about our intentions and actions. We see honour and respect as paramount and we always drum this into the young people we help. Our daughters do very well at school, academically, physically and socially. They are involved in local music and sporting events and are very well liked and respected in the wider community. We always look after the house and ensure that the rent is paid a few days in advance, something we have done throughout the time we have been here, even when we have been struggling to put food on the table. Our power bills, etc, are always paid. There are supporters out there who help us and this is growing.

For the last twelve years, we have been a free source of counselling to many thousands of Australians with all kinds of problems, from financial, to sickness, to suicidal tendencies, to just wanting to comprehend how and why we, all of us, have managed to create such a disaster of poverty, homelessness, sickness, inequality, discrimination, etc, all across earth. We do not advertise or promote what we do and we charge nothing for what takes a large part of our daily lives.

Having been here twelve years now, we are very settled here but we would like the opportunity to move to a bigger piece of land at some stage, transitioning over 6-12 months as we gradually dismantle everything here and set up infrastructure on the new property. While the house could do with a re-paint and new carpets, we are happy for things to remain as they are as we do not like rent increases!

If you are interested in reading more on the insights we have worked out over the last 12 years, read and watch the contents of these three, enormous Love For Life threads:

Back to the garden and your letter.....

Any structures or garden beds that have been placed near to the house or to the fences have been done so with great care and consideration taken to ensure that no damage is caused. Along the fences we put chicken wire and then double thickness 200mu commercial/industrial/builders grade black plastic. In the beds we put car tyres to both support the weight of the soil and provide insulation so that the soil retains some warmth in winter. Then we floated treated pine along the top of the tyres and between this and the plastic, we put blue metal to keep out rats and mice and to ensure that no erosion or damp is introduced to the fences. The beds are not reliant on the fences. We are fully aware of the damage that can be caused to a fence by soil and so we have gone to great trouble to ensure that the fences are protected. Looking at the fences from the neighbours' side, it is clear to see that the fences are in good condition, with any wear and tear due to weathering and age.

Free standing garden beds that have been put down the western side of the house are not attached to the house and have been designed to be easily removed. The beds are made with hardwood and all have 200mu black plastic lining them to ensure that no moisture goes onto either the hardwood or the house. We also regularly hose behind and underneath the free-standing beds to ensure that there is no build-up of mulch and leaves.

A small shed on the western side of the property made of lattice and plastic is also floating off the fence and is free standing apart from a few screws in the main posts of the fence, no different to people drilling holes into walls, ceilings, doors, etc, to hang whatever, big and heavy or small and light. The big bed at the western front of the property was built along the Leylandii trees planted by the neighbours at number 13. There was no fence there and the Leylandiis had stopped the light needed to properly grow the lawn on that side of the driveway so that it was mostly dirt.

The hothouse at the back of the garden was also floated off the fence with just a few screws going into the main posts of the fence. All the structures we have built are designed to have minimal impact on the property and to be easily removed. We intend to build another green house and shed so that everything works powerfully here, and these will also be designed for minimal impact and easy removal.

With regards to access to the water metre, the only bushes near the access to the water metre were planted by the previous occupants now living in number 9, and have been pruned to allow access. I was outside the last time the water metre reader came around and I asked him if the access was good enough and he said it was fine.

In addition to the points made in your letter, I would like to present the following points:

We have made considerable improvements to the property, most of them to deal with problems that we were experiencing.

The previous occupants planted Leylandii Pines at the rear of the back garden and along the fence between Numbers 9 and 11 (Sanitised) Street. These trees are problem trees that can grow up to 40 metres high and 8 metres wide if left unattended. They are not at all suitable for a suburban hedge. The Leylandiis planted along the north facing backyard fence were causing shadow to reach further and further across the lawn so that the grass, already just turf put onto clay, struggled to grow. They were also causing a lot of problems to the neighbour in the battle-axe block behind us, (Sanitised), as they were pushing in to the common fence. As the neighbour's ground level is lower than ours, the bottom of his fence was being pushed out of place and severely twisted by the roots and the trunks of the Leylandiis. We eventually removed these trees and now the neighbour doesn't have any problems with the fence. And he is happy with the building and look of the hothouse and the storage bays along the back fence.

The Leylandii Pines between Numbers 9 and 11 (Sanitised) Street were growing tall, up around 10 metres, possibly more, but when we requested that they be trimmed, the owners only response was that they didn't plant them. Neither did we but we have invested considerable time and effort to keep them at a manageable level. With the help of two friends, in spring 2016, we took off up to 8 metres off the height of these mature trees, put them all through a chipper and recycled it all in the garden a year later as essential carbon material. The process involved me climbing up each tree and tying a rope around the trunk, then one of our friends climbing up with a chainsaw to cut it down while those below pulled the rope to make sure the trees landed without causing any harm to either property. The whole process until storage took a full five days.

Then, approximately four months ago, the Leylandiis having shot up again to around 5 metres, with Arthur's help, I spent two days cutting them down to a manageable height again, removing up to 3 metres from their height and I will have to re-cut the top very soon, when I buy a Ryobi add on tool that can do the job without me having to climb up and down in and out of the trees so that I can reach everything. We are greatly concerned about the impact they will have on the fence and concrete paths next door long term because they have been planted too close to the fence and will eventually

destroy it. If the owners would like these trees removed, sooner rather than later, we are happy to do it for them and put in more functional trees to maintain the privacy between the two houses.

The previous occupants also planted a vine along the eastern fence between the two houses in the back garden and this was causing problems to the fence, twining between the boards and under the top piece, causing it to twist and buckle. To protect the fence, we had to remove this massive vine and hammer and screw the loosened boards back into place. There was also a vine on the fence on the opposite side which was causing similar problems. This vine had been planted in the garden of Number 13 and was removed from both sides with the agreement of the neighbours. A large section of the back yard eastern fence was removed in November 2005 when the current occupants of number 9 moved from number 11 to number 9 (Sanitised) Street. This was done to make the move between the two houses easier. The concrete footings of the fence had to be taken out and replaced when the move was completed. I think the Property Manager at the time was (Sanitised), who now does the accounts at (Sanitised). We have never undertaken any work of this nature on this property.

Another problem that we have faced due to the fact that the gravity lines for water drainage from the back and sides of this property were very poorly done so that it floods when we get heavy rain. Prior to us doing any gardening, massive puddles would form on the eastern side of the house in the back garden, along the northern side of the house and in front of the house. We used to joke that we had a swimming pool at the side of the house. The rain would also rise up close to the level of the back door when the rain was very heavy for days, as well as along the concrete path on the western side of the house where the water would sometimes come up nearly to the garage door. The only drainage in the back garden was two small drainage outlets that were not put in correctly. To begin with, we cleaned them out and put fly screen under the caps to prevent sticks and stones going down the drains and blocking them. When we still experienced problems, we realised we had to do more and, as we have created more structures in the back garden, we have made considerable improvements to the drainage system.

Along the northern side of the house, where the water used to sit, we dug a deep trench from near the clothes line to the back door and put in Ag Pipe (seeper pipe), as well as putting lots of 20ml blue metal in the trench and around the ag pipe and all around and above the drainage outlet to ensure that the water would get out to the street fast. We went to considerable trouble to make sure that the Ag Pipe is on a slope so that all the water flows from the back fence down to the trench and into the seeper pipe and from there to the outlet. From the end of the concrete path down the western side of the house, next to back door of the garage, we dug another deep trench most of the way down to the street, and laid more Ag Pipe and blue metal, finishing it at a point where the water would flow down into the water outlet into the concrete gutter and down to the storm water drain. Near the garage door, we also put

in a stormwater pit surrounded by blue metal. None of this is visible as it has all been covered up. Another deep trench with Ag Pipe down the eastern side of the house is needed to stop the water creeping up to the back door, as well as through the middle of the front lawn to the street because it builds up there too. The recent heavy rains again flooded deep water to the back door and down the eastern side and front of the house. To us, this needs to be done ASAP. When we save enough money we will do it.

With the heavy rains, on the front lawns to the street we no longer experience the clay belt turning to mud as we have been building up the humus in the top soil and transforming it into living soil. Just this spring, we have put around 3 tons of top soil that we developed out back on to all the lawns out front of the house, to thicken and strengthen it and we have naturally fertilised it. It is already improving and we are shortly to top dress it again so that it finally becomes a very inviting lawn to relax on this summer. We also feed it with a microbe brew that we make ourselves. This increases the beneficial microbes in the soil and transforms the deep clay belt (full of rubble) into deep, living soil.

We recognise that we have undertaken these projects without the expectation of any remuneration from the owners and that they will remain intact when we leave. You have always made it clear to us that the garden would have to be returned to lawn when we leave and we have never had any argument with this. You have also taken regular photographs of what we are doing to send to the owners and we have never had any objection to this.

Other upkeep that we regularly do is clearing the roof gutters and angled roof lines, a project that we are about to undertake again as the Silky Oak in the garden of number 13 has just about finished dropping its leaves. We also keep the driveway, paths and porches clean and tidy, as well as maintaining the house and reporting any problems to you, such as cracks in the architraves due to shifting foundations and damp spots on the ceiling of the office, that have now dried up because Arthur adjusted some of the roof tiles that had moved, allowing rain to get in. Paramount in everything we do is the intention to protect and care for the house and land and nothing we have done has caused any harm to either.

We started the garden out of a desire to grow food and as a way for Arthur to support the family by keeping them fed with fresh living organic food as he was no longer working in a job. We wanted to show that you don't need a lot of space to grow a lot of food (Arthur estimates around 1.5 tons per year) and neighbours and passers-by who see what we have done are always very impressed, especially when we give them free food which is what we are all about, we are not into making money from what we grow. We also have volunteers come to stay with us from time to time to help in the garden and learn what we are doing. They are usually young people who have seen videos of what we have done on the internet and been inspired by what can be done in small spaces if you are prepared to work hard and not have a victim mentality. This garden

has become quite famous on the internet (we do not advertise its location) and has inspired a lot of people. We are all on land but we are without the basic tenets of water, food and shelter because we have destroyed the food forest that provided everything for our ancestors before "The System" came along. We are no different to many others across earth showing the importance of restoring the food forests to future generations.

This time of the year is our busiest and we have just had a young woman staying with us for almost three weeks, which was very helpful. She helped with a lot of spring planting, as well as preparing for three of the long garden beds in the back garden to be made into one large, flat bed that will increase our growing space for summer crops that need full sun. This season is the first time we've managed to produce up to 2 metre tall plants from the hothouse and from the acclimatising area and have them planted after the frost season ended mid/late November so that we can be producing fruit/veges to eat by mid-late December instead of waiting to mostly late January, early February each season since we started gardening here, September 2011. This augers well for next season when we plan to increase our summer eating season from four months to six to seven months.

With this letter, we are providing the big picture of what we are doing and why so you and the owners can see what our intentions are. When we go, we will remove all structures and plants and put it all back to just lawn. If any damage can be shown to have been done, we will obviously pay for it.

Please send a copy of this letter to the owners of the property so that they can be assured that we are taking our duty of care to their property very seriously. If they would like to arrange a visit to inspect what we have done for themselves, they are most welcome.

Regards,
Fiona Cristian

Subject: Photos Of The Leylandii Trees Being Taken Down @ 11 Roycroft Street East Bowral - Fiona Cristian

Hi Linda.

Here is a Facebook link to the Leylandii Trees being taken down on the front east side of 11 Roycroft Street with photos from 2005 until today.

We have copied the Facebook explanation below.

All the best

Fiona Cristian (and Arthur Cristian)

Removal Of Leylandii Trees 28th July 2018 - Love For Life Garden

Link:

<https://www.facebook.com/media/set/?set=a.10216706916533375.1073741849.1475329656&type=3>

Leylandii trees starting to destroy the fence out front of the property and down the east side. They were all planted far too close to the fence back in early 2005 by the previous tenants and they are totally unsuitable as suburban hedging plants as they can grow to 8 meters wide and 40 metres high and should not be planted closer than 45cm to a fence or wall, ideally no closer than 90cm. See:

<https://www.leylandii.com/faqs> - To maintain privacy, we are going to put up treated pine lattice on supporting posts and temporarily use black shade cloth until we plant 2 meter evergreen trees where next doors windows are, and a range of berries to grow on the lattice, one of which has already been well established over 4 years and has many runners that are over 5 metres. In amongst all this we are going to create garden beds to both grow food and provide aesthetic appeal by having flowers, bulbs, herbs, etc, as well as insect hotels, etc, making sure everything blends in nicely with the Love For Life garden that we have been creating since 2011. For other photo albums on the Love For Life Garden see: https://www.facebook.com/arthurcristian/photos_albums

Hi Fiona and Arthur,

Please be advised that the owner of the property has not given you consent to remove any trees from the property.

Please ensure that NO trees are removed from the property whatsoever.

We will be in touch on Monday to discuss further.

Kind Regards

Linda Cairns

Hi Linda,

They were mostly already removed yesterday, refer to the photos uploaded to
Facebook here:

https://www.facebook.com/arthurcristian/media_set?set=a.10216706916533375.1073741849.1475329656&type=3

It was made clear to us a few years ago when we asked the owners to sort out the
maintenance of these trees and they replied through your agency saying they never
planted them, making it very clear they took no responsibility for having them there.

This coming week we plan to put up lattice and berries over the lattice and other
evergreens in front of them for privacy. Again, refer to the photos, more were uploaded
early this evening, Sunday 29th July 2018. And we only just checked emails since we
wrote to you yesterday to see a reply from you.

Also, in the photos you can see how some of the trees had already gone through the
fence lining bending them east, for example see this one where we chain sawed the
trunk down the face of the fence line to straighten out the fence line:

https://scontent.fsyd4-1.fna.fbcdn.net/v/t1.0-9/37926356_10216716723138534_947739303285358592_o.jpg?nc_cat=0&oh=8490260e9138e3effe858e265e65d3ca&oe=5BC8457E

We have trimmed and pruned these trees at least six times since we asked the owners
to deal with them a few years ago. We thought the trimming might have slowed them
down but instead they kept widening lower down and closing into the fence. Have just
put some photos up of how they looked a few years ago when we had helpers Scott
from Canada and Adon from Newcastle staying with us (manpower) back in late
2015/early 2016 when we asked the owners to get others in to trim and prune the
trees, so we did it with Scott and Adon's help. This was a massive job which took many
days.

Hi Fiona and Arthur,

Further to our recent telephone message, we have received instructions from your owners today to issue you with "No Grounds" Termination Notice as they require the property.

Please find herewith a copy of this Notice for your records. The original copy will be sent in the mail today.

The final date for tenancy on the property will be 6 November, 2018 however, you can vacate the property at any time whereby giving your standard (3) weeks notice. Rent will be due and payable up until the date of vacant possession.

Kind Regards
Linda Cairns

Re: 11 ROYCROFT STREET, BOWRAL

On 4/08/2018 3:17 PM, Love For Life Campaign wrote:

Hi Linda,

Regarding your phone message and the Termination Notice I received in the mail, the fact is that I will not be able to move out of here by November this year. I will have to find a property with a long lease at a price I can afford that is suitable for moving everything from the garden created here by us using a bobcat to remove all the garden beds and soil to get the property back to where it was when we moved in, removing all the native garden out front without damaging the property in any way and then laying down a lawn. The lawn we leave behind will be of much better quality than the one we came to as we have put an enormous amount of soil into the front lawn and Arthur has spent hours feeding it and watering it, and the back lawn will be planted on good quality soil rather than the deep clay belt that was there when we came here.

I wonder if you can find me suitable property at a cheaper/similar rent to what I am paying now or whether I would even get approved for any houses because I am on a low income? We often have a look on the internet at properties to rent in the area but we have yet to find anything suitable.

When I was approved for this property, Arthur, through his business, had had an average \$4k per week income over the previous 20 years but, due to the circumstances of our battles with Macquarie Bank, this income quickly disappeared as Arthur gave away what remained of the business after the cash reserves were destroyed (and the holiday rental income of \$62k coming from my family home was destroyed too), in order to dedicate his waking life to stopping the crime syndicate stealing the family home and to be compensated for this terrible fraud. We thought that we would only be living here for 6 to 12 months. We didn't think our lives would end up the way they have.

To compound matters further, without explaining all the background as to why the garden (because there is so much more to it than just food), why the Love For Life insight work we do and why we have ended up in the direction we have, during 2006 Arthur completely dropped out of "The System" and has never returned - no tax file

number, credit card, bank account, drivers licence, medicare, govt hand outs/centerlink, passport, etc, and no black-market or cash jobs on the side.

As you know, we are keen to move from here when we can as we need far more space to continue what we are doing but, until the right opportunity arises, limited as we are by my financial situation, I really cannot afford to move. As we have explained to you previously, some years ago, I actually applied to rent many properties with more land, some of these with your agency, both with just me applying and applying with others, but we were never accepted. This went on for many months until we gave up and focused on expanding the garden here where we live.

Basically, there is a more than a very high possibility that we will still need to be living on this property well past November this year and, really, unless the owners are planning to sell the property in the immediate future, there is no need for us to be asked to move out. We have not harmed this property in any way and, in fact, have substantially improved it.

I have always paid the rent in advance, the bills are always paid, the house is looked after and our maintenance demands are small as we take care of what we can ourselves. We have always been honest and up front about what we are doing here, have always agreed to photos being sent to the owners so that they can see what we are doing, and have repeatedly said that the owners are welcome to come to meet us and look at the property, if they have any concerns.

You and the owners may think that the garden is not really important, just a hobby, but the garden is the way Arthur has been supporting our family by growing food over the past seven years, ensuring that we save a lot of money on food bills, as well as not having any pharmaceutical or medical bills due to our good health from eating freshly grown, organic food. We also do not smoke, drink alcohol or eat meat, three very expensive habits.

If we did not have fresh food coming from the garden, I would be unable to make ends meet. As we have always made paying the rent the number one priority, we have got used to living without lots of other essentials and we continue to live without essentials if it means compromising the rent. We are skilled in these disciplines and this food garden is absolutely critical to our daily well being and paying the rent and keeping us from being homeless. Again, we never thought our lives would turn out like this.

We moved into this house November 2005 and, since mid 2006, we have not used any electrical or gas heating appliances in this house to keep us warm from mid autumn to mid spring - we just rug up each night living in mostly -5 to +5 temperatures most winter nights in a house with very poor insulation. We have no fireplace either. This is why my gas and electricity bills are always very low. We can't afford heating and

whatever money we have spare goes to maintaining and running the car and whatever is needed for clothing, etc, and the garden.

My main family workhorse, a 1999 Subaru Outback Limited Series, died four months ago and I do not have around \$5k to overhaul the engine and get the blue slip/pink slip in place and the car re-registered.

Also, if it wasn't for our three eldest daughters getting part time work after school or higher level studies, I and our 4 daughters would not have been able to visit my elderly parents in the UK recently. With help from many relatives in England, the daughters savings paid for almost the whole of the \$10k required to get them all there and back safely and it took them 6 months to make all this happen. They may never have seen their grandparents again if they had not gone.

Another factor is that Arthur receives gifts here and there from supporters of the Love For Life work we do through its website and these gifts are used to fund garden and other projects. Currently and for about 6 weeks now, the website has been down because the 2005 Drupal 5 database used to build the 2006 Love For Life website has not been supported by Drupal since 2010. It recently received serious security breaches and needed to be taken down to protect the server. It is currently being upgraded and rebuilt by someone supporting us in Spain and, while this is going on, we are not receiving gifts. The website should be back up in a few weeks time.

We have become very skilled in juggling my finances so that we are able to make sure that projects undertaken in the garden are always of a high standard aesthetically, meaning that projects are planned for in advance to make sure that we can afford to do them properly. Where we took short cuts in the early days, as we did everything with very little money, we are gradually going back and improving everything, as finances allow.

The combination of my income, the savings from Arthur growing food and the gifts Arthur receives are enough for us to get by on but not enough for us to have savings in the bank for a rainy day and not enough for us to afford higher rent or meet the thresholds to be approved for another property, so I'm stuck between a rock and a hard place. Just for me to move, I would have to save up a considerable sum to be able to afford all the costs and be settled at the other end.

When we first moved here, the Leylandii trees had only just been planted so there was nothing above the fence line providing any privacy between the two houses. This is how the houses were rented out. The privacy came 6 to 7 years later, when the Leylandii trees grew above the fence line and privacy is still being maintained by the lattice that we have already put up that will be covered with more suitable evergreen plants that will not cause damage to the fence that has now been fixed by Arthur.

Perhaps maintenance of the fence is not important to the owners but, to us, it is part of the responsibility of keeping this property in a good state.

As we have explained on more than one occasion, these trees are not suitable for the place they were planted. Their removal has not only protected the fences, it has brought in many extra hours of natural, beneficial sunlight into 11 Roycroft Street and at least an extra 1/2 to 2/3 of the day of beneficial sunlight into number 9. Have you had a good look down the west side pathway of number 9? The previous tenants regularly had lights on during the day in the rooms that were overshadowed by the Leylandiis.

The strong lattice structure has already been admired by neighbours as being a huge improvement on the Leylandiis. However, if the owners really want us to, we can plant some more Leylandiis along the fence line when we move, so the property will be exactly as it was when we moved in. See the latest photos of the lattice here: https://www.facebook.com/arthurcristian/media_set?set=a.10216706916533375.1073741849.1475329656&type=3

There is still some work to be done to finish the project so that everything is neat and tidy for the owners in the event that we drop dead suddenly but everything will be completed over the next few weeks.

We are not playing victims here, Linda, and nor do we bear any ill will towards either you or the owners. We are just looking for a win-win situation for all concerned and we cannot see how forcing us to move out and getting new tenants is advantageous to anyone concerned. We hold magnificent dreams and everything always works out, without harm being done to anyone and no one being used or abused. We are not interested in manipulating any situation because of money, because for us, the well being of the living all around us is far more important than dollars. We are patient and let things unfold as they do. We have a lot of supporters who will help us move when we can, but we need to be able to plan such a move well in advance, rather under the stress of a deadline that will see us either with nowhere to move at all or moving to somewhere totally unsuitable for our needs.

We are spreading the news about this Termination Notice into the wider community and across the internet so that anyone who is in a position to help us move from here more quickly has the opportunity to do so. We would appreciate it if you would do the same thing, as there must be people around here with land who would be happy to support the much bigger picture of what we are doing here and what the Love For Life work is all about, which is far greater than just a family needing somewhere to live.

Please forward this letter to the owners so they can see that we are committed to moving when we can and that I will continue to pay the rent and maintain their property to a high standard until we do so.

Regards,

Fiona Cristian

On 6/08/2018 1:55 PM, Linda Cairns wrote:

Hi Fiona,

Thank you for your email however, the owners require this property for personal reasons and therefore the "No Grounds" Termination Notice stands.

You have been given the legal notice period under the Residential Tenancies Act of (90) days plus postage which is three months to find an alternative property.

There are currently 129 properties available for lease across the Highlands therefore it is the right time to be looking. Please feel free to visit our website at highlandsproperty.com.au however, I personally do not have anything that would be suitable for you at this time.

We will email a copy of this email to the owners however, if you have not vacated the property by the 6 November, 2018, we will have no alternative than to seek the owners instructions to apply to NSW Civil and Administrative Tribunal for possession.

Hi Linda, I don't have the means to apply for another property.
Where to from here?
Fiona.

8/08/2018 3:29 PM

Hi Fiona,

I am unsure what you mean by having no means to apply for a property.

You need to inspect properties, apply for the property by completing an application form and the agent will submit your application to the owner for approval. This is the exact process you would have gone through when you originally moved into Roycroft Street.

It is not a difficult process.

You will need to provide copies of ID, proof of income and your up to date rental ledger which we can provide.

If you have any further questions regarding this process, please feel free to contact the Tenancy Advice Service with NSW Fair Trading on 133220.

Kind Regards

Linda Cairns

8/08/2018 7:22 PM

Hi Linda,

I do know how to apply for a property (for many years I've run administration in Arthur's old business with up to 33 staff under me, yet alone running a very successful ground breaking holiday rental property with Arthur and then there's Arthur's big business background which included buying and selling and renovating investment properties - he's done all this for many many years too), it's that I'm not earning enough money to apply and be approved. I'm not in the threshold, particularly now with larger rents and with our need for more space to move everything we have here in the garden. This was clearly explained to you in a recent email sent to you late last week.

With Centerlink, currently I get around \$430.00 per week and from my casual part time job I earn around \$400.00 p/w. I do get other bits and pieces of money coming in but

this is not reliable and can't be put on an application form. I know how to live on very little money and how to keep the rent always paid but a prospective home owner does not know this. As Arthur would not be on a lease, I'm the only one who can apply and seriously, who in their right mind would take me on? Our road to move on from here is not through the rental market but through the good hearts of those who dream to be the wind under our wings and give us land and shelter to do what we can do far better than what we are currently achieving and share the abundance feely all-around.

If it weren't for the garden feeding us all year round, we would not have been able to pay the rent for some years now. We need the garden to feed us so we need to have another garden set up over a transition period but, there is obviously no way that I can afford to pay double rent while this happens. Having to move now makes our current circumstances very fragile. We already go without so much but we have maintained health and high standards of cleanliness and maintenance and still put hours of time into helping other people.

This is why we said in the letter to you in December 2017 that we need 6 - 12 months to move because we need to save whatever we can while we up the propoganda to find someone with available land who loves what we are doing and what we are all about. The garden that we have created here, along with the insights we share, has been a huge inspiration to many who have now changed their lives and are creating beautiful, productive gardens, either on their own, in groups, as community gardens or however else. There are places in America that have started up small garden villages because of what we have done here, and particularly with the insights we share.

We get more thank yous from people who have discovered happiness and joy in there lives after recovering from depression or other issues, having gone through the Love For Life (LFL) insights we share. Arthur is often on the phone talking to desperate people who need help and our biggest satisfaction comes from knowing that we have been able to help someone get things into perspective. We are not interested in fighting "The System". We know how it really works and realise that the real interest is in opening up MAN'S hearts. We take the peaceful path and, if it means we end up on the streets later this year, so be it.

We do not charge any money for the LFL work we do and we are not interested in being leaders or gurus.

The fact is, this region has massively changed economically since we moved here in 2005. The world has completely changed all the while we were involved in the intense battles over the fraud and the aftermath. We have the volunteer man power to move somewhere else locally (kids schools, my work, etc) and we are keen to move where there is more space and long term stability ASAP, even this month would be great because we can take advantage of winter to relocate all the trees planted before spring and summer kick in. But then comes the issue that I don't have current savings to

spend on the moving which includes hiring a large tip truck and a bob cat. And we need to save money to pay for a lawn and lay it with help from our volunteers. The list of things impacting \$\$\$\$ goes on and on and on and on with us but we are ok with that, we dream to make all this happen ASAP and give the happy space back to the title deed holders to dream whatever they want to do with this property. As it stands I don't see how we can move without living on the streets (so to speak).

We are writing an article about our overall circumstances and predicaments and setting it in the bigger picture of how such a situation can arise that we are in this fragile position despite not having committed any crimes, broken the peace or injured anyone. There are many other families in the far wider regions in similar positions to ours but most are too ashamed to talk about it. We do not see any shame in the matter and the more people that speak out the better. We have been so deeply exposed to the reality of what life is really like for many many people, including vast paedophilia, that we can assure you, that the Titanic is already half sunk and it won't be long before all the true horrific effects of this appears intensely on the surface, as in many people on the streets, families starving and sickness and disease everywhere, riots, robberies, crimes, and very few people knowing how to take care of their lives (full-responsibility and not limited responsibility/liability) by growing food, building shelter, etc.

We will be circulating the article in the wider community and over the internet in every way possible to inspire others who already know about us and those who don't but know that things aren't right about "The System" which is a sinking Titanic with those at the top shuffling their deck chairs to get the best positions. When enough men and women realise that the only way forward is to completely walk away from "The System" forever, then we will have a committed group to realise the Kindom dreams we are holding. While your company will be named in the article, we will sanitise your name and email address.

Regards,

Fiona

9/08/2018 6:52 AM

Hi Fiona,

There are currently 64 properties available for lease under \$500.00 per week across the Highlands.

It may be the case that you need to look for an alternative property or a home outside of the Highlands within your budget.

Your rental ledger will be a good indication for Landlords / Agents that you do pay the weekly rent on time.

We appreciate your situation however, we are also aware of the owners situation and they will require their property back in November as per the Termination Notice.

Kind Regards

Linda Cairns
Senior Portfolio Manager LREA

Sent to numerous real estate agencies in the Southern Highlands by email or through their websites.

9/08/2018

We are looking for a long lease. We have been renting in East Bowral for nearly 13 years through Highlands Property but have been given a no reason termination (not eviction) notice. We have been growing food on the property where we are and would like to know if we would be able to set up garden beds that would return lawn when we leave. We are on low income but we have always paid our rent in advanced as can be seen on the rent ledger from highlands property. We are paying \$460 per week.
Regards Fiona Cristian

17/09/2018 4:37 PM

Hi Linda,
I sent you an email last Monday 10th September 2018 with photos but I haven't heard back from you so I'm sending it again, re-edited without photos.
Fiona

To: Highlands Property Maintenance linda@highlandsproperty.com.au

Hi Linda,

I have been looking around at the rental property market in the Southern Highlands and, frankly, there is nothing suitable for my family that I can afford, or that even offers some security in terms of a long lease.

As we have explained, we need to be able to move the garden and this is not a quick process. I certainly cannot afford to pay double rent, nor do I have the money for a bond, which will be far higher than the \$1,160.00 bond I paid for this house in 2005. As an average I earn \$800.00 to \$850.00 p/w and the rental prices to meet our needs vacillate between \$850.00 and \$500.00, obviously the more expensive ones have more bedrooms and land and are not too far from school and work, etc.

I have heard on the Southern Highlands Real Estate grapevine, from more than one source, that the reason for the Termination Notice is because the owners want to get more rent for the 3 bedroom property, between \$500.00 & \$600.00 p/w, as they are now doing next door at 9 Roycroft Street @ \$600.00 p/w for a larger house with 4 bedrooms.

Because of my situation, my employers have upped my wages and have offered a few extra hours work per week so that I can offer to pay \$500.00 per week for this house from the 6th November 2018. This will resolve the current issue until my family can move, relieve the immense stress of the 6th November 2018 deadline looming ever closer and enable me and my family to move forward peacefully and calmly from here rather than having to rush into something totally unsuitable for all concerned.

I know the latest boom to the property market is quickly scaling off now and the rental market is starting to stall and is dropping. I also know the Labour party want to remove negative gearing to ease pressure on the rental market but this also is a massive fallacy. And I have also heard on the grapevine, from a 3rd party, that the owners may be looking to sell these investment properties over the coming few years.

Offering \$500.00 per week is a fair price for this house, especially as the owners will not have to spend money on new carpets or anything else they would do to freshen up the house for new tenants. I would like to remind them that I have been a very trouble-free tenant and have not given them any concerns but long term security and peace of mind whilst paying off a very large proportion of the cost of the house/land for them. I've paid around \$250,000.00 in rent since November 2005 but it seems that the good heart is forgotten when dollars are at stake.

I am currently still financially bogged down trying to get my old Subaru back on the road as I can't afford a new car and I am having to juggle use of the other old car I have with my daughter who also has commitments that she needs a car for.

My family still wants to move and I am going to put advertisements in the local paper and at the Co-Op and anywhere else suitable to see if we can find someone who would like us to take care of a property where there is space to garden, etc. Ideally, we would like to move in winter as we will not have to kill so many plants then as the garden is in a more dormant phase in terms of production and many fruit trees are dormant, giving us more chance of being able to transplant them successfully. Currently, the garden is teeming with life, blossoms everywhere, multi hundreds of bulb flowers flourishing, millions of bees and lots of different native birds, many small and big. Arthur is not prepared to murder this garden.

Please send the entirety of this email and my offer to the owners as soon as possible as I am anxious to know where I stand in terms of having a peaceful and calm roof over the head of my family.

Also, urgent requirements.... the rubber seals to the oven door need to be replaced, the outdoor tap in the back garden needs replacing (leaking water), the master bedroom door handle-lock is still jamming and the door is hard to open and close, and the dishwasher is not working and needs to be serviced ASAP.

Regards,
Fiona Cristian

18/09/2018 6:29 AM

Good morning Fiona,

Your email has been received and forwarded onto the owner for their instructions in relation to the repairs however, as previously advised the owners require the property for personal reasons.

They are NOT after a higher rental return and the property will not be re-leased after you vacate. The Termination Notice has not been as a result of any works to the tree removal at the property as expressed in a letter from one of your neighbours.

Once again, your Termination Notice stands and you are to vacate the property on or before the 6 November, 2018.

Kind Regards

Linda Cairns
Senior Portfolio Manager LREA

15th October 2018

On the 22nd September 2018, a handwritten note was left with copies of all the email correspondence at the owners house in North Turramurra. We knew where the owners lived because of a 2016 water bill that had not been sanitised by the Real Estate Agency. A friend of ours drove us up there, as two of our cars were broken down at the garage and the third was not up to long drives as it showed us by breaking down a couple of weeks later. We arrived at around 9.15am. The owners were not home so we waited around until 1.30pm to see if they would arrive but they didn't, so we left the envelope at the back gate as a neighbour had told us that they usually went in and out that way.

The note explained that we wanted to see them to come up with a solution to the situation that would work for everyone and that I had come to see them because of the stress of the situation that has the prospect of ending with us being out on the street. I repeated that I was happy to give their house back to them and that I was not making any claim on the house, I simply need more time to find somewhere that I can move the garden and the family that will suit us. I left our contact details and again invited them to come and see us to discuss the matter.

Fiona Cristian

16/10/2018 8:58 AM

Good morning Fiona and Arthur,

It has been brought to our attention that you (or persons on your behalf) have attended the owners personal place of residence to deliver an envelope to them.

The owners now have this letter and are extremely upset that you have disrespected their privacy in this regard. This is not acceptable.

The owners do not wish to meet you. The owners do not wish to talk to you. The owners have engaged an agent to manage their property and any tenancy related issues. ALL emails that you have sent to our office have already been forwarded onto the owners for their information.

Under NO circumstances are you to visit the owners personal home again nor attempt to make any contact with them either in person, by mail, email or over the telephone.

You have been told repeatedly by our agency that the owners require the property for personal reasons. The Termination Notice which is due to expire on the 6 November, 2018 stands. It will not be retracted or extended. If you fail to vacate the property by 5:00pm on 6 November, 2018, an application will be made to the NSW Civil and Administrative Tribunal on 7 November, 2018 for vacant possession.

The Tribunal Member will also be made aware at this time that you (or persons on your behalf) have breached the owners privacy by attending their personal place of residence.

Kind Regards

Linda Cairns
Senior Portfolio Manager LREA

17/10/2018 2:06 AM

Hi Linda, and the "owners", Arthur here, it's very late Tuesday night and I've just checked all the past three days of incoming emails.

We are currently unable to move without being forced on to the streets. This is not a game of any sort and we have no intentions to harm anyone, past, present or future. We are most keen to move but we don't have a clear way forward yet.

We are currently creating a free e-book called "**Defining Magnificence Into Mediocrity And Calling It Magnificence**" that covers the big picture of our real lives in great detail, especially all the deeply profound physical (spiritual) events (non-fantasy encounters) that unfolded between January 2006 and May 2006 that completely changed our lives for the better while living in this house and how these natural physical contacts inspired us to really use our brains/senses to make sense of reality (nature) and fantasy ("The System") so we can be able to clearly see a peaceful win-win do no harm way out of this mess ("The System") IN THIS LIFE.

At first, we intend to circulate the free ebook throughout the Southern Highlands ASAP, mostly across the net in the early stages, once the first edition is complete in the coming weeks.

To move to a much larger piece of land in this region ASAP and shift everything of Fiona's from here and restore everything back to how it was when we moved in, bar large trees, leaving it in good condition, is what our focus is on.

Once the free e-book is out we will be placing adds in the local paper, putting up notices wherever possible, going door to door, etc, and wherever possible, using all media available to assist (inspire) what we are up for.

In the meantime, if the intentions are to throw Fiona and children and their things out on to the street, then I will do everything within my power to protect my family and their well being.

In good will, Fiona's rent will continue to be paid well in advance of due date, as it has always been since 2005, and we will notify you the moment we have a way forward and are able to move.

If the intent is made clear to me that you and the "owners" intend to harm my family, then I'll make sure to have everything going on played out into mainstream as much as possible, and with nothing kept in private concerning all parties involved in this matter. Once you've read the e-book, you will see/sense the real power of TRUTH and the very clear, going where the truth (do no harm) takes us all, is all that matters. This is NOT a joke - this MAN walks-the-talk - always straight shoots in peaceful ways.

The deeply profound, wide and varied insights shared in the ebook will, IN THIS LIFE, change everything for many across Earth, and all for the better. You (and the "owners") will be one of the very first to receive a copy of it when the first edition is released and if Fiona is drawn into a tribunal, she will also file the e-book in her defence, and in your defence and in the owners defence and in the "courts/tribunals" defence too. This is NOT a joke. You've never seen anything like this before and very few of MAN, past or present, ever have. The e-book, when finally completed through its revisions, will be full of simple illustrations and all together provides FULL-DISCLOSURE so that there is no misunderstandings about the BIG-PICTURE TRUTH of our intentions and motives.

Also, and for the third time bringing it to you and the "owners" attention, going back over the past 6 weeks or so, a) the backyard tap is still leaking and needs to be replaced, b) the oven seal is faulty and can't be used, all the heat escapes, and this needs to be repaired, c) the dishwasher is not working and needs to be repaired, and d) the main bedroom door handle including lock is jammed up and won't close requiring firm pushing to close and open the door - this needs fixing as well.

All the best to you and your family Linda and to the "owners" and their extended family as well.

Arthur Cristian

17/10/2018 12:59 PM

Hi Arthur and Fiona,

Thank you for your email.

Whilst we appreciate your situation, please be reminded that you do not own the property.

The owner of a property can Terminate a Tenancy should they wish to do so in accordance with the Residential Tenancies Act. You have been given the required (90) days "No Grounds" Termination Notice which is deemed to be an adequate time frame for tenants to find alternative rental accommodation. Unfortunately, when you are leasing a property and on a continuing lease agreement, you can be issued with this Termination Notice at any time.

This notice is legally binding and if you do not vacate by the required date of the 6 November, 2018, the NSW Civil and Administrative Tribunal will make an order for vacant possession.

Neither our agency or the owner wish any harm to your family however, you do need to understand that there are laws which govern owners and tenants regardless of whether you choose to follow those laws. You were bound by the laws of Residential Tenancies Act from the moment you signed the Residential Tenancy Agreement for the property.

We are under the owners instructions in relation to this matter and we will proceed with obtaining vacant possession in accordance with the law.

Kind Regards

Linda Cairns
Senior Portfolio Manager LREA

17/10/2018 2:22 PM

Hi Linda, You obviously have no real idea as to what you are getting into.

We've made no claims that we own the land and never will and no one can prove they own any land, anywhere either.

Re-Presenting "Intellectual Property" copyrighted or not is NOT proof of ownership.

A fantasy is not proof of reality.

This is an incontrovertible FACT.

What is on a piece of paper or on digital hard drives, etc, IS NOT THE LAND or the MAN on the land.

You are now dealing with a living MAN on the land who is clearly well above the law, the rule of law.

As a Supreme Court Judge said to Fiona in 2016, "MAN is above the law but MAN chooses to subjugate himself to the law so that there is order".

The living MAN, Arthur, not a contracted slave performing commerce, willingly and consciously dropped EVERYTHING that subjugates a MAN under the rule of law. In the fiction of time, its been like this since 2006. This living MAN, Arthur is not to be found in any paper work or hard drives, etc, anywhere performing in commerce. No commerce under the representation of the person ("NAME") has been performed since that "time". There are no contracts existing where a paper trail can be seen to represent the fiction of a MAN, Arthur....., performing in commerce. You need a MAN willing to be subjugated to animate the commercial of the fiction of the "NAME" of the person (SLAVE) in commerce.

All the courts and tribunals are commercial courts, private corporations/entities, conducting business/SLAVERY as is seen by the in-corporation seals used in the commercial vessel, the Commonwealth of Australia, a commercial entity overseeing a system of slavery, and onwards throughout the State Governments, territories, principalities, etc, and onwards through the local courts, magistrate courts, federal courts, supreme courts and high courts, all commercial vessels overseeing SLAVERY, including all the commercial Tribunals, etc. The living MAN, Arthur, is above all this, is a not a SLAVE.

Interesting how we are being made out to be the "bad" ones here when we are the ones willing to work out a peaceful, friendly solution to the problem that has deeply compromised EVERYONE still existing/performing as commercial trading slaves/vessels, DEAD CORPSE FICTIONS UNDER "NAME", that is only the branding of a rank and file slave amongst herds (cults/sects) of slaves, seeing what the "intellectual Property" "owners' intentions are and working with a "time" frame we practically need to move peacefully forwards from this location.

Repeat: we do not want to claim the property or to stay here for much longer. We just cannot get out in the time frame provided. Simple.

We are not the problem here. "The System" (of slavery) is the problem and all those that support, condone, comply and acquiesce to it are the problem. Just because the rule of law of the brotherhoods/priesthoods says that I can be removed from here after 90 days, does not make it fair or morally correct and is without ANY consideration for the rent I have paid over the years and the comfortable security I have given the "owners" as i have paid off most of the mortgage (mort means death and gage means pledge = a contract to be a willing slave, the REAL MAN above the law being DEAD at law) for them. And I am not griping about the money spent. They can enjoy the proceeds down-the-line. I just want some generous consideration here and some realistic compromise.

To lie is a curse and, when a MAN refuses to be under the lie of the rule of law, the MAN who does not lie has the higher power to consciously and intentionally bring the curse upon all those responsible for the lying because all lies do harm to a MAN who has never injured them, never broken the peace, committed a crime, etc, or pledged to be their slave, because Arthur..... is no longer processing the curse, the original sin of committing fraud that allows jurisdiction and administration of the "NAME" by the priesthoods/brotherhoods/etc within the Roman Catholic Church, the Church of England, the Jesuits, etc, and deep into the bowels of the Freemasonic orders and societies, etc, who are perpetrating this collusion with fraud to procure the benefits of slave labour because they are all involved in overseeing the original sinners over whom their rule of law (SLAVERY) is applied. This is why the invaded lands were all divided into Parish lands to oversee the ORIGINAL SINners.

This living MAN Arthur holds a living dream that all liars throughout "The System" have the complete freedom to fully experience the hellish outcomes of the processing of the curses of their making in this life without respite or protection from the immense power of this curse being processed throughout all their vessels, and from there, this horror spreads, in this life, through the lives of all their loved ones and all the beneficiaries of the commercial labour performed through slavery, no matter how far and wide they may be, seen or unseen. This living MAN Arthur.....intends no harm upon any one but does not accept the curse of harm coming to him and his family from others. If you want to send in a mob to remove the living MAN, Arthur, from the land, he will go peacefully, chained or not, whipped or not, but this will not change what has already been set into motion. All this will be covered in the free e-book "Defining Magnificence Into Mediocrity And Calling It Magnificence" so that no one can claim that they did not know the predicament of the consequences of what has become of their real lives trapped in "The System" of blatant slavery.

Fiona Cristian

Thursday 18th October 2018 3:50 PM

Fiona Cristian

Hi Linda,

As I lay awake last night at 3.00am, thinking about my situation, I started going over the actual physical logistics of moving this household. Looking into the double garage, we see it chock-a-block with a second household from the family home that was stolen from us. We see all the bulk food in containers in racks to the ceiling that has been bought in bulk with others to save living costs, all the garden/maintenance tools such as drills, saws, etc, products that we use in the garden, a cupboard system from an old kitchen that we brought with us that is used to store a variety of things, including paint, car oil, etc. There are shelves to the ceiling with household books, papers, children's school and art work, court case details, CDs, etc.

Then there are the two sheds we built, both easy to dismantle and causing no harm to the property, storing garden tools, camping equipment, tarps, timber, bamboo sticks, garden chairs, etc. Then there is the hothouse, easy to dismantle and causing no harm to the property, with shelving systems inside, full of seed trays planted with summer crops and some frost sensitive plants ready to come out for the warmer weather.

Inside the 3 bedroom house there is a mixture of two households so there is a lot of sorting to do before the packing can begin, with items to sell on Gumtree or at a garage sale and much to be recycled. Then there are the garden beds to be taken down, as many plants as will survive the transition to be dug up and put into pots, the front arbour to be dismantled, 30 + tonnes of soil to be removed and then the job of re-turfing the garden, attending to any maintenance work in the house that needs doing, such as touching up walls, etc, then cleaning thoroughly so that the house is left in a pristine state.

Add to that the fact that I work and have a household to run. I am a casual employee so, if I don't work, I don't get paid. Even if I had the money to pay a big bond and double rent for a few weeks, Linda, it would not be physically possible to achieve all this in 90 days! And yet, I have done nothing wrong. There is no law that says that I cannot live as I have done in this rental property. There is no law that says I have to be on tenterhooks the whole time I am living here because I might be asked to move at any moment.

But there is a law that says that I, who have never come into your private life to cause you harm, or into the private lives of anyone working at Highlands Property to cause them harm, or into the lives of the "owners" to cause them harm, can be harmed just because I cannot vacate this property in the time frame demanded.

Under the "title" of Property Manager, which has nothing to do with the living woman that you are, you are entitled to come into my private, family life and cause immense

harm to me and my family and you have made it very clear that you have every intention of carrying out the harm you are entitled to carry out under the rule of law, backed up by the intention of the owners of Highlands Property to do harm to my family, backed up by the intention of the "owners" of the property to do harm to my family, backed up by the rule of law that sanctions and supports the harm you are intending to do to my family.

So do not tell me that you "appreciate my situation" and then continue with your blatant intention to do harm to my family. Presumably, once you have made your application for Vacant Possession to the tribunal and processed whatever needs processing, you will wash your hands and walk away, remembering it merely as an unpleasant interlude in your career, while my children are living with the insecurity of not knowing where they will live and even if they will have a roof over their heads in a few weeks and I am wondering just what on earth I am going to do to be able to take care of my possessions and the garden when I have nowhere to take them and no time to find somewhere that suits my situation and move it all peacefully.

If you really appreciated my situation, you would not have anything to do with coming into my private life and causing harm to my family.

The Love For Life insight and remedy work that Arthur and I have been doing over the last 13 years is coming to an end. We are ready to move on to the next stage of our goals which includes moving from here. But to do it in the time frame that you, the owners of Highlands Property and the "owners" of the property have dictated to me, sanctioned by the law, is an impossible task. My daughter tells me that in Germany, if someone has been renting a property for more than a certain time, they have to be given a longer time to vacate, in recognition of the fact that, when you live somewhere for a long period of time, you put down some roots.

I suggest that you, the owners of Highlands Property and the "owners" of the property come here to the property and I will walk you through everything that I need to do to move my family out of here and then you can decide for yourselves if what you are all demanding is reasonable. I am really not that frightening and what is happening here is not that frightening either. We are not violent and carry no weapons and are not known for harming others. You will all be quite safe.

Why is it, that when I have been a good tenant, paid off most of the house for the "owners" and have no intention to make any claim to the property, as you seem to think, I can be treated as if I were scum, a piece of shit to be scraped off the shoe and forgotten about? Where is the respect, goodwill, consideration and compromise?

I have shown continual respect, good will, consideration and compromise, always keeping the property at a high standard out of respect for the "owners" and their long term interests, giving the "owners" full disclosure about who we are and our intentions,

even letting them know nearly twelve months ago that I would need 6 - 12 months (actually 9-12 months) to move from here, and offering to pay more rent, thinking that their reason for demanding that I vacate the property might be that they wanted to rent it for more money, even though, if I pay more rent, it is going to take me longer to save the money to move out of here.

This rule of law-sanctioned-harm carried out by men and women all across earth under the "title" of their jobs is why Arthur pulled out of "The System" - he no longer wanted to be part of this disgusting and despicable harm doing going on day in, day out, with no one prepared to take any responsibility for the harm they are carrying out. The rule of law allows them all to be Pontius Pilates, washing their hands and walking away, leaving the thugs to do the dirty work they have set up. I hope you have the guts to show up when the bailiffs arrive to start pulling my life apart.

I am not someone who likes to cause a disturbance or make a song and dance about things but, if you, the owners of Highlands Property and the "owners" of the property are determined to carry on with your plan of intentional harm towards my family, the only avenue I have is to make a BIG fuss in the local community, including the radio, newspapers, fliers, etc, to make people aware of what is happening so that they start to question this almighty power of the Real Estate Agent, sanctioned by the law, to meddle in the private lives of men, women and children and do them harm. My experience shows me that, if something is happening to me, it is also happening to others, but many are too scared to protest or to question the rule of law.

Just how much harm are you causing in the private lives of others under the "title" of Property Manager?

Do you realise that you are being paid to do harm to men and women who have never harmed you or your family in any way?

In the system of overall health, when a man or woman intentionally does harm to someone without reason, they are labelled psychotic and someone who is psychotic is not competent, is irrational and has no conscience.

Can you show me how your current behaviour, the current behaviour of the owners of Highlands Property and the "owners" of the property is not psychotic, incompetent, irrational and without conscience? You are all admitting to having the intention to do harm to my family without reason

Just to remind you, I have never broken the peace with or caused any harm to you and your family, to the owners of Highlands Property and their families or the "owners" of the property and their family and I do not have any intention to do harm to any of you in the future. I have a conscience.

When we are conscious, we are gifted with magnificence that we pass on to the generations to come, just as it was passed on to us by our conscious ancestors. When we are not conscious and we are psychotic, we destroy everything of magnificence around us, including the lives of our brothers and sisters who do not do this to the psychotic.

Those who are conscious have the full responsibility to expose those who are psychotic as threats to the wellbeing of the wider communities.

I trust that you will forward this email to the owners of Highlands Property and the "owners" of the property, in its entirety, unedited.

Regards,

Fiona Cristian

29th November 2018

Tribunal Mediation @ Moss Vale Local Court House

Fiona was given a 90-day Termination (not eviction) Notice to vacate this 13-year rental property by the 6th November 2018 with only 90 days warning. We had written to the owners last year, saying that we would need 6 to 9 months to move from here as it contains two households and the food forest garden with its 30+ ton of soil, etc, etc.

They ignored this and gave us the minimum notice required by law to move out and have refused to meet with us to talk about it and work out a strategy that works for both parties. Despite the fact that Fiona has been a very stable, undemanding tenant for the last 13 years, always paying the rent in advance, over \$250,000.00 in total, and maintaining the property to a high standard, as well as adding value to the property by planting a beautiful native garden at the front of the property and restoring the front lawn from struggling grass on clay to a lush, comfortable place to sit, she is now being treated like a piece of dirt to be scraped off the shoe. See all the before and after photos embedded in the temporary Love For Life website homepage:
<http://loveforlife.com.au>

We have written to the Property Manager and the owners to explain the situation but they will not budge and continue to have no regard for the wellbeing of our family.

Copies of the correspondence can be found here:

<https://docdro.id/SqkeczB>

Three weeks after the Termination date, Fiona was called to a Tribunal mediation at the local Moss Vale Court House, 29th November 2018, where both parties sit together and try to resolve their matter. If they do, they go before the Tribunal Member who makes an order confirming the agreement. If not, the Tribunal Member decides the matter for them and makes an order. Following are notes that Fiona wrote up when she returned from the Tribunal.

The owners of the property were not present but two women, Danielle Spence and Natasha Green from Highlands Property <http://highlandsproperty.com.au/meet-the-team> came as their representatives. Linda Cairns, the property manager we have been dealing with for around 8 years, did not attend. We started by talking about why I had not vacated the property by the 6th November and why I needed more time, which was because of financial reasons and because we need to move this garden to the right place, not just another rental property where it will all have to be torn down again. I said I needed to save money to be able to pay a bond, double rent, the costs of moving as well as getting n a bobcat to transfer the garden onto large trucks and putting down a new lawn to get the property back to how it was before we moved in back in 2005.

Natasha said that there were agencies who would help with that by giving the bond money. I said that I would then have to pay it back. She said I wouldn't but, when she rang the office for details later, she said that I would have to pay it back but not immediately. I said that I thought that saying they needed the property back for "urgent personal and financial reasons" was just Real Estate jargon because they could have had the house next door (No. 9) that they also own when that became available in August/September 2018 if they needed a house. They have since rented No. 9 out again on a 6-month lease and the new tenant moved from a nearby house at the same rent because No. 9 was a nicer house.

The Highlands Property representatives said that it wasn't just jargon and that the owners needed to sell both properties before the end of the financial year otherwise they were going to be in deep financial trouble. I said that I could be out before the end of the financial year and also that they could sell it with me in it but they said that the

owners wanted vacant possession because they wanted to renovate the house. I asked what the owners were offering and they said that they didn't want us thrown on the streets and that they were prepared to give us two more months, until the end of January 2019. They also said that the Tribunal Member was more likely to give me a lot less time than two months and that the owners could have ordered that the sheriffs come in next week. I called Arthur and he said that they could renovate with us in the house, if they wanted to put in new carpet, etc. They said that the owners wanted to renovate the bathroom and kitchen (which are both in good condition and look fine) so they wanted vacant possession. I suggested that they give us longer to move the garden so long as we got out of the house by the end of January 2019. They said that there might be insurance issues with that but rang the owner who said no, he just wants vacant possession.

Arthur also said to them over the phone that we had no means of moving by the end of January 2019, that it won't happen, unless someone gifted a piece of land or the money to make a big move, and he asked them not to ask him or me to lie to them because we refuse to lie. He also said that he has to keep growing food because that is a MAJOR, essential part of our survival and wellbeing so that garden can't just be dug up and stopped.

I asked why they had rented out No. 9 on a 6-month lease when they were going to sell both properties and, from what I remember, they said something about them selling this house, No. 11, first. But, if they are in financial trouble, why not sell the empty, more valuable 4-bedroom house? Why push out the tenants who have been paying the rent for 13 years and are content to keep paying the rent (I also offered an increase in rent to \$500.00 p/w from \$460.00 p/w) until they find somewhere suitable for them to move to and who had already told the owners nearly a year ago that they would need 6 - 9 months to move out?! I kept referencing what was happening at No. 9 until eventually they told me that No. 9 was separate and had nothing to do with what was going on at No. 11.

We appear to be on shifting sands here. If there is a real financial problem for the owners, they can sell next door and they can sell this house with us in it. The property market in both sales and rentals is slowing down and prices are dropping - you would have thought that an experienced Real Estate Agency would advise the owners to sell as soon as possible and not to bother with renovations, which will probably not add value to the house, if the prices keep dropping which is what many experts across earth are predicting, sooner rather than later!

Arthur was told by the previous tenant next door that they moved out (they bought a house) because they had been told by another local real estate agent that the owners intended to sell both properties next year. A neighbour who intimately knows a property manager from yet another agency, said that the owners wanted to get us out so that they could put the rent up to \$600.00 per week next door and close to that for this one. There are also some issues with this house, as in an oven and a dishwasher that are

not working and have not been fixed, despite the fact that we reported the problems in August, well before the 6th November Termination date. We also have a door that jams and a hot water tank that is leaking water and looks as though it needs to be replaced, being outdoors and close to 18 years old.

Though we have been told that this was not the reason Fiona received the Termination Notice, it arrived just a couple of days after we had taken down some Leylandii Pine trees that were overgrown and causing damage to the fence. As can be seen by reading the correspondence between Fiona and Highlands Property, we have undertaken some extensive works here to fix problems and to show goodwill by leaving the property in a better state than when we arrived. It seems that there is no reciprocation of good will coming back from the owners or from the real estate agency, despite Fiona's perfect rental ledger and being perfect, reliable, responsible tenants.

Back to the Tribunal. They asked if I had been doing anything to get ready. I said that I had asked Linda, our Property Manager from Highlands Property, if she had any properties on her books that might suit us and she replied that she had nothing suitable. Arthur also spoke to a property manager at the other biggest Real Estate Agency in the Southern Highlands, Century 21 Mittagong, and told her what we were looking for and she also said that she had nothing suitable but would let us know. The two representatives from Highlands Property told me that there was a glut of rental properties on the market at the moment. Interesting how Linda from Highlands Property has never contacted me to let me know of properties that might be suitable for me when there is a glut of properties on the market. Somehow, we feel that Highlands Property would prefer that we do not rent from them again!

I said that I had been working on the e-book because, without the financial resources to move, my only option was to write the e-book so that we could get the message out and inspire people to help us move the dream that we have been creating here to another level on a suitable piece of land.

I asked why Linda had never told me about the agencies that help with moving costs when I had mentioned many times in our correspondence that I did not have the finances to move! Not once did she mention that there was help available! There was no answer to that from the Highlands Property representatives.

A couple of times in the conversation, they suggested that Arthur get a job for a couple of months to bring in some money. I explained that he had no paperwork and they said he could get some! I said that would never happen. We have to assume that they do not fully comprehend the big picture of what is really going on with us and do not intend to make an effort to do so.

As we were at a standstill and the sheriff was hanging around to see if we were finished, I said that I would do my best to get out of the property by the 31st January, 2019. They said that we could sort out any left overs of the garden or whatever at the

time. As we were filling in the paperwork, I suggested that the owners give me a rent-free period to save the money to help me vacate the property as I was leaving a beautiful native garden at the front of the property that would put thousands of dollars on the value of the house. The Highlands Property representative said that she thought that this was a good idea and that she would look at photos of the garden and talk to the owners. I have yet to hear anything back about this since the 29th November 2018.

Currently, we are still not in a financial position to move this garden and the household out of here by the 31st January, 2018. Getting the car out of the way was a big thing and now we are focusing on the next major event of moving from here, because we are happy to move but cannot do it at short notice. Our only options to prevent the family being thrown out on the street is for someone to buy this property so that we can stay here until we are ready to move the Kindom dream to a larger, more suitable property, or for a larger piece of land in the area with stability to become available to us before that date.

We are working on the free eBook as good-hearted propaganda material to distribute amongst the local community and across the net. This is the marrow in the bone that we are not going to discuss here. Check out the temporary website at the end of next week.

Again, in this situation, the rule of law is used as an excuse to ride roughshod over people's lives and, in the end, my situation is summed up as the owners having the right to do whatever they like with the property because the law says that they can and they have given me the period required by law to move out. Been a good tenant? Not important. Paid off a substantial amount of the mortgage? Not important. Have a family and a garden that takes care of the family? Not important. Have a dream other than money? Not important. Have a much bigger picture dream than just making money and surviving "The System"? Not important.

What the rule of law is saying, along with all those who support it, is that money is more important than the real lives of men, women and children. We are living in a system that has a history of uprooting MAN from the land for money, whether through war, mining or farming, or other methods. The real wealth is the land, air and water and MAN on the land but we and our ancestors have all been displaced from these basics and made to pay for them with the fantasy of money. Ownership of land and resources is a fantasy that is making us all suffer as we struggle just to be able to have a roof over our heads at night and food on the table. There is more than enough land all across earth for every family to have ample space to build their shelter and grow food for their families and have a magnificence of abundance to be able to create magnificent dreams.

What is money? Can anyone see it, touch it, taste it, hear it, or smell it? And no, money is not those plastic, paper and metal representations that we call money. Money is a fantasy, an idea made up by a MAN that is used to enslave and dominate MAN all

across earth. To survive in "The System", we have to worship money and place it above the wellbeing of our brothers and sisters and ignore our consciences if they tell us that what we are supporting and acting out is wrong.

The heart of MAN does not lie, cheat, steal, manipulate or harm any MAN or anything of the living dream of MAN'S life. How have we been so badly misled that we now live lives where we do harm day in, day out to the whole of the dream of MAN'S nature that is who we really are.

Without the true freedom to care for and be fully responsible for land, what are we?

Without the true freedom to care for and be fully responsible for water, what are we?

Without nature, without forests, mountains, valleys, rivers, oceans, plains and all of the creatures that roam them, what are we?

Is the fantasy of money really more important than all of this?

All the best to you and your extended family

The Latest News

14th December 2018

Due to security issues, the Love For Life website was taken down early July 2018. We had known for a while that it desperately needed to be upgraded from Drupal 5 to Drupal 8.1.6 but, as usual with us, we never had the money to do so. But with our host, pair.com saying that they could no longer support the current site because of the constant on going sophisticated and intense attacks from algorithm bots, it was crippling their server and causing other security issues at their end.

Through some gifts accumulated over 12 months or so, we were able to get US\$500.00 together to pay a developer through Upwork.com, an online freelancing platform where developers bid for jobs. We found a fantastic developer from Spain, a family man, and things were progressing when Fiona's PayPal account that she had had since 2005, was suddenly closed by PayPal without warning or reason. PayPal said that she had done nothing wrong and that PayPal had done nothing wrong but still the account was closed!

As usual with the enormous, faceless corporations running nearly everything of "The System", we were unable to get a remedy to this situation and so, for 4 months or so, were we left without a channel to receive gifts from supporters and Upwork would not let the developer continue working on the website because Fiona no longer had a PayPal account! 6 weeks later, we were able to get Upwork back on side by giving them Fiona's Visa debit card details and the developer jumped back on board, had everything just about ready to go live when.... he disappeared. He didn't respond to any messages on the Upwork site, to emails or to attempts to contact him through Google Hangout. After about two weeks, we were left with no option but to cancel the contract with Upwork who then returned the US\$500.00 as the job had not been completed.

Our correspondence with PayPal can be seen here
"The Fascism Of PayPal": <https://docdro.id/M2CE1eN>

In the meantime, Arthur started setting up a Stripe.com donation checkout, an alternative to PayPal but more complicated to embed into a website or, in our case, the temporary webpage that we currently have set up: <http://loveforlife.com.au> so there is something there when people look for loveforlife.com.au.

This temporary webpage is still under our part time construction and should be finished by the 20th January 2019. The first, shorter version stage of the free Love For Life e-book "**Defining Magnificence Into Mediocrity And Calling It Magnificence**" will be embedded in the home page in a week or so from now. Through another freelance website, guru.com, we ended up contracting 5 hours labour @ US\$18.00 per hour with a 17 year based Indian group of developers, SynapseIndia, to get Stripe working properly on the webpage using PHP and Apache, and finally, a month later it is up and running: <https://loveforlife.com.au/donation.php>

Now we need to start saving again to get the Love For Life website's 2006 Drupal 5 database upgraded to Drupal 8.1.6 so that it can again have a presence online without being a security risk. Any donations towards this would be greatly appreciated.

We did receive a \$10,450.00 gift from a very generous man, a stranger, in Germany, and we sat on it for 5 months or so in case there were legal and political issues associated with it but, in the end, we used it, along with a \$4,000.00 loan from a local friend, to buy a second hand 2010 Mazda CX9 that Arthur hunted down. The car is in excellent condition with a brand-new transmission and transfer case installed late 2016 by Mazda, and with an almost new car 12-month warranty thrown in, was a great deal for Fiona and should last for many years.

The two older cars that we have been keeping just roadworthy for the last couple of years, 1999 Subaru Outback Limited wagon and a 1988 Mercedes Wagon 130TE finally got to the point where they were not worth registering anymore. We are currently trying to sell them off for a few dollars but, if nobody takes them soon, it will be off to the wreckers for both of them. Even though she comes and goes a lot, we have re-registered Hannah's old car, 1988 Toyota Camry wagon for the time being but that will have to be replaced sometime next year as it is also on its last legs.

The Egregore Of Your False Idol Governmente

Lyrics

I love you - I love you - I love you - I love you

Confusion clouds the soaring of my brain
And I don't see what I do
And I don't hear what I say
But my way is the one and only way
So I'll give you my fake smiles
Ignore you while I nod
Approval is the name of my fake game
As I measure your responses
To my carbon copy words

I love you but I stab you in the back
I'd help you but my will is not my own

I'm sitting on the fence of doubt and fear
My heart firmly encased by conditions of conceit
The freedom of the dreaming of my heart
Is suffocated by the righteousness of victimhood

The snarling beast of jealousy lies waiting to attack
Those who raise their fearless heads above mediocrity
So we murder others' heartfelt dreams with petty growls of spite
And poison resolutions strong with fantorgasmic fumes

But I love you ----- Love Is beautiful
I don't hate you
I'm just trying to work things out
Yes I want to
And I'm going to ----- Love is wonderful
I've just got to find the time
Yes I like you
But your thinking ----- Love is magical

Is not something I condone
I'm so sorry
I just had to ----- Love is inspirational
There was nothing else to do

You were not on my radar
Cause I was dreaming fantasy
The egregore of your false idol governmente
The egregore of your false idol governmente
The egregore of your false idol government

I love you - I love you

I babble twisted words of callous consciousness
I smear my life with harm oozing calculated concern
What's in it for me
What's in it for me
What's in it for me
Shrieks louder than my soul

The blinds of my obsession
With my imitation world
Like an environmental juggernaut
It's stamping out my life
With my, give me what I want
And my, I don't give a fuck
With my, give me what I want
And my, I don't give a fuck
With my, give me what I want
And my, I don't give a fuck
With my, give me what I want
And my, I don't give a fuck

War within us --- The egregore of your false idol governmente
War between us --- The egregore of your false idol government
War within us --- The egregore of your false idol governmente
War between us --- The egregore of your false idol government
War within us --- The egregore of your false idol governmente
War between us --- The egregore of your false idol government

Your I love you brings destruction
To the things you claim you love
You say you want your freedom
But you need to have your slaves
You admire the nearest mountain
But you drive there in your car
You dote on sons and daughters
But you feed them toxic trash

10th December 2018

Hi Linda, Danielle, Natasha and others at Highlands Property (this email went to everyone listed in Highlands Property "Meet Our Team" section: <https://highlandsproperty.com.au/meet-the-team>).

This is Arthur here.

If any of you are not aware of the big picture that surrounds my family then do read on. It is most important that you are conscious of your agency's on-going dealings with us. If the first, smaller edition of the free Love For Life e-book is completed during this week, then as a family and with support of friends and other sympathisers, we will begin our very intense, on the street, door to door campaign, including radio, internet and print media wherever possible, to circulate the BIG PICTURE OF REALITY (dream of MAN'S life) which the free e-book offers, until the end of January 2019 with the intention of informing the wider Southern Highlands community as to what is going on, particularly the meddling to undermine the full responsibility this MAN has to care for and provide ongoing certainty, security and stability for the wellbeing of my family.

It seems that others "out there" want to undermine and destroy this normal, every-day-life, full responsibility this man carries to care for the wellbeing of my family and the worship and value of money, that comes with brutal and intense discrimination and censorship, is much higher than the real value of a MAN'S life to maintain certainty, stability and security for my family.

As it stands today, my family will be thrown out on the streets by the end of January 2019 if we have not moved from 11 Roycroft Street East Bowral, even though Fiona's

responsibility to always pay the rent in advance and maintain the property to a high standard since November 2015 have always been fulfilled, and we continue to do so.

Under the present financial circumstances my family is faced with, we will not be able to move out of this property before the end of January 2019 and the ongoing, "Western World" agenda, supported by the Roman Catholic Church, The Jesuits, The Church Of England, Aristocracy, Royal bloodlines and their vast array of Freemasonic brotherhoods, sisterhoods (Eastern Order Stars), societies, fraternities, think tanks, institutions, etc, secret or not, to displace tribes and families of MAN on land all across Earth continues with the very real threat of my family being displaced from land so that this family MAN can't (is not allowed to) provide the stability, certainty, security, and with it, the peace and calm to create, hold and expand magnificent living dreams of MAN's life, the undefined soul.

Their claimed and glorious progress of civilisation, reeked with exclusivity and privilege for a tiny few (of them), is in fact the enFORCEmen-t (mente means the mind) of their brutal DARK AGES, the war of a living (live in) man-made hell they oversee with ongoing glee and they even put in place their fake PAX ROMANUS to maintain this ongoing horrific state of war conditions under this fake peace treaty (pax romanus) with all their captive (inculcated/deeply-brainwashed//educated) slaves, their govern-men-t = govern men, women and children - govern the mind (mente), who now all act as their modern day Roman foot soldiers, centurions, battalions, legions, (DRONES), etc, better known as the employees, re-presentatives, executives and directors of private corporations and the privatisation and globalisation (privatised one world government) of their Judeo-Judaic ONE bloodline dream hatched over 1000 years ago. This is NOT a joke.

Firstly, and going back a few weeks or so, the 18 year old or so hot water tank has also come to the end of its life and needs to be urgently replaced. Lots of water is leaking out of its bottom and the gas meter is going up and up and so the gas bills are getting more expensive for "poor little ole us". Since the latest Government price hikes, our gas bills were averaging \$180.00 to \$200.00 per quarter but the latest one we recently paid went over \$300.00 so the deterioration of the hot water tank must have started 6 weeks or so ago but we didn't detect it until last week.

Josh, a 16 year or so Roycroft St family man, resident and plumber, had a quick look yesterday and said its had it. He said he had the exact same tank and got rid of it 3 years ago when leaking water was putting the flame out. Refer to the links to 5 photos at the bottom of this email.

On top of this is the three months+++ of letting you, Linda Cairns, and the title deed holders of 11 Roycroft St, Barry & Gabriel Stooke of North Turramurra, know over and over and over again that the oven and dishwasher are not working and can't be used even though Fiona Cristian continues to consistently pay the service fees in advance for renting the title deeds of this intellectual property (NOT THE LAND), defined as 11 Roycroft Street East Bowral.

Then there is the report of a faulty door handle and door lock to the "master bedroom" of this title deed property = intellectual property that Fiona has been paying for 13 years+ now, a top class 5/5 gold star tenant, the perfect angel tenant all property managers, title deed holders and local residents dream for.

It is beyond this MAN'S comprehension how you can treat this very good wombMAN with such disdain, disrespect and callousness.

To remind you all, your About Us mantra..... "We care for our clients. Excellent service is our promise."

So what happened?

Was there a momentary lapse of reason, though a very long one at that?

Or do you rely on the protection of the law to do harm to your clients so you don't have to take any responsibility for it?

I look at this unnatural, quirky, strange, man-made phenomena this way: if you don't have these issues handled by this coming Wednesday, 19th December 2018, and completed by this coming Saturday, 22nd December 2018, I will "personally" organise for them to be fixed or replaced on Fiona's behalf (I have her permission to do so) by qualified tradesmen and take the costs out of Fiona's fortnightly service fees and supply you with the receipts/paid-invoices. If I haven't heard by this Wednesday, 12 noon, I will go ahead and get these matters resolved quickly.

Link: <https://highlandsproperty.com.au/our-story>

We care for our clients. Excellent service is our promise.

https://assets.boxdice.com.au/highlands/attachments/d99/c90/all_staff_domain_banner.jpg?1a9f030296db44c5902a6d4511bdba49

Highlands Property was born out of the desire to bring the high customer service standards of a modern professional business to the real estate market in the Southern Highlands, where traditional habits had fallen well behind current best practice. This required thinking about the whole sphere of real estate agency sales and property management in an entirely new way.

We wanted to address, and overturn, the typical attitude to real estate agents that:

- they are unreliable, greedy and untrustworthy

- they don't communicate well enough, often enough

- property management is secondary

We started with the attitude that property management is core business. In fact, in the beginning, it was all we did. Now, as we grow, it remains a key focus of our business.

Real estate agency is about people

It's caring about people: caring about our vendors' and buyers' dreams; caring about our landlords' investments; and caring about our tenants' homes.

It's about helping people find the right place to live, work, retire or invest.

We affect thousands of people's lives every day: where they live; how secure and comfortable they are in their home; or how well their property investment performs. This is serious business, not just a hobby business.

Real estate agency is about communication

It's about timely, clear, pro-active, quality communication between people. Between us and our landlord clients. Between us and tenants. Between us and vendors and buyers. It's about setting expectations and meeting them; because unpleasant surprises please no-one.

Property management demands attention to detail

So, we continuously refine our detailed processes and procedures to ensure the delivery of timely and reliable service to landlords and tenants.

Modern computer systems, databases, electronic filing, internet access, and the latest communication technology and methods are essential tools of our trade: they ensure the accuracy and efficiency of information delivery. They allow our people more time to spend with our clients.

Over time, we recognised that what we do well also applied to property sales. We started to sell properties for our landlord clients as an added service.

We delivered real value to them. Quality is not about property: in fact, some are far from special. Quality is about the advice we give: honest, comprehensive and fearless.

Quality is about the service we deliver.

Clear and timely communications; accurate dealings with legalities; prompt attention to detail by following procedure; creative marketing; attentive responses to buyers; smart negotiation and quality follow through.

At Highlands Property, we understand that where you work, where you live, what you invest in, is centrally important to you.

Every day, thousands of people sleep in houses we rent to them. They work in places that we lease. They invest in houses in which they saw potential.

They call these places home. Or work. Or part of their investment portfolio. The point is, the property becomes part of them. They see it as having an important place in their lives; it is where they belong.

Our job is to care about these elements in people's lives.

It's about caring, respect for others and trust. That takes vision and experience. We have to be a problem solver, a can-doer and a deliverer.

At Highlands Property, we are proud about our “go get it” spirit that has helped grow us into the biggest in our market. That now gives us the skills, the data, the knowledge and the experience to always deliver superior results for all our clients.

And, if our contribution to the Highlands is to last, we know we need to maintain probity and surety, rigor and the absolute faith of our clients. We need to perform. We need to impress. We need to reassure. We need to be accountable.

This is what creates our success. This is what brings our Highlands Property brand to life.

LOLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLLL

Arthur Cristian

SIT INTERLOCK GAS CONTROL

160 LITRE	CAPACITY	MODEL NUMBER	311170N0	APPROVAL NUMBER	5902
	SERIAL NUMBER	1115073	GAS TYPE	NATURAL	
	DATE OF MANUFACTURE	22/03/2001	GAS CONSUMPTION	40 MJ/hr	
	WATER PRESSURES		OUTPUT	9.1 kW	
	MAX SUPPLY (NO ECV)	1120 kPa	MAIN ORIFICE	2.80 mm ¹	
	MAX SUPPLY (WITH ECV)	960 kPa	PILOT ORIFICE	0.27	
	TPR VALVE SETTING	1400 kPa	TEST POINT PRESS.	1.00 kPa	
EC VALVE SETTING	1200 kPa				

DO NOT LIGHT HEATER UNTIL FULL OF WATER

THERMOSTAT & GAS CONTROL KNOB

LIGHTING INSTRUCTIONS "EUROSIT GAS CONTROL"

1. Turn the knob fully clockwise to the "●" position (the off position).
2. Wait five (5) minutes so any buildup of unburnt gas can escape.
3. Turn the knob to the "*" position (the pilot position).
4. Depress the knob fully (until "*" disappears below housing) and after thirty (30) seconds, whilst keeping the knob depressed, repeatedly press the igniter button (for up to 40 seconds) until the pilot flame ignites.

NOTE: It is not possible to depress the knob fully if the gas control has activated its safety shut-off feature. In this case, wait 60

Below are links to a series of photo albums located here

https://www.facebook.com/arthurcristian/photos_albums showing how a rental property in East Bowral, NSW Australia, with a land size of somewhere between 1/10 and 1/16th of an acre around the house was transformed into a flourishing native and food garden producing 1.5 ton of living organic food per year, soon to be 2 ton per year with all the excess given away for free, and there is plenty of it during harvest times. All of this has been done with very little money since 2011/2012. The land was mostly all clay with rock and bulldozed work-site garbage underneath, with a struggling lawn that could not get properly established because there was no humus or topsoil due to it all being bulldozed away when the developers started building the new rural suburb of East Bowral back around 1999.

For those of you new to the Love For Life insight work, we suggest reading the contents of this Facebook thread: **Image-Labels:** <https://www.facebook.com/arthurcristian/posts/10216234285237888> or <https://docdro.id/Xualbs9> as they are part of an ongoing sequence that may make things clearer for you so that you can get the big picture of how this Grand Deception really works.

And all the most important Love For Life insight work since early 2014 is stored here in these three threads (they are massive blogs) as material for the free Love For Life e-book full of illustrations called "Defining Magnificence Into Mediocrity And Calling It Magnificence" - the 1st edition/revision we plan to release by early November 2018.

***Note: Update On The Love For Life (LFL) Website: The old 2005 Drupal 5 database used to build and launch the 2006 Love For Life website has not been supported by Drupal since 2010/2011 - they've moved on to Drupal, 6, 7, 8. After constant engineered algorithm bot attacks that began around 2013/2014, the LFL website ended up with major security breaches early July 2018 and needed to be taken down as it was causing havoc to the shared server hosting the LFL website. Currently, a new Drupal 8.1.6 database is being set up for LFL and all the old LFL Drupal 5 data is being transferred to Drupal 7 and once its all been set up correctly and working properly there, etc, it will then be upgraded to Drupal 8 and the new 1st revision/update of the Love For Life website will be back on line around 17th-19th October 2018. The LFL website threads/web pages linked below have been made into pdfs and uploaded to Scribd dot com. A few Scribd links are provided below for those who want to look at these pdfs if the LFL website is still down and you can go here to see many other LFL threads going back to 2005:

Supporting Love For Life, Kindom And The Cristian Family

The Love For Life website can only continue with your support so, if you like what we do and would like to help get the website up and running faster, you are welcome to make a gift/donation by clicking on the Pay with Card linked below.

Send A Gift To Keep Love For Life On The Net

Pay with Card: <https://loveforlife.com.au/donation.php>

or via a

Postal Note

such as Western Union at a Local Post Office.

Go to a local post office to send a gift to Fiona Caroline Cristian in Bowral Australia and you will receive a code that you need to email (see below) or Facebook Private Message on Arthur's Facebook wall (see above) to Fiona so she can go to the post office to collect.

or via

OSKO

If you are in Australia, you can make a donation using Osko or PayID from any of the major banks using the email address: action@loveforlife.com.au

or EFT

ANZ Bank Account

Australian ANZ SWIFT BIC Code: ANZBAU3M

Account Name: Fiona Caroline Cristian

BSB (Branch Number): 012 547

Account Number): 5576 81376

and please write Gift because this is not a business/commercial arrangement
Fiona is not selling or buying anything.

All the Love For Life work we do is for free without a fee so any support is greatly appreciated.

Hi Danielle, 😊

Arthur here.

Firstly and on behalf of Fiona, she thanks you for getting all the repairs done and replacing the hot water system so quickly. Fiona and the kids are very grateful for this. What wasn't mentioned in the last email to you, a few ceiling light fittings around the house are no longer safe or are not working - either they are hanging loose from the ceilings (tried to secure them but the screws are not gripping into timber, etc) or there are fractures in the screw on cap/base that won't hold the ceiling light bulb in place - the bulbs will fall out.

To keep you and others up to speed with what's happening at Fiona's end financially and otherwise, the whole family is still very keen to move as soon as possible, as Fiona has been dreaming for, for many, many years now, taking the whole garden with her. Fiona needs to move on to plenty of land with vibrant, non-chlorinated water, that has shelter, storage and room for growing a large food forest garden, providing long term stability, security, certainty, etc, for this MAN'S family. The full-responsibility this undefined MAN (I, me, my, etc) carries to provide stability, security, certainty, safety, reliability, health, etc, for this MAN'S family is paramount ALWAYS and anyone who threatens this is already a criminal to be dealt with.

I don't see the fantasy of money or anything to do with fantasy ("The System") being above the living reality of any MAN, particularly a MAN'S full-responsibility to care for the family in peace and calm spaces where certainty, reliability, accountability, security, etc, is provided by the MAN without ever being threatened. My full responsibility is to maintain that standard while the family is moving too. Anything less than this, coming from others threatening the health, security, reliability, certainty, peace, calm, etc, of my family will be seen as a clear intention with motive to do harm to my family, to break the peace, and to shatter the full responsibilities this MAN carries. Faced with such malevolent intentions, I will act just like a very strong and healthy immune system when danger approaches.

Farmers "arrest" the sheriff who was attempting to evict a woman from her farm on behalf of an insurance company. Michigan, 1952.

In 1971, when this MAN was 14, with determination and passion this MAN created a living dream to fully comprehend the truth about life and fully experience it in this life. Life ever since shaped the experiences to meet the living (live in) dream this MAN holds and the complete big picture of the truth has come into fruition over the past 13 years, particularly since 2014.

The soon to be released smaller, 1st version of the free Love For Life e-book "**Defining Magnificence Into Mediocrity And Calling It Magnificence**" covers this big picture with a lot of detail. To this MAN, it has become very clear that displacing MAN from land and thus from the true nature of MAN'S living dream of life, ensures that MAN can never remember what the original dream of undefined MAN really is and from there, be unable to create the unique, undefined soul, the eternal living dream of MAN'S original

life that is MAN'S true nature, the paradise garden of peace and calm that really is the domain of God (undefined living creator) where children create their undefined souls too.

With alphabet voices inside their heads and now being lost and deeply confused, this current and ancient displacement of MAN from land all across earth under "The System" is purposeful and carries the determination to cause genocide to all of MAN because, if we don't create the undefined, living soul, in this life, we are gone forevermore. Being raised by nature with no MAN'S alphabet voice inside their heads defining reality to them, every MAN is already gifted with the free will and the know how to both create and expand the undefined soul, that is the paradise garden of MAN'S true nature, and to be the custodian, a tribal elder (not a leader - just a wisdom keeper) of this living paradise (live in the dream of paradise MAN naturally holds).

Paradise is a most simple, natural domain where children are safe and undisturbed, living (live in) the dream of MAN'S undefined life, set (into motion) amongst the tranquillity of absolute peace and calm to create their undefined, living soul too.

Across their recorded ages, and with overt slavery constantly failing due to massive losses of life on all sides, the men and women behind this despicable alphabet designed dream, "The System", invented the occults and evolved into occultists who dream to control all of MAN through covert means of life control and have used the fantasies of alphabets (definitions form the fantasies of perceived realities) to discombobulate and mesmerise MAN so that we never find our true way back to who we really are. Deep asleep in focused states of unconsciousness, because their alphabet voices, of their dreams (intentions), are inside our heads taking up the attention of all our waking life, we're being used and abused, raped, pillaged and plundered as robot drone slaves driven by alphabet software programs to carry out the agendas of these cunning slave masters.

In the blueprint of their cleverly designed Grand Plan Agenda, bearing the end times of earth-wide domination, their covert agenda teaches us to believe that fantasy is reality and to put all our life energy into fantasy and the result is a fabricated system full of men and women believing that everything they are doing through alphabets and everything around them created out of alphabets is reality when it is all fantasy. The result is never ending enmity between MAN and MAN and MAN'S true nature and this war between MAN only happens inside the fantasy dreams of alphabets where the active letters are twisted in the words to create encoded messages of their agenda in everything we say and read. While those highly initiated, the tiny few located in every

region of "The System" across earth can read this "Orwellian doublespeak/tripplespeak", the majority are oblivious, and the Bible and all other Holy books were created in this fashion.

It is ONLY the occultists voices of definitions inside MAN'S head that that will create an unconscious MAN and will cause an unconscious MAN to go to war against another MAN all the while believing they are doing the right thing, and its these drones who are fully responsible for displacing MAN from land (paradise). Heads spinning with "The System" trinkets, ornaments, melodramas, controversies, gossips, rules and regulations (belief, faith and associated opinion), and in the attempt to murder the undefined living soul of MAN'S true nature, leaving behind the fantasies of desolation, isolation, pure emptiness and nothingness, so that no living memory of MAN'S soul can be experienced by descendants and generations to come, and being oblivious to reality, these drones do ALL the dirty work of the occultists by destroying the paradise garden of MAN'S living dreams of life as carried out through all their recorded ages, hence this man-made descent into hell that is "The System" of soullessness until nothing of reality remains and MAN no longer exists. The chaos and destruction of hellish lives always follow wherever alphabets appear in MAN'S dreaming.

Using the curse (lies) being created and processed (set into motion) by the drones and all the occultists, the living dead, the unconscious who still believe fantasy (lies) is reality (truth), and who are determined to do harm to the living souls of this MAN'S family and kin domain, threatening the displacement of MAN from land, this MAN, instantly and powerfully, has no issue redirecting the curse of the drones back upon their vessels and the vessels of their loved ones, extended family, friends and all other beneficiaries and it comes without restrictions, conditions or respite IN THIS LIFE. This MAN has the power, the know-how and the will to force the drones to very quickly execute their vessels in this life and this MAN will do this because THERE IS NO SOUL THERE.

This is what a REAL MAN OF PEACE WILL DO - a defender of life, the living, the community immunity that keeps out chaos (lies), destruction (liars), offering ONLY DEATH (a world of fantasy) and have death directed into the natural domain (the peace and calm) of MAN'S living soul, the paradise garden of MAN'S true nature.

And for us, seeing how deeply compromised we were when we finally woke up from all the non-sense effects (alphabet spells - they teach you to spell to put you under their spells, their definitions/dreams) of the occultists over us, we also could clearly see/sense the way forward in using "The System" to get out of "The System" in this life,

with the clear intention of not passing on the baton of "The System" brainwashing in a relay with the generations to come, the end goal in this life for us being, the co-creation of Kindom (no man-made system defined by alphabets) , that is a very large food forest with hundreds of families spread out and living amongst this paradise with no family needing more than a hectare for their kin-domain, their living soul and all the best spots for everyone to enjoy and where no one "owns" anything anymore. To claim that you own something, anything, is to need "The System" to protect what you claim that you own, hence, the enmity between MAN and MAN. Kindom ends all this chaos and destruction IN THIS LIFE.

We also got to see/sense that we did not want our children to grow up in an "us" and "them" scenario, the enmity, and for them to embrace the wider communities still deep asleep all around us, and as our children grow, and because they have been all so deeply exposed to the Love For Life insights we share, they are all learning and practicing the essential smarts of using their brains all the while engaging in "The System" where their friends reside, and where their creative interests are, until they fully mature and can see/sense the big picture we share - they never forgot it. From there, they will also be inspired, like we still are, in completely breaking down "The System" of fantasy in this life. This is why Fiona and our children are so deeply loved and respected by many hundreds of the community throughout the Southern Highlands and its also why our boisterous, clean living children have great attitudes, do very well in their chosen interests with music, arts, sport, physical fitness, health, studies, etc, all of them being near the top or at the top as dux of their schools and leaders/prefects/etc of their aged groups and the school at large and its why all their employers love them so very much too and go out of their way to keep them around.

Also, and on Fiona's behalf, some of the circumstances explaining why Fiona has not moved yet were detailed in the series of emails sent to Linda Cairns from December 2017 until late last year, see documents,

a) starting from the oldest correspondence at the top and the latest at the bottom

<https://docdro.id/SqkeczB>

b) starting from the latest correspondence at the top and the oldest at the bottom

<https://docdro.id/GjwUSe0>

Below are some of the others to mention/re-mention.

Over the past 6 weeks or so, Fiona managed to pay off the final \$2,000.00 owing to a family friend, Frank, who lent Fiona \$4000.00 back in late October 2018 which went towards the \$14,000.00 Fiona spent on buying a second hand family car late last year + another \$900.00 or so for govt. charges, insurance and acquiring a 2nd hand tow bar (\$250.00) which is still to be installed by Mazda (all the electrical issues need to be done properly) and we are budgeting/setting-aside \$400.00 for the worst case scenario for this installation in the coming few weeks when we are getting a 10,000k service done personally by the 30+ years experienced Mazda service Manager at North Parramatta, Mazda's largest dealer in Australia, and so we are budgeting and setting aside another \$500.00 for these service costs. The service manager is going to go through the engine and other important things he feels he needs to look at to make sure the car is going to be reliable long-term.

From this service onwards, we will get the local Mazda dealer in Moss Vale to service the car, that's unless a friend and supporter, Ian, who manages and or owns Bowral Tyrepower with his father Dougal, who together have also been extremely supportive of us and our predicaments since 2006, has a mechanic who has the knowledge and experience to service this car.

After receiving a \$10,400.00 gift back in May 2018 from a German supporter, a stranger inspired by the Love For Life insights we share freely, and leaving this gift in stasis for around 6 months to be sure there were no complications, and as the two old family cars were no longer worth fixing (rebuilding engine, electrics, etc) and reregistering, and with our eldest daughter Jasmin, 20, working and saving in readiness for Uni this year, and helping her to find and buy an excellent, 2009 Toyota Rav4 so she was no longer driving one of the family cars, I then spent many, many weeks hunting for the right family car that will last Fiona and family at least 10 years and have the power to pull large trailers to move the household, etc, (hence the urgency to get the towbar done) to our next destination, ideally a permanent location. At this point, we will not be able to afford removalists and we do have a bunch of friends/supporters who will help with the move, this includes free use of large trailers.

On the 1st November 2018, I ended up finding a black 2010 Mazda CX9 with low ks on the clock and with 12 months full engine, etc, warranty (same car but not the one Fiona purchased <https://www.gumtree.com.au/s-ad/minchinbury/cars-vans-utes/2010-mazda-cx-9-tb10a3-my10-grand-touring-black-6-speed-sports-automatic-wagon/1203109470>) and after some extensive background digging, pushing, haggling, arguing, persuading, pleading, etc, with Mazda service staff, to get private background service info out of Mazda, they finally told us that a brand new transfer case and a brand new auto

transmission were installed late 2016 - these costs are well over \$10,000.00 and this was the exact circumstance I was looking for, for Fiona to buy a 2nd hand car that would last her at least 10 years or so. The engine appears to be in top notch shape and bar two very tiny almost unnoticeable dings, the whole car was immaculate both outside and inside. Most cars of this model and age are selling for \$18-22,000.00 through dealers.

Most other long-standing debts Fiona had have now been paid off. Fiona also paid the latest water bill of around \$400.00 - budgeted \$450.00 and took 3 months to save this money, and in advance, as usual, Fiona just sent you another \$920.00 for rent, 1st Feb to 14th Feb 2019. Fiona is only left with paying off some dental bills - around \$1000.00 for braces for our second daughter and Fiona needs to save up another almost \$2,000.00 urgently to start our third daughter, Frances, on braces, with the rest to be paid off over the years. Frances teeth are serious and should have been done 3 years ago. Since 2012/2013, we have only been able to afford to do one daughter at a time. Fortunately our youngest daughter Xanthe, won't need the major work that her three elder sisters required/require because she has had some preventative work done.

Over the past 7 years or so and with Fiona being a low income earner, she's already spent around \$14,000.00 on dental costs with Dr Lynette Wallace @ Planet Smiles in Bowral being very supportive of our family and Fiona's need to pay things off as she can. Lynette is aware of what we've been through. In fact, since 2006, there are many local business people and others in the wider community already aware of what my family has been through (Macquarie Bank, the law, etc, - its mostly listed here near the top: <http://loveforlife.com.au>), through connections with my daughters' interests with music, arts, sport, education, social events, etc. Many have been very helpful to our family, including Fiona's bosses.

For the two older daughters, Fiona got interest free loans from Stafford Cottage to start them off and she may look at this for Frances too shortly. There is also the renewal of the registration for the Mazda and most of the money has already been set aside to cover this obligation and the renewal of the Love For Life website host plan \$280.00 has recently been paid - it was overdue but the hosts in America are very supportive of us too.

Fiona also has a plethora of back-to-school expenses, etc, and has spent around \$300.00 so far but will need to pay school fees for Mittagong Public School and Bowral High School, probably around \$200.00. The latest gas bill has just arrived - \$232.58, already an improvement on the last bill now that the gas tank has been changed - so

the electricity bill will be here in a week or so, usually around \$350.00.

Also, the two old unregistered family cars, 1999 Subaru Outback Limited series and 1988 230TE Merc S/wagon sitting out on the street for months unregistered were finally collected 9 days ago by metal recyclers from Goulburn who gave Fiona \$280.00 cash and took away one of our two old fridges for free (since 2007, there have been 2 households stored here).

Fiona's Centrelink parenting payments have also dropped this year because we do not vaccinate our children and Fiona has been told that they will drop much further in the not too distant future unless we vaccinate our three youngest daughters. But we don't live in a fascist country, do we? This is a free country, isn't it?

The Love For Life website host in America, Pair.com, contacted us, 1st July 2018, to say that the 2005 Drupal 5 database used to build the 2006 Love For Life (LFL) website had to be immediately taken down, due to constant, severe, intense attacks by sophisticated algorithm bots. Pair tech support said that their servers could not cope with these onslaughts and were being crippled by these blatant attacks, and they have big, powerful and modern servers. It was like a plague of locusts constantly attacking their server.

With the LFL website being down since 2nd July 2018 (we managed to get a temporary webpage back up in December 2018 - the website was down for around 6 months) and with PayPal closing Fiona's 2005 account late July 2018 (we found out some weeks later), for no reason at all (Paypal even says that Fiona has not done anything wrong - they just closed the account because they can - see the **Fascism of Paypal** <https://docdro.id/M2CE1eN> and **Scribd Fascism**: <https://docdro.id/qYPZnTV> and **The Dictatorship Of Facebook**: <https://docdro.id/8qsr1WV> and **YouTube Community Flagged LFL Video As Being Hate Speech**: <https://docdro.id/6GoYAsG> and **Welcome To The Dictatorship Of Macquarie Bank In The Reign Of Bill Moss**: <https://docdro.id/8qsr1WV> and **Fiona Cristian Reply To State Debt Recovery Office Part One to Part Ten**: <https://docdro.id/RecpZZq>), all the tax free gifts (cash flow) coming in over the years to support us and the Love For Life insight and remedy work we do stopped, leading to Fiona running out of money between September and October 2018 and these gifts were used to cover the many other areas of commercial responsibilities Fiona carries. This issue contributed to our inability to save the money required to move from here. We have also had issues with Scribd not allowing others to view our documents over the net, problems with Photobucket for about a month, and with YouTube and Facebook, links provided above.

Around 5 weeks ago, we finally got the programming together (we had to pay \$150.00) for a Stripe Donation tab to replace the tab of the PayPal account that was shut down for no reason at all. This meant that we were unable to receive gifts from supporters. We are only just starting to get a few through Stripe now. This has seriously affected the family's cash flow as Fiona was unable to receive gifts from supporters over the past 5 to 6 months.

It has been the regular gifts (tax free) from a few close, consistent supporters and friends over the years that have kept us going and we have also received a lot of help with the garden and family obligations. Had we not received the \$10,400.00 gift, we would currently be without a car and, had we not had to buy a car, we would have been able to put that money towards moving but, without a car, Fiona cannot get to work.

It will cost us between \$5,000.00 and \$10,000.00 to move from here, including removing the garden and putting down a lawn, removing all structures, paying bond and double rent and any removal costs for items that we are unable to move ourselves, or at best hiring a small truck and a friend with a Bobcat and truck but, based on the timing, we are going on the worst case scenario of having to pay for the Bobcat which will bring up the cost. Fiona has not been willing to take out a loan from charities while she has been paying off our friend for the car.

We have given the Title Deed holders full disclosure as to what is going on, from our letter to them in December 2017 and in all our correspondence since. They are the ones who have been playing cat and mouse, not giving us full disclosure of what is going on which has left us in the dark. This is a situation that could have been solved from the outset, if they had been willing to get together with us and work out a solution.

Also, frankly, those at Highlands Property have been severely lacking in their duty of care towards Fiona as a client, especially in the light of the mantras on your website. As Fiona says, if she were the owners of Highlands Property and this situation arose, she would have been on the phone to arrange a meeting to work things out while networking. Then she would have had a property manager keeping an eye out for possible suitable situations for us and sending them our way, and she would have insisted to the Title Deed holders that they give her a rent free period so that she could get out of here more quickly, as she discussed with Natasha at the Tribunal.

It is interesting that both you and Natasha talked about the glut of rental properties on the market but not one has been sent our way, despite the fact that Fiona asked Linda

to let us know if there was anything suitable for us, someone that has what we need, is not daunted by Fiona's low income status and will accept and support the Kindom (DO NO HARM) dream of life we live for in this life. If there is nothing suitable on your books, how are we to find something suitable? Or is it just that all those at Highlands Property are hoping that we will go away and rent with another agency so that they don't have to deal with us anymore? It stinks.

Since November 2005, Fiona has paid the rent all these years to LIVE in this house, not to perch on the edge of her chair for thirteen years because she could be asked to move in 90 days AND she gave the Title Deed holders ample notice that she would need more than 90 days to move from here. This isn't living, but this is what happens when we live in a fantasy dream-world where the illusion of money is more important than MAN and this is why I pulled out of "The System" back in 2006 and why we have made things work without me being a money earner - well in a round a bout way, this MAN has been bringing in lots of gifts over the years due to the insights shared, and the free healing work, and then there's the organic garden feeding the family, and the excess of organic abundance going to the local community, here and there all year round, and as much as they need. For more on all this including seeing our older and latest garden photos, go here: <http://loveforlife.com.au>.

We are ethical people who give full disclosure about what we are doing and why, even when it is to our detriment. We don't drink, smoke or take drugs and the family always pays the bills. And yet we are scum. We don't get caught up in cults, sects, religions, societies, secret or not, think tanks, movements of any type, politics, we carry no guns, swords, bombs, shields, etc, and we see life is a gift on a do no harm path and yet we are seen and treated as scum. LOLLLL

We have nothing personal against you, Linda or anyone at Highlands Property because we realise that we are all compromised but when do we all look closely at the way we are living and at the harm we are causing both through our jobs and our daily lives and decide that enough is enough?

We want to move somewhere that is long-term stable where we will not be asked to move again in 6 months or a year, so that we can continue with our Love For Life and Kindom work and not experience the expenses and upheaval. We want to take everything with us so we can keep growing food and set an example to inspire others with, and we do not want to leave Roycroft St in a mess either. Fiona and the girls are already cleaning the cupboards, etc, but we have a lot of stuff to go through and it is not a quick job.

Getting the free ebook "**Defining Magnificence Into Mediocrity And Calling It Magnificence**" out there is vital because there are people out there who are willing to gift resources to bring forward a piece of unencumbered land, or even purchasing this house in the interim so that we can move when we are ready. The free ebook will save everyone from having to wade through all the Love For Life insight work to get the big picture of where we are coming from and heading, the Kindom remedy, and give a very clear insight into what is really going on and why we have all ended up being less important than money, scum to be used and abused by those at the top (so they think - this MAN no longer performs like that).

In the meantime and if you are up for it, I've been posting some powerful insights on the 6 x Facebook walls we use. See:

The Cyborg Jukebox 1st January 2019: <https://docdro.id/PV5lgwv>

Arthur also recorded a song, a rough demo, see:

Sanitised FB Chat About Law And Land 29th December 2018:

<https://docdro.id/Ndad68i>

We are currently just so pulled in every direction by all the responsibilities we have taken on that things move slowly but we are getting together a shortened version of the free e-book to send to you as soon as it is done, over the next few days and it will be posted on the Love For Life website's temporary homepage <http://loveforlife.com.au> (this temporary home page is currently being updated through many stages with lots of housekeeping still to do) and sent out through the social media networks, mailing list and being active out on the streets. There have been so many other shenanigans going on that we have had to deal with from around the time of the Termination Notice.

You and Natasha were both saying to Fiona that I should get a job but, what you have to realise is that we all come at life from different angles and there is no one-size-fits-all. The way I have chosen to live is not the way most people currently choose to live

but I had a few very profound and most deep life experiences that turned around the way I looked at life and the way we are all living, jostling each other aside to make a grab for whatever we can get and not worrying about our brothers and sisters who have not got what we have. "The System" is built on MAN using and abusing another MAN, the enmity.

Once in 1979 and 4 times between January 2006 and May 2006 and in a timeless space of absolute peace and calm, I was physically visited twice by "God" that I call living creator, and I experienced an Aboriginal man, a living MAN on the land still alive today (so to speak), moving his whole physical body in front of me (probably from a long distance) so that he appeared seemingly out of nowhere, and the physical form of a spirit MAN, a Native American Chief, both of whom appeared separately and then together and then moving apart to reveal unnumbered lights of souls (physical encounters beyond numbers) who burst into a magnificent song of celebration. None of them told me what to think or feel or how to act (what to do) but the physical sensations I experienced through the senses (touch, taste, feel, smell, hear, see) from all of them got me using the brain and set this MAN on the path of unravelling "The System" by uncovering why we are all living the way we are and why there is so much suffering and hardship all across earth when there ALWAYS is more than enough land (1 hectare for each family is more than enough) for everyone to have space to take care of their families and grow food with permanent access to shelter and clean air and water, the basic FREE tenets of life, the real paradise of our dreaming.

In case something does happen to this MAN'S vessel, and to counter slander, malevolent inspired stigma and character assassinations, etc, I recorded these videos so others can hear the truth directly from the tongue of this MAN:

Defining Magnificence Into Mediocrity And Calling It Magnificence

Part 1: <https://youtu.be/FMvHbHypRc8>

Part 2: <https://youtu.be/QvBPahPsjV0>

Part 3: still to be uploaded to YouTube but it can be viewed from here:

<https://www.facebook.com/arthurcristian/videos/1475329656/10217120613795548>

Most people are not happy, even though they may think they are. Beneath the front of happiness is usually deep stress from having to keep the money coming in to pay the bills and keep food on the table and this is a major, if not the biggest cause, of all the sickness and disease all across earth, along with the over 101,000+ toxins and poisons swirling around in our water, air, soil, food and drinks. The e-book reveals both how and why we have arrived at this dismal state, as well as offering the remedy to our problems.

Our challenges are genuine, Danielle. The garden is currently full of food that we are eating and we need to keep eating from it while we establish another garden elsewhere. We have never set out to be difficult but it has been like banging our heads on a brick wall - no one is listening or looking for solutions. Money is far more important than us and we are being treated like disposable packaging thrown in the bin after it's no longer required.

Anyway, as always, we will maintain our responsibilities - Fiona will continue paying the rent in advance, etc, and we will move on from here as soon as possible, in a calm and peaceful manner.

All the best

Arthur Cristian.

To: action@loveforlife.com.au action@loveforlife.com.au

Good afternoon Fiona,

In accordance with the attached notice, being the notice of order as agreed and consented by you at the tribunal hearing, we have received formal instructions from your landlord to obtain a warrant for vacant possession.

We expect to receive a copy of this warrant next week and once this is received it will be provided to the Sherriff's office.

It is our recommendation that you seek alternate accommodation immediately.

Regards Danielle

Danielle Spence

Hi Danielle,
Arthur here

Money is options and Fiona doesn't yet have the options available to move. It will come - the fruit does ripen.

As it stands for Fiona, if Sheriffs turn up over the coming week or so, and bar the basics of clothing, pets and toiletries etc, more than 97% of everything of the family's two households, stacked double garage and a garden full of organic food and 30-40 or so ton of soil, two stacked sheds, a hothouse full of steel and shelving, many tons of blue metal both inside the hothouse and along the east and west fence lines used to protect the fences from rotting along with huge amounts of 200um plastic, fencing wire and lots of supporting free standing timber to take the weight, a few hundred tyres in all the old garden beds down the west side of the property, 6 x long free standing garden boxes along the west side of the house with each one with blue metal at the bottom and all full of soil and food, and probably weighing around 1 ton each, many tons of woodchip and degraded woodchip to be lifted off the back and side yards so a lawn can be put down, many tons of soil, compost, woodchip, sand and straw bales in the storage bays along the west side of the back fence, tons of large and small rocks, hundreds of tomato stakes, a large arbour with two long hardwood boxes with containers inside, a paved area under the arbour, lattice along most fences to be removed and a vast collection of plants will be left behind in this house, unpacked and all. This includes a roof stacked full of things too (all is good - no damage done there

either).

Bar the car, this is all Fiona and the kids have to live, their livelihood, there are no savings or funds of any type.

Fiona has no means to cover the costs of a temporary move and then another move shortly thereafter to a permanent location - all the collective incidentals are beyond our current ability to fund.

So, unless this MAN does something to stop you all here and now, this MAN can already see/sense a lot of damage being done to this living MAN'S family by drones operating under limited liabilities, capacities and responsibilities. You and others can come up with all the one shoe fits all possibilities of what our earthly family could and couldn't do scenarios over the past few months or so but every MAN is different and we each don't live inside a one shoe fits all model without intention to do harm to anyone, and Fiona has dealt with her circumstances as best she could. And so now this living MAN comes to her rescue as the MAN OF PEACE and to the rescue of all men, women and children across earth being harmed by undisclosed fantasy permitting liars and deceivers to rape, pillage and plunder their vessels and their fruits of labour.

This MAN is not in or of your law, commercial and all, and there is nothing there in or of your world to commercially subjugate this MAN or commercially compel this MAN to perform or to commercially arrest the vessel and commercially remove the MAN from the land, intellectual property and all.

In and of your commercial rule of law, this living MAN is nowhere to be found all across this Earth to do commercial business with because this MAN does not engage in commercial contracts where commerce flows from a registered person to all other registered fictional entities performing in commerce.

This means that this MAN is completely invisible amongst your alphabets, words, definitions, filings, paperwork, documents, books, deeds, titles, parishes, rulings, bills, statutes, etc, etc, because there is no person there or anywhere to seek, call out to and engage with and no illumination of a MAN in bondage with a person found amongst your law, paper work, filings and all.

This MAN has been living on this land for at least 4,745 of your sunrises and sunsets, has created a magnificent garden to sustain the MAN and the MAN'S family, and as no

other living MAN has lived on this land for at least 4,745 of your sunrises and sunsets, this MAN is the only living MAN on this land who has created a living domain where the living undefined soul of this MAN, THE SON OF GOD exists on this land, AS THIS LAND. This is the incontrovertible proof of being the higher power, the SON OF GOD, that is naturally placed well above all commercial entities, rules of law/statutes, titles, standings, etc. Basically, the rule of law has no power over all the land and waters of this undefined, living MAN'S soul, encompassing the son of gods earthly paradise and all the celestial bodies and spaces MAN senses.

This living MAN is not a subject in or of your law and will never be found anywhere amongst it, MEANING, THIS MAN, THE SON OF GOD, IS THE EMBODIMENT OF GOD, THE SUPREME POWER OF REALITY OVER ALL OF YOU bound to the person of commerce, to fantasy.

All the representative persons of your firm operate in and of commerce, as do all the courts, sheriffs, police, military, local, state and federal governments, corporations, institutions, agencies, etc, etc, and there is no commercial business that any person has with this living MAN.

The intellectual property of 11 Roycroft St is NOT the land of this MAN'S living soul and, through fantasy, appears ONLY on scribbles, marks and stamps on paper and encoded digital hard drives filed not on the land of this MAN'S living soul. 11 Roycroft Street has no living soul to commune directly with MAN'S senses because there is no living MAN there. 11 Roycroft Street is pure fantasy as is East Bowral, Bowral, 2576, NSW, Australia, etc,, etc.

Under the protection of this MAN of Peace, the Son of God, this MAN'S living soul has already restored peace for every man, womban and child across Earth and anyone who now breaks this peace or who benefits from breaking this peace is already processing a curse of their own making and have agreed to be without a living soul forevermore and the presence of their present earthly life is being removed quickly. My Father, does not grant you the power of life anymore. God has spoken.

It is best for you, the fantorgasmic representative of the person performing in commerce with your firm, and all other fantorgasmic persons who have a commercial interest with 11 Roycroft Street and the parish lands where 11 Roycroft Street is claimed to be performing in commerce, go to the highest level representatives and administrators of this intellectual property - perhaps the Attorney General's Offices will be able to help you find these divinely appointed administrators so that you can take up

commercial matters with them, including commercial redemption for the "Title Deed Holders". You may also consider visiting the Ambassadors, Archbishops and Bishops of the parish lands to direct them to instruct the commercial corporate Crown to commercially compensate the Title Deed holders who are commercially bonded with them through certificates, trusts, foundations and other secret or not commercial utilities and entities used to conduct clandestine business streams, including but not limited to the commercial corporation of the Crown that does business with those corporate vessels doing commercial business internationally, with or without the umbrella of the Uniform Commercial Code, The City Of London, The Australian Capital Territory, Papal City, District Of Columbia and other international commercial entities to be found amongst their armada of commercial armoury, administration, services and utilities.

As your commercial world is rooted in manorialism, you can also go to the lord of the manor who has an interest in all commercial matters on the parish lands of the region where your person, the persons of your firm, the persons of the Title Deed holders, the persons of the NSW State Government and the Commonwealth of Australia and all the persons under the Crown and all other persons maintaining international commercial interest with all other persons who oversee all commercial business matters across earth, because none of them have anything to do with the undefined land and waters and spaces of this MAN'S undefined living soul.

Again, this MAN is already the higher power of this undefined land and this MAN is a MAN of peace. See this MAN as the embodiment of God as the son of God and the proof of this is in the insights found throughout all this MAN'S work. This MAN is here to straighten what's been made crooked across aeons of treachery, deceit, collusion, corruption and immense harm, destruction, death and genocide upon the innocent.

All this MAN'S earthly family is already under this MAN'S protection and care and your fantorgasmic world of drones are unable to touch them because the moment you action your intentions to harm this MAN and this MAN'S earthly family is already the curse spreading amongst the living seeking to do harm and benefit from this harm. Go in peace.

You will receive another email or two shortly.

Furthering on with what was determined and clarified yesterday and the fact that you really need to know and fully comprehend and sense what you are all engaging with here, with this MAN, and to work out why you are all totally screwed (between the

ears), the psychosis is with all of you and NOT with this MAN, and can do NOTHING real about it to make whole with what was made broken by all of you in attempting to come after this MAN, and this MAN'S family, without also doing immense earth-wide harm to the living, the curse that spreads to destroy you, your loved ones, family, associates and beneficiaries quickly in this life. This is NOT a joke. It is best you all really wake up before IT IS TOO LATE. This email is to assist you in working everything out and there is a happy ending for everyone if you and us all work together quickly to do the "right thing" from the good heart and not remain stuck applying predetermined bullshit rules to fit everything and everyone inside predetermined boxes that form your jobs, careers, social life and allegiance to "The System", the beast. And it is best that you do pass this email on to the Title Deed holders because none of you can ever say down the line that you did not realise what you were all getting into with this MAN. Ignorance is not an excuse. In law, God means authority and Son of God is the MAN, the living authority sharing the authority with all of MAN too, as in co-creation and co-creator = all men are equal, no MAN is master of another MAN, (so to speak).

God/Authority = MAN, (not a hue-MAN), also means full responsibility for everything we (MAN) think feel and do.

Son is sun as in the offspring of MAN'S creation as God, creating the vessel for the life (undefined soul) to share the full responsibility and authority with (all of) MAN, the living (live in the dream of) creator of MANS creation/co-creation = all of MAN.

These definitions have NOTHING to do with consciousness, spirituality, etc and nothing to do with some type of defined storytelling superstar jesus, messiah, etc.

The Christ is MAN, the sun of God, the natural instrument (not legalese) of the living creator of MAN'S undefined soul that is MAN'S true nature/earth/etc, the land/earth/nature where the MAN on the land stands and lives as that MAN'S creation.

All definitions form the fantasies of perceived realities. For example.....

We don't need "Trumps Wall", we only need to free MAN by giving back the unencumbered land to every family, or MAN, all across earth, one hectare (2.4 acres) for a kin domain, is more than enough for each family/MAN, and all the good bits, no matter what, is for EVERYONE to enjoy, and let each MAN be the authority, the instrument, and the full responsibility to work together to co-create food forests again (the natural FREE tenets of free water, food, air, shelter on land gifted to all of MAN, our natural inheritance and legacy) to bring back the natural paradise our ancestors and all of us supported in destroying all across earth.

To end all the horrors including brainwashing distractions, etc, we must all work together to STOP the ancient and horrific displacement of MAN on the land, the soullessness, where most of MAN have been unable to create their undefined living souls, the true nature (land) of undefined MAN standing on land, the natural domain that no one "owns" and where the tranquillity of absolute, peace, calm, etc, reigns supreme forevermore.

The ONLY real problem is the displacement of MAN on land and "The System", commerce, rule of law, and all that maintains this displacement, and continues supporting the ongoing revolution, including social engineering and defined, Frankenstein genders, of furthering on this displacement of MAN on the land which is what Trump fully supports and all those who sold out to this agenda from long ago.

With MAN free on land amongst the paradise of full tranquillity MAN will naturally reconnect with the senses (touch taste feel smell hear see) as it is our true undefined tongue, the spirit through the water of our breath where we can sense another MAN'S intention, dreams of life etc.

With each breath out we are naturally encoding our intentions, thoughts, feelings, dreams, etc, into every breath and we (MAN) can sense you and communicate with each other normally through our breath, anywhere across undefined creation, far far far far far far.... beyond time and space constructs.

All of nature communicates like this naturally and it's all undefined.

One sniff of a dog sniffing your butt contains such vast information about the reality of your real life and its connection with MAN, earth, nature, water, etc. All the books and libraries in "existence" across earth cannot contain the information coming from just one butt sniff of a dog.

We all need to reconnect with the magnificent BIG PICTURE of MAN'S living (live in the) dream of MAN'S undefined life so that we never lose our way again and be completely confused and lost amongst zillions of shattered pieces of defined reality, "The System" with its bullshit a, b, c, 1, 2, 3, etc..... and return to BEING (be in the dream of) the living SONS OF GOD, THE CHRIST, who we were all meant to be. :)

In doing the above, and due to the expansion of our undefined consciousness, we will also naturally stop doing harm to nature and recycle everything that is doing harm and has done harm until it's all dissolved by nature, microbes and all, and the memory of all these lies, words and all, is forgotten forevermore too. :) <3

Santa Claus

Link: <https://docdro.id/MzWG4zL> or
<https://www.facebook.com/arthurcristian/posts/10218188508332244>

Everything of "The System IS predetermined, self-fulfilling and prophecy is just that.

The Freemasons/high-level-occultists lay out pathways for all of MAN appearing in the womb to dream the definitions already predetermined for them as they traverse these self-fulfilling pathways, the alphabets and every word/meaning derived from them, including all sentences, paragraphs, chapters, acts, books, scrolls, papyri, phrases, sayings, etc, etc, all being predetermined, and MAN sets these defined, predetermined dreams into motion, in present sense.

Thoughts are dreams and dreams are thoughts and all alphabet thoughts are definitions forming the fantasies of MAN'S perceived realities.

All experience (thoughts, dreams, ideas, stories, etc) is ONLY to MAN because we are the only ones here to experience what MAN creates/experiences.

Bring forward an experience without MAN being a party to that experience.

You see, NO ONE CAN.

ALL EXPERIENCE IS ALWAYS TO MAN.

WE ARE THE ONLY ONES HERE.

When MAN is contemplating on the outer constellations of Galaxy 4587CtXyz, It is only MAN there and no one else.

When MAN is thinking of heaven and hell and God and Jesus, after life, past life, future life, reincarnation, etc, it is ONLY MAN THERE and no one else.

When MAN is believing in reptilian shapeshifters, greys, UFO'S, virgins from andromeda, channelled entities, higher beings, other dimensions, levels and planes of existence, etc, etc, it is only MAN there and no one else.

When MAN is talking a, b, c, 1, 2, 3, etc, it is only MAN there and no one else.

When MAN is acting with/as Santa Claus, Easter Bunny, Tooth Fairy, Supreme Court, Macquarie Bank, Church of England, the Jesuits, the Roman Catholic Church, the Koran, Bhagavad Gitas, Holy Bible, Talmud, Torah, money, commerce, insurance, statutes, common law, magna carta, Fox News, Internet, telephone, mobile phone, computer, iPod, iPhone, xyz nightclubs, sporting arenas, fashion isles, auditoriums,

TV, shopping centres, supermarkets, motorised transport driving along named and numbered roads, streets, highways, lane-ways, avenues, crescents, etc, through suburbs, towns, villages, regions, cities, countries, nations, principalities, territories, states, etc, amongst Greeks, Italians, Aussies, Americans, Poms, Yanks, Kiwis, etc, and mixing amongst atheists, gendered whatever, Christians, Jews, Muslims, New Agers, Occultists, etc, etc, talking about esoterics, occults, prophecies, history, government, politics, labour, liberal, democrats, republicans, patriotism, sovereignty, freedom, truth, peace, joy, abundance, 9/11, end times, Bali Bombings, Port Arthur Massacre, Waco, Jonestown Massacre, Harry Potter, Star Wars, The Godfather, Star Trek, Ken and Barbie, chemtrails, haarp, vaccination, msg, aspartame, EMF, mercury, microwaves, free energy, solar power, revolution, taxation, fractional reserve banking, federal reserve, promissory notes, user pays, new world order/NWO, one world government, recession, depression, inflation, civil war, social unrest, psychiatry, counselling, war, Palestine, Is-ra-el, McDonalds, KFC, Walmart, IBM, Military Industrial Complex, White House, House Of Lords, Parliament, Westminster Abbey, Blue Mountains, Grand Canyon, Pacific Ocean, Flat Earth, permaculture, eco/intentional/sustainable communities/lifestyles, alternative this or that, health, nutrition, big pharma, education, university, day care, preschool, bitch this, bastard that, he's a nice guy, sitting at a coffee shop, beach, view, rainforest, time, clock, calendar, day, month, year, hour, second, pm, am, etc, etc, etc, etc.....

it is only MAN there and no one else ----->

and every experience was predetermined by MAN and is being fully experienced by MAN - all of it being self-fulfilling.

The occultists (MAN) are skilled in the craft and practice of establishing definitions and getting MAN to put their life energy into them, predetermining them and fulfilling the experience of these definitions (prophecies).

We are the only ones there before, during and after the experience. We assume that most of us wake up to the fact that Santa Claus is a fantasy, that it is just a MAN acting as Santa Claus fulfilling the prophecy of Santa Claus that has been predetermined for those who believed in it. We get so used to performing MAN-made stories that we think they are real but, in the end, it is all black magic because they are no different to the fantasy of Santa Claus.

As an analogy, a child can be sitting on the lap of the father in 35BC who is holding a story book called The Old Testament set to a calendar and the father is telling the prophetic stories to the child about the end times to come. The child grows up and

does the same to its child who grows up and does the same to its child..... This repeats through many generations until we arrive at the time of the calendar where the end times is to be played out.

But there was only MAN there through the whole experience of the prophecy creating it all and it is all set to the fantasy of time, calendars, alphabets, mathematics, etc, etc, but none of it exists, just as Santa Claus doesn't exist. The past doesn't exist and neither does the future because all that exists is MAN in present sense breathing the experience of the dreams MAN has created. With every generation being told they are in 35BC, now, 20AD, 60AD, 180AD, 300AD, 500AD, 800AD, 1850AD, 1920AD, 1985AD, 2019AD, they are all lost in the fantasy of time, passing on the predetermined act of the self-fulfilling fantasy.

And who are the only ones there creating it all... MAN to MAN to MAN to MAN..... ALWAYS IN PRESENT-SENSE.

The end times was created by MAN because too many of MAN were deceived by occultists into creating it, the predetermined fairytale ending of the end times.

The only thing of reality throughout the whole production of the end times from 35BC to 2019AD was MAN IN PRESENT-SENSE - all else is/was pure fantasy.

The past and the future were predetermined by MAN in present sense to affect MAN in present sense. If we are conscious of what is really going on, we can sense that all experience is to MAN and that fantasy is also an experience for any MAN in present sense to get lost in. There has never been a past or future for any MAN - just present sense, present sense, present sense, present sense.

While in present sense ALWAYS, many of MAN get caught up in the present sense experience of Santa Claus as MAN does in the experience of present sense of prophecy. It is so easy to put pictures of definitions in someone's head and enchant them with these fantasy images so that they become mesmerised and discombobulated, caught up in being the experience, not realising that it is all fantasy.

You can be in the audience watching a story being played out and there can be an audience of thousands and, no matter how much everyone stands and applauds at the end of the performance, the story is still fantasy and was never real. This is how self-fulfilling prophecies work.

The craft, the cunning and the guile of the occultists (MAN) to manipulate MAN through predetermination is brilliant.

We get so caught up with the window dressing of the fantasy of prophecy that we are actually creating what we are experiencing in present sense, affecting everyone in present sense, and we are oblivious in present sense because we really believe that the story of the past (predetermination) is true and the story of the future (predetermination) is true.

We get swept up by it and go along with it, always in present sense, and this will continue until MAN wakes up and realises that it was all a fantasy, in present sense.

The past and the future need us (MAN) to exist here and now in present sense to experience them and if we do not exist here and now in present sense, no experience of the past or the future can be thought or felt.

If everyone gets caught up in the story that the occultists have created and have accepted the power, the force, the authority and all the characters that bear that power, force and authority, then we are all setting "The System" of this story into motion in present sense and yet nothing of "The System" is real. It is pure fantasy.

This is how the rule of law works, with deeply brainwashed drones acting out the predetermination of the law in states of pure fantasy because they are on stage in the middle of the predetermined act of fulfilling the fantasy that is all around them. They don't see/sense the reality of the living around them in present sense - the men, the women, the children, the mountains, the valleys, the forests, the streams, the animals, etc, because they have turned them all into the fictitious characters in their predetermined stories of definitions of fantasy, all of it staged on the stages of "The System" where they perform their characters as lawyers, barristers, judges, Real Estate Agents, politicians, priests, educators, scientists, journalists, etc, etc.

ALL THE TIME WE ARE LOST IN DEEP STATES OF FANTASY WE ARE THE ONLY ONES HERE DOING HARM TO ANOTHER MAN AND MAN'S TRUE NATURE.

Arthur Cristian

31st January 2019 - Is My Family Life In Australia Any Different To The Palestinian Dilemma? Fiona Cristian Whose Family Is Being Threatened With Being Thrown On The Streets Anytime From The 1st February 2019. This is a copy of the email I sent today to the Real Estate Agents, Highlands Property, to everyone working there with email addresses listed in their website: <https://highlandsproperty.com.au> and it was also sent to the Love For Life mailing list, to many hundreds of bcc email addresses and to numerous locals residing in the Southern Highlands of NSW.":

<https://www.facebook.com/arthurcristian/posts/10218163930157805>

Email correspondence with the Real Estate agents..... from December 2017 until this matter is completely resolved, a) starting from the oldest correspondence at the top and the latest at the bottom <https://docdro.id/SqkeczB> b) starting from the latest correspondence at the top and the oldest at the bottom <https://docdro.id/GjwUSe0>.

The above IS spreading across the internet

Arthur

Sent to the Love For Life Mailing List 18th March 2019

Innocence Lost: <https://youtu.be/3T3WWwWCa2c>

Finished and uploaded this song when we had already started packing up the house, studio and garden.

JukeBox Joe: <https://youtu.be/QMxfYNP7uhg>

Other Love For Life songs can be found here:

<https://www.youtube.com/user/ArthurLoveForLife/videos>

The clean up of the garden is just about complete and we still have nowhere to live. We had a bed to rest at a friends place until the 27th February and since then we have been crashing on the concrete garage floor of the 13 year rental property (locked out of the house) with no toilet, kitchen, shower, etc (we drive into town 6/7 minutes away to get to a public toilet and occasionally someone nearby offers us use of their hot shower). We were supposed to be out of the garage more than 2 weeks ago but until the rain stops and the land dries up (it's been raining for 5 days now and getting heavier) the bobcat can't finish off the raking job and we can't install the east side gate and fence and lay the lawn. Until everything is completed with the mop up phase, we won't know what money we will have left to spend on moving us from the garage.

See photos here:

https://www.facebook.com/arthurcristian/media_set?set=a.10218357768843651&type=3

or here:

<http://s994.photobucket.com/user/ILoveCasperTheGhost/library/Love%20For%20Life%20Garden/Dismantling%20Garden%2014th%20Feb%20to%207th%20March%202019>

Into the two links above will be uploaded shortly the last of the moving and temporary relocation of the garden photos.

To move into a temporary 6 months rental in the region to accommodate 8 of us, we will need 4 weeks bond and two weeks rent paid up front (looking around \$3.6k) + removalist costs. We can get emergency housing but it means the dogs and cat must go into the RSPCA and be separated from each other and Fiona, the kids and the rest of us are split up and sent at least 55 minutes away from the kids schools, and from the kids, Fiona's and Hanna's current work places, social life, etc, down to Shellharbour and the Wollongong region. We are not into splitting up this family/group, EVER.

Because we have two dogs and a cat we can't find temporary accommodation in Caravan Parks, Motels, etc, and renting short term holiday rentals, B&B, etc, is just too expensive and the dogs and cat remain a huge prohibitive issue. We can get financial support (interest free loans) to get a temporary 6 months rental property from organisations like Anglicare, which we might have to look at, but we are still very keen on staying on purpose with finding land in the area with a shed (or house) and work on buying a caravan, motor home, etc, through finance and get on with creating a massive food forest to live with it forevermore.

The average rent for something decent is \$550.00 to \$700.00 per week and we won't be able to save any money if we go back to paying rent. As Fiona is a low income earner she won't be approved for any rental property by herself and will need someone else on the lease to share a house with our family and Hannah & Adrian.

The three eldest daughters have found temporary accommodation but this generosity is running out. 12 year old Xanthe, our youngest and 4th daughter, has also been crashing in the garage since 27th February because her temporary accommodation ran out then. Hannah still has somewhere to stay for another week or so and Adrian, Fiona, Arthur & Xanthe are crashing in the garage and in tents pegged down the side of the garage (see photos).

Adrian from Washington State flew over to help us and over a 4 week+ period (Adrian is still here, almost 6 weeks later) and with Adon coming down from Mudgee (he stayed for almost 4 weeks), Patrick from Sydney (he came and went around 6 times),

Frank who lives nearby (he came and went around 8 times and often lent us his long trailer), and Bruno who came down from Sydney for a day and, with Patrick, gifted money, they all put in 12 to 16 hour days of unpaid slave labour. A few other locals helped for a few hours here and there with packing, washing clothes, dismantling sheds and hothouse, etc. Lee Judd, a local carpenter turned up twice with two other carpenters, who Lee paid, to help with two x 3 hour manpower shifts.

On numerous occasions, a few hours here and there, Michael from the 7th Day Adventist group has been helping us with the move too.

Peter Baker, founder of **Peppercorn Creek Farm** (part of the 12 Tribes Communities) <http://www.peppercorncreekfarm.org.au> came 4 times with his large tipper truck to help us move timber, plants, etc, to the nearby community garden and to dump stuff at the tip. Each time he came, Peter also brought over heaps of organic energy bars and drinks <http://www.peppercorncreekfarm.org.au/energizing-green.html> and super healthy "Common Ground" bread <https://commongroundbakery.com.au> made by his Christian Community, "The 12 Tribes" in Picton, NSW.

Lee also lent us his large box trailer, wheelbarrow and trolley for 3 weeks and Fiona borrowed a big walled in and roofed trailer from her work; we had 3 trailers, four wheelbarrows and two trolleys.

We got all the support we needed to pack and relocate household, workshop, studio and garden stuff into three outdoor shipping containers and some indoor storage crates, running many trips to the tip, and help with the digging up and removal of the 170 tonnes or so of humus/soil, the moving, stripping and storing of timber, garden things, bricks, pavers, etc, and the help with both transplanting around 400 plants, the vast majority of which were transplanted single-handedly by Adrian, and relocating them all to the local community garden within the 5 acre property of the 7th Day Adventists, a few minutes away.

This was at least a \$45,000.00 job which Arthur managed to get done for under six thousand, including paying Chris and Ross for their bobcats and trucks but not including the \$2,250.00 purchase and delivery of the 450 square meters of Kikuyu lawn which is coming out of Fiona's bond money, \$1,160.00, with the "owner" paying the difference, because he didn't want us to seed a lawn. Josh, a local, gifted his labour, 8 tonne truck and excavator to move 80 tonnes of soil, 50 tonnes to a local woman's property and 30 tonnes of the best of our humus and soil to the nearby community garden (Ross had already moved 20 ton of the best humus to the local community garden). A local plumber, Andrew came with his bobcat and 8 tonne tipper truck and took away for free, the last of the 48 tonnes of soil/humus for his nearby 1 acre property and he helped to dig out the 2.5 meter Bunya Pine which we gifted to a local and to clean up the front yard.

We purchased two 20 foot shipping containers (Frank lent us \$4,500.00) and we were given the use of a 40 foot shipping container and a few storage crates, all located where Fiona works in the office of Mittagong Warehousing & Storage @ Braemar. The two brothers and owners of this business have been extremely supportive of our family needs. If required, we have use of one of their hot showers and toilet located in one of the large storage sheds. Our fridge is located in another shed next to the offices where we are storing and freezing food while we are roughing it out on the streets (so to speak) using our \$250.00 120 litre Arctic Pro Esky purchased from Bunnings last week.

We made 4 garden videos between 2013 and 2016 called "**From Bare Dirt To Abundance**" and the next and last video of this garden will be called "**From Abundance To Bare Dirt**" showing that there is no difference between what has happened here and what's been happening in Palestine, the Amazon and so many other locations across Earth, including all the land displacement caused by Wars, Corporate/Big-Business takeovers, etc.

Six sheriffs came on Thursday, 14th February 2019. Arthur decided to back off from his stance as too many innocent people on all sides would be severely affected by his stance. He came to see that this was not the right-time battle. By the responses we were getting, and over time as this stance played out, we could have had 300 to 400 people here supporting Arthur with his stance.

The "owner", Barry, has been coming down to paint the house as he says that he hasn't got the money to pay someone to do it. Arthur has been talking to him and it is becoming obvious from their conversations that the "owners" are planning to rent the house out again, despite their stories of financial hardship and having to sell both houses urgently before the end of June 2019. Arthur asked him why he didn't sell the bigger, four bedroom house next door when it was vacated in August 2018, which would have sold for around \$900,000.00. He couldn't answer that one.

When Barry and Arthur were looking at the fences that Arthur and Adrian have repaired, the owner said that he was going to replace the fence in a couple of years, clearly showing that he is intending to rent the property again, as he did with the house next door which is on a six month lease that is ending this month. We have been chatting with the new tenants next door and they show no signs of having to move shortly, which they would have to do if both properties had to be sold.

We already offered them \$500.00 per week (we were paying \$460.00) and the most they will probably get now is \$550.00 for this 18/19 year old 3 bedroom house, after spending money on new carpets throughout, improving the kitchen, bathrooms and laundry, painting the whole house and having this period since the 14th February 2019 with no rent coming in. They also had to spend money getting the locks changed.

Arthur also told him that we wrote a letter to him via the Real Estate Agent in December 2017 saying that we would need a longer period of time to move on from here but it seems that he never read it, or didn't know anything about it. Arthur said to him that, if he had given us 12 months notice back then, none of the problems he is facing now would have occurred and we would have been able to plan our move from here peacefully.

Twice Barry has said that he takes his hat off to us for the work we are doing in getting the property back to how it was before we moved in, as promised. Arthur asked him what made him think that we wouldn't. He didn't answer that one but looked very uncomfortable and we are left wondering who it was who put all these stories about us in his head, doubt and all, thinking that we were going to leave the massive clean-up job to him. Arthur also told him that, although Arthur has wealth all around him, we do not pursue these courses because we do not want all the misery that comes with the money. Arthur has not even told his mother what has been going on all these years since Macquarie Bank. The misery with money comment perturbed Barry. We also wonder if Barry (and or his wife Gabrielle) were blackmailed.

It seems that the two property managers, Danielle Spence and Linda Cairns, have been lied to and probably manipulated and controlled by their boss, Geoff O'Reilly, Director of Highlands Property. Maybe others have also been involved in this scam because it seems clear that this whole fiasco was about getting us out of here (the region) and not about urgent sales due to financial difficulties. It is clear that the Love For Life insight work we do and the Kindom (massive food forest) remedy are not wanted and those with "end-time-agendas" are trying to break us down through deceit and economic measures, performed at arms reach.

After the procedures of making sure we were removed from the house, it became apparent that the 6 sheriffs were wondering what they were doing here. In no specific order and in front of Linda, Danielle, Geoff, Adon, Adrian, Patrick and others, Arthur had pointed out to them that we recognise the dirty job Sheriffs have to do in dealing with lots of scum out there but how do you deal with people like us who don't fit into these boxes - no rent issues, etc. The head Sheriff, "Craig", spoke out loudly saying, "Arthur, you've got a fantastic garden". In front of everyone, Arthur asked Craig what he would do if he was in our shoes. Craig replied loudly saying, "Same as you mate".

Arthur walked over to Geoff with hand extended to shake hands with Geoff and he instantly backed away from Arthur, moving his hands away, saying something about Arthur not being his friend and that Arthur was damaging his business. Arthur pointed out that he was more concerned about the reputation of his business and that was more important to him than a good family being thrown out on the streets. He then said something derogatory about Arthur who said, "So you're one of them", whereupon Craig said, "That's enough Arthur, back off." There was absolutely no goodwill coming from Geoff whatsoever and his "girls" as he called them, remained quiet, observing

what was going on, apart from one of them quietly asking Arthur to go easy because she didn't want to lose her job as she has a family to care for and financial responsibilities. Arthur replied that she wouldn't lose her job because everything was too out in the open and it would cause Geoff far more problems down the line.

Yesterday, we also had an induction meeting with two committee members of the Bowral 7th Day Adventist Church 4 Seasons community garden, and without covering all the ground which included the urgent need to grow organic food for our family and friends, and that bar Saturdays, we have continued free access to water and care for all our transplants and access to our garden materials when required, to pay our share of the water bills and a possible time limit of 6 months maybe put in place to move everything from their site, and due to the politics and bureaucracy of needing to abide by Caesar's worldly laws, we decided not to join the community garden, which means we have to urgently find a piece of land to start growing food to feed us all and save money. Innocence Lost.

Refer to the insights that are the makings of the free Love For Life ebook "**Defining Magnificence Into Mediocrity And Calling it Magnificence**" that are being located on the home page of the <http://loveforlife.com.au> website where you can also find the details of our situation with the Title Deed holders and the Real Estate Agents. Amongst this intense period, we have written: "**The Follow Through**" <https://docdro.id/irmHqts> which will have a little more added to it later today. This is one of the best things we have written.

All the best,
Arthur Cristian

10th April 2019

Posted to Facebook 2nd April 2019

Love For Life Organic Garden is now fully dismantled and stored at the 4 Seasons community garden in Bowral, household packed in three shipping containers and 3 crates and here we (Arthur & Fiona) are with Adrian and Xanthe camping at the Moss Vale Showground while we pursue and patiently wait for the next major phase of the massive sprouting of the Love For Life Food Forest Kindom Dream.

We are also looking for somewhere we can bring back the other daughters (Jasmin, Emma & Frances) and be stable for around six months while we continue to network as we inspire MAN on land to begin the massive Food Forest Kindom Dream in the Southern Highlands of New South Wales, Australia.

Here we are with our brand-new **Black Patron Camper Trailer**

<https://blackseriescampertrailers.com.au/camper-trailers/patron.html> contributed to us by Julia, with all the bells and whistles. This week we are installing in the camper trailer an **Evakool TMDZ-80 TravelMate Dual Zone Fridge Freezer 80 LITRE WIFI** <https://www.evakool.com/tmdz-80-travelmate-dual-zone-fridge-freezer> which we purchased including delivery for \$1,129.00.

We are also installing this week a front and back open-ended **Tradesman Roof Rack** <https://www.tradesmanroofracks.com.au/find-my-vehicle-3/mazda/mazda-cx-9-roof-racks/solid> mesh basket (photo https://www.tradesmanroofracks.com.au/wp-content/uploads/2015/08/CX-9_OvalS_pic2.jpg) and we already have a 100kg boat rack installed on top of the Patron Camper Trailer for carrying up to 80kg of gear.

We are also setting up the front flat end of the Patron with rubber to protect the metal and use this area also for packing light gear.

In these Moss Vale Showground photos, we are looking out East To North & South East and the shed behind us protects us from the cold, strong South-West winds bearing almost Arctic conditions. We now have stability and great internet connections so we can get on with finishing the e-book "**Defining Magnificence Into Mediocrity And Calling It Magnificence**".

We put this song together during the last days before having to leave the 13 year rental property where we created the Love For Life Food Forest Garden, a garden containing over 170 tonne of awesome high quality soil that we completely removed, including well over 400 transplants, from this site by the 22nd March 2019 **Innocence Lost:** <https://youtu.be/3T3WWwWCa2c> - **More Love For Life songs here:** <https://www.youtube.com/user/ArthurLoveForLife/videos>

29th April 2019

Since we woke up to the Freemasonic agenda to keep all of MAN all across earth enslaved to them, we have used our lives to bring them out into the open so that their methods and intentions can be clearly seen. Over the years, we have left our lives open to being attacked, stealthily or out in the open, and we have experienced many attempts to bring down the Love For Life website and to get us to give up doing this work through economic hardship, by bringing pressure between us and with those around us and by forcing us out of any security for our family. Many people think that this is just how things are and that we are all just in a mess but we are easily manipulated by those around us and the lives of real men and women are never as important as the money driven fear of "The System". There was never any need for our family to be thrown out in this way – there is always a win-win situation to be had, if those involved are willing to work it out but we were lied to again and again and shown no compassion at all.

What led us into doing this work was having the family home stolen by an organised crime network that involved Macquarie Bank and members of the bar, with the fraud being ignored and protected, showing us that there was deep corruption in the political and legal fields of "The System". When we were interviewed by A Current Affair, we were told by the interviewer that we were not allowed to discuss the fraud or the segment would not go to air.

We realised that there was no community immunity, no communities of men and women who stand up together against corruption which is why everything can be taken from anyone at any time, including children, even if they have not lied, cheated, stolen or committed a crime. We got to see that there is an international terrorist network bringing about all the wars and hardships across earth and that, in the secret passageways of the higher levels of the shadowy world of Freemasonry (the occults), there has never been a war between countries, political or religious ideologies, etc.

Pull away all their theatrics and the manipulation and brainwashing that comes with it and it can be seen that the war is against all of us to bring us all to our knees so that we accept their One World Order, a looking-good, administrative covert system of slavery under the guise of protecting us all, based on quota, centred around manorialism under a green, eco-friendly, All is One love, One earth guise.

When we woke up to this deception, we decided to show how this works in an everyday, practical sense in suburbia as we researched intensely outside the normal information channels, tapping into the work of good men and women out there who have been exposing many aspects of this dirty work that all ties into this overall agenda

for many years. We do not say what we say lightly – it is all deeply researched and scrutinised through long hours of research and debate, and put to the test, using our lives as guinea pigs. We are all living locally so we wanted to show how this works locally for everyone everywhere.

The Macquarie Bank situation led to assassination attempts on Arthur's life, to supporters being hog tied, gagged, hooded and shot through the hip, intense surveillance, character assassination across social media, etc, etc. We suspect that the Macquarie Bank situation occurred because Arthur had an interest in the Australian League of Rights in the 1990s and his passion for freedom was noted by intelligence networks and he was targeted as a potential threat.

Some examples of what we have experienced include the NSW State Debt Recovery Office spending up to half a million dollars chasing two \$25.00 fines for not voting and a \$65.00 fine for not changing the registration of the dog, an attempt by the NSW Jewish Board of Deputies to close the website down, telling us we have no freedom of speech, Fiona being sued for \$10,130.00 by David Bottrill of Aleister Crowley's Ordo Templi Orientis, an international organisation of occultists, for a comment that she didn't write or post that was taken down upon request, the Love For Life Website where all our research is stored being taken down by the server hosts due to massive, sophisticated algorithm bot attacks, PayPal closing Fiona's 2005 account for no reason, with PayPal admitting that Fiona had done nothing wrong,

YouTube trying to suspend the channel we have been using since 2009 due to "hate speech" that they could never show us examples of, Scribd closing down the account due to "abuse" and "hate speech within, including anti-LGBTQ content, anti-Semitic content, and calls to violence" they could never show us, huge ghosting by Facebook so that many never receive or see the posts we put up, removing Facebook friends from our list daily, heading towards 5000 now, sending intel agents to the Facebook walls causing trouble and scaring people off, sending honeypots to tempt us, as well as intel operatives who have shown up at the house to create disturbances that break the heartfelt bonds forming between people, which is why they have terrorism laws that say more than two people meeting in the public domain can be seen as a terrorist group, all of which is white anted and whitewashed by Hollywood movies and novels that show us everything in plain sight but make us think that it all only happens in the movies and media sagas.

There are those with strange vibes who turn up full of enthusiasm for what we are doing but then disappear, sometimes having given us gifts of food that we do not eat in case they are poisoned. And now, Fiona being lied to again and again by property

managers at Highlands Property saying that the owners of the house had financial problems and needed to sell the property urgently, that they weren't going to rent out the property again, that they needed to renovate the kitchen and bathroom (they have not been renovated), even after we had written to them in December 2017 saying that we would need some time to get out of the property.

The Freemasonic war against all of MAN is a war of stealth carried out mainly through their vast networks of bureaucracy so all that we are ever up against is someone "just doing their job" in one arm of the bureaucracy and then another man or woman just "doing their job" in another arm so everything is seemingly unconnected and we can never get to the shadowy figures behind the bureaucracy and come face to face with our enemy. We are like blind knights swinging our swords with no idea whose head to chop off.

And so, over the past week or so, the house has been put back on the rental market for \$580.00 per week and to us, it clearly shows that some involved inside Highlands Property were lied to and that we were lied to and that it was always about getting us out of there = A SCAM. Demonstrating how to grow vast amounts of free high-quality organic food on a rental property is not acceptable and this simple demonstration of taking FULL-RESPONSIBILITY for your lives must not influence others out there stuck in the "The System", rental market and all. This clearly shows we are living in a covert, spoon-fed slave system controlled by Freemasons. To us, the owners were got at and the principle behind Highlands Property is complicit (with others).

It also shows that between July 2018 and April 2019, there has been an international agenda (organised crime/Psyop) deeply rooted in Fascism, to weaken our resolve and internet communication resources by taking down Fiona's PayPal account, Scribd account, the Love For Life website and tamper with all the Facebook walls we use.

The Fascism Of PayPal: <https://docdro.id/M2CE1eN>

The Dictatorship Of Facebook: <https://docdro.id/8qsr1WV>

Scribd Fascism: <https://docdro.id/qYPZnTV>

Love For Life Website Taken Down: <http://loveforlife.com.au>
