OPEN LETTER
TO THE PRESIDENT OF THE UNITED STATES OF AMERICA
DONALD J. TRUMP

Sunday, October 25, 2020
Solemnity of Christ the King

Mister President,

Allow me to address you at this hour in which the fate of the whole world is being threatened by a global conspiracy against God and humanity. I write to you as an Archbishop, as a Successor of the Apostles, as the former Apostolic Nuncio to the United States of America. I am writing to you in the midst of the silence of both civil and religious authorities. May you accept these words of mine as the “voice of one crying out in the desert” (Jn 1:23).

As I said when I wrote my letter to you in June, this historical moment sees the forces of Evil aligned in a battle without quarter against the forces of Good; forces of Evil that appear powerful and organized as they oppose the children of Light, who are disoriented and disorganized, abandoned by their temporal and spiritual leaders.

Daily we sense the attacks multiplying of those who want to destroy the very basis of society: the natural family, respect for human life, love of country, freedom of education and business. We see heads of nations and religious leaders pandering to this suicide of Western culture and its Christian soul, while the fundamental rights of citizens and believers are denied in the name of a health emergency that is revealing itself more and more fully as instrumental to the establishment of an inhuman faceless tyranny.

A global plan called the *Great Reset* is underway. Its architect is a global élite that wants to subdue all of humanity, imposing coercive measures with which to drastically limit individual freedoms and those of entire populations. In several nations this plan has already been approved and financed; in others it is still in an early stage. Behind the world leaders who are the accomplices and executors of this infernal project, there are unscrupulous characters who finance the *World Economic Forum and Event 201*, promoting their agenda.

The purpose of the *Great Reset* is the imposition of a health dictatorship aiming at the imposition of liberticidal measures, hidden behind tempting promises of ensuring a universal income and cancelling individual debt. The price of these concessions from the International Monetary Fund will be the renunciation of private property and adherence to a program of vaccination against Covid-19 and Covid-21 promoted by Bill Gates with the collaboration of the main pharmaceutical groups. Beyond the enormous economic interests that motivate the promoters of the *Great Reset*, the imposition of the vaccination will be accompanied by the requirement of a health passport and a digital ID, with the consequent contact tracing of the population of the entire world. Those who do not accept these measures will be confined in detention camps or placed under house arrest, and all their assets will be confiscated.

Mr. President, I imagine that you are already aware that in some countries the *Great Reset* will be activated between the end of this year and the first trimester of 2021. For this purpose, further lockdowns are planned, which will be officially justified by a supposed second and third wave of the pandemic. You are well aware of the means that have been deployed to sow panic and legitimize draconian limitations on individual liberties, artfully provoking a world-wide economic crisis. In the intentions of its architects, this crisis will serve to make the recourse of nations to the *Great Reset* irreversible, thereby giving the final blow to a world whose existence and very memory they want to completely cancel. But this world, Mr. President, includes people, affections, institutions, faith, culture, traditions, and ideals: people and values that do not act like automatons, who do not obey like machines, because they are endowed with a soul and a heart, because they are tied together by a spiritual bond that draws its strength from above, from that God that our adversaries want to challenge, just as Lucifer did at the beginning of time with his “*non serviam*.”

Many people – as we well know – are annoyed by this reference to the clash between Good and Evil and the use of “apocalyptic” overtones, which according to them exasperates spirits and sharpens divisions. It is not surprising that the enemy is angered at being discovered just when he believes he has reached the citadel he seeks to conquer undisturbed. What is surprising, however, is that there is no one to sound the alarm. The reaction of the deep state to those who denounce its plan is broken and incoherent, but understandable. Just when the complicity of the mainstream media had succeeded in making the transition to the New World Order almost painless and unnoticed, all sorts of deceptions, scandals and crimes are coming to light.

Until a few months ago, it was easy to smear as “conspiracy theorists” those who denounced these terrible plans, which we now see being carried out down to the smallest detail. No one, up until last February, would ever have thought that, in all of our cities, citizens would be arrested simply for wanting to walk down the street, to breathe, to want to keep their business open, to

want to go to church on Sunday. Yet now it is happening all over the world, even in picture-postcard Italy that many Americans consider to be a small enchanted country, with its ancient monuments, its churches, its charming cities, its characteristic villages. And while the politicians are barricaded inside their palaces promulgating decrees like Persian satraps, businesses are failing, shops are closing, and people are prevented from living, traveling, working, and praying. The disastrous psychological consequences of this operation are already being seen, beginning with the suicides of desperate entrepreneurs and of our children, segregated from friends and classmates, told to follow their classes while sitting at home alone in front of a computer.

In Sacred Scripture, Saint Paul speaks to us of “the one who opposes” the manifestation of the *mystery of iniquity*, the *kathèkon* (2 Thess 2:6-7). In the religious sphere, this obstacle to evil is the Church, and in particular the papacy; in the political sphere, it is those who impede the establishment of the New World Order.

As is now clear, the one who occupies the Chair of Peter has betrayed his role from the very beginning in order to defend and promote the globalist ideology, supporting the agenda of the deep church, who chose him from its ranks.

Mr. President, you have clearly stated that you want to defend the nation – *One Nation under God*, fundamental liberties, and non-negotiable values that are denied and fought against today. It is you, dear President, who are “the one who opposes” the deep state, the final assault of the children of darkness.

For this reason, it is necessary that all people of good will be persuaded of the epochal importance of the imminent election: not so much for the sake of this or that political program, but because of the general inspiration of your action that best embodies – in this particular historical context – that world, our world, which they want to cancel by means of the lockdown. Your adversary is also our adversary: it is the Enemy of the human race, He who is “a murderer from the beginning” (Jn 8:44).

Around you are gathered with faith and courage those who consider you the final garrison against the world dictatorship. The alternative is to vote for a person who is manipulated by the deep state, gravely compromised by scandals and corruption, who will do to the United States what Jorge Mario Bergoglio is doing to the Church, Prime Minister Conte to Italy, President Macron to France, Prime Minister Sanchez to Spain, and so on. The blackmailable nature of Joe Biden – just like that of the prelates of the Vatican’s “magic circle” – will expose him to be used unscrupulously, allowing illegitimate powers to interfere in both domestic politics as well as international balances. It is obvious that those who manipulate him already have someone worse than him ready, with whom they will replace him as soon as the opportunity arises.

And yet, in the midst of this bleak picture, this apparently unstoppable advance of the “Invisible Enemy,” an element of hope emerges. The adversary does not know how to love, and it does not understand that it is not enough to assure a universal income or to cancel mortgages in order to subjugate the masses and convince them to be branded like cattle. This people, which for too long has endured the abuses of a hateful and tyrannical power, is rediscovering that it has a soul; it is understanding that it is not willing to exchange its freedom for the homogenization and cancellation of its identity; it is beginning to understand the value of familial and social ties, of the bonds of faith and culture that unite honest people. This *Great Reset* is destined to fail because those who planned it do not understand that there are still people ready to take to the streets to defend their rights, to protect their loved ones, to give a future to their children and grandchildren. The leveling inhumanity of the globalist project will shatter miserably in the face of the firm and courageous opposition of the children of Light. The enemy has Satan on its side, He who only knows how to hate. But on our side, we have the Lord Almighty, the God of armies arrayed for battle, and the Most Holy Virgin, who will crush the head of the ancient Serpent. “If God is for us, who can be against us?” (Rom 8:31).

Mr. President, you are well aware that, in this crucial hour, the United States of America is considered the defending wall against which the war declared by the advocates of globalism has been unleashed. Place your trust in the Lord, strengthened by the words of the Apostle Paul: “I can do all things in Him who strengthens me” (Phil 4:13). To be an instrument of Divine Providence is a great responsibility, for which you will certainly receive all the graces of state that you need, since they are being fervently implored for you by the many people who support you with their prayers.

With this heavenly hope and the assurance of my prayer for you, for the First Lady, and for your collaborators, with all my heart I send you my blessing.

God bless the United States of America!

What is the “Great Reset?”

This article on the website [Stopping Socialism](https://stoppingsocialism.com) explains.

<https://stoppingsocialism.com/2020/10/great-reset-time-magazine/>

On October 23, *TIME* magazine dedicated an entire issue to the little-known but very radical globalist quest known as the Great Reset.

What is the Great Reset? According to the World Economic Forum, its chief sponsor, “There is an urgent need for global stakeholders to cooperate in simultaneously managing the direct consequences of the COVID-19 crisis. To improve the state of the world, the World Economic Forum is starting The Great Reset initiative.”

Klaus Schwab, the founder and executive chairman of the World Economic Forum, penned an article for the special edition of *TIME* that focused exclusively on the Great Reset, titled “A Better Economy Is Possible. But We Need to Reimagine Capitalism to Do It.” This article reveals the crux of the Great Reset.

Schwab argues that capitalism, as currently practiced, must be reimagined. (Interestingly, the notion of “reimagining” is a buzz word on the left. For example, many have called for the “reimagining” of policing, among several other social institutions, including Barack Obama.)

Schwab’s call for the reimagining of capitalism, the very system that has lifted billions from abject poverty, should terrify those of you who believe in the value of individual liberty and free markets. According to Schwab, “[T]here are reasons to believe that a better economic system is possible—and that it could be just around the corner.”

According to Schwab, a Great Reset is necessary because, “For the past 30 to 50 years, the neoliberalist ideology has increasingly prevailed in large parts of the world. This approach centers on the notion that the market knows best, that the ‘business of business is business,’ and that government should refrain from setting clear rules for the functioning of markets. Those dogmatic beliefs have proved wrong. But fortunately, we are not destined to follow them.”

Schwab’s solution is the Great Reset, which would include the introduction of “stakeholder capitalism.”

As he writes in *TIME*, “In September, my belief that a more virtuous capitalist system is possible was reaffirmed by an initiative of the forum’s International Business Council led by Brian Moynihan of Bank of America. They released the Stakeholder Capitalism Metrics.”

Schwab concludes his article by reiterating the need for stakeholder capitalism. “Of course, we remain far from our goal of achieving a better global economic system for all. The Stakeholder Capitalism Metrics are just one of many initiatives that are needed to get to such an outcome—and time is quickly running out. ... It is up to us to replicate and follow such an approach. When that happens, those who follow the path of stakeholder capitalism will soon find that it leads to a more inclusive and sustainable economy for all.”

However, the Great Reset doesn't merely aim to shift the world toward “stakeholder capitalism.” Using the COVID-19 pandemic as the short-term justification and climate change as the long-term justification, the Great Reset calls for the introduction of numerous far-left progressive or socialist policies, such as government-run health care, basic income programs, and the Green New Deal.

If adopted throughout the world, the Great Reset wouldn't be a subtle change, but rather a radical and dramatic departure from the existing capitalist system, one that would demand changes to America's “social contract.”

In an article published on the World Economic Forum's website, Schwab said “the world must act jointly and swiftly to revamp all aspects of our societies and economies, from education to social contracts and working conditions.”

“Every country, from the United States to China, must participate, and every industry, from oil and gas to tech, must be transformed,” Schwab added. “In short, we need a ‘Great Reset’ of capitalism.”

Make no mistake about it, the Great Reset represents one of the greatest threats to liberty Americans have faced in the past half-century.

Schwab, the WEF, and many powerful corporations are already all-in on stakeholder capitalism and the Great Reset. The big question is, will America, where capitalism has reigned supreme for more than two centuries, be all-in too?

A new nationwide lockdown in France prompts an exodus from Paris, and other news from Europe.

Oct. 30, 2020 Updated 5:51 p.m. ET

Thousands of people left Paris on Thursday, just hours before France went into its second nationwide lockdown, clogging the city with massive traffic jams as many sought to be confined in the countryside and less crowded areas.

Lines of cars stretched across hundreds of miles in the city and on the Boulevard Périphérique, the multilane ring road that circles around Paris, in scenes reminiscent of an exodus in the spring, when France imposed its first lockdown.

In March, 1.2 million people left the Paris area, nearly a fifth of its population. In some areas, the massive exodus by affluent [city dwellers who decamped](#) to their second homes helped spread the coronavirus to regions that at that point had been spared by the pandemic.

This time, the virus is spreading fast throughout the country, according to authorities. France [has recorded an average of 40,000 new cases a day](#) over the past week, one of the highest levels in the world. More than 2,500 new patients have been hospitalized daily in the past several days, the highest numbers since mid-April.

A brief history of the “Thin Blue Line”

<https://www.flagsofvalor.com/blogs/news/the-thin-blue-line#:~:text=In%20the%201950s%2C%20the%20blue,symbol%20representing%20all%20medical%20personnel.>

The Thin Blue Line

What is the Thin Blue Line Flag?

...A question we are often asked and worth some explanation. While the roots of the thin blue line trace its origins to the United Kingdom, it has grown in popularity here in the United States as a recognition of the commitment of law enforcement as protectors of our communities.

What is the Thin Blue Line? The phrase is borrowed from a military image of the 19th century, in which a "thin red line" of British troops ("redcoats") held off a Russian cavalry charge during the Crimean war. The first appearance of the Thin Blue Line dates back to the early 1900s when The United States Army marched into battle in their blue uniforms. Together, standing alongside, the soldiers formed a blue line, thus beginning the history we know today as the Thin Blue Line. The phrase "Thin Blue Line" was initially mentioned in a 1911 poem by Nels Dickmann Anderson. In the 1950s, the blue line was adopted by law enforcement professionals to represent their courage and sacrifice while protecting the American people.

The Thin Blue Line emblem was established to symbolize all law enforcement personnel similar to the Red Cross symbol representing all medical personnel. The Thin Blue Line embodies the unbreakable component of law enforcement standing as a safety barrier between the law-abiding citizens of America and the criminally inclined.

Ronald Reagan once said, "Evil is powerless if the good are unafraid."

Above the blue line represents the "good" spoken in Reagan's quote, while below the line represents the "evil." The law enforcement brothers and sisters in the United States make Ronald Reagan's quote a reality, and the Thin Blue Line represents their constant bravery. They risk their lives daily upon the streets of America. The Thin Blue Line is a small token to remind us that the presence of law enforcement is to bring forth peace and diminish hostility and violence.

Just as the American flag pays tribute to the American people and the country's sacrifices to gain independence; the flag containing the Thin Blue Line pays homage to our law enforcement. Displaying the flag in any forum demonstrates support to our law officers for their thankless efforts in keeping the peace across our great nation.

In his six-page written ruling rejecting Kyle Rittenhouse's bid to remain in Illinois, Judge Paul Novak noted that defense attorneys had characterized the Wisconsin charges as politically motivated.

"This Illinois court shall not examine any potential political impact a Wisconsin District Attorney potentially considered in his charging decision," Novak wrote. He added that, according to Illinois law, it is not for an Illinois judge to "reevaluate probable cause determined by a Wisconsin court."
