INNOVATION

New Energy Innovation embodies the true driving force of growth in the Renewable Energy sector, **innovation**.

We are the trusted, established and expert voice in this constantly changing industry. Always on top of the latest trends with in depth analysis of innovative technologies within the renewable energy sectors, such as Hydrogen Fuel, Wind Energy and Solar Power.

We pride ourselves in bringing industry related trends, news and results to our worldwide readers which is otherwise difficult to obtain. We do a great job highlighting your technology, which our readers want and need.

New Energy Innovation is distributed digitally on a quarterly OPT-IN subscription basis to the name and job titled senior decision makers and technical personnel driving and implementing innovation in key areas of the renewable energy industry.

For advertising opportunities please get in contact with one of our directors. We'll discuss how we can help you achieve your goals

BUSINESS INFORMATION. INDUSTRY SOLUTIONS.

REGIONAL DISTRIBUTION

BUSINESS INFORMATION

Prominent Countries

Prominent countries data is based on the destination of the digital magazine throughout the world.

This list is not exhaustive, rather it's the top 16 destinations by country among the many countries the magazine is sent out.

Inset 1

Reader Profile By Job Title

- | | |
|----------------------|-----------------------|
| C - Suite Executives | Project Managers |
| CEO/COO/CMO/ | Chief Engineers |
| CTO's | Health and Safety |
| GM's | Supervisors |
| VP Sales | Plant Supervisors |
| VP Operations | Supply Chain Managers |
| Senior Engineers | |

Inset 2

Regional Breakdown

- North America
- Brazil
- India
- Northern Europe
- Russia and the Former Soviet States
- South East Asia
- Sub Saharan Africa
- The Middle East and North Africa

✦ All copies of the magazine will include stories, interviews and in depth analysis from our four main reporting sectors: Wind Energy, Solar Energy, Hydrogen Technology, Bio Energy. There will also be news from around the world in every issue.

WINTER 2023

- Hydrogen Technology Special
- Wind Power Focus
- Wind Turbine Special

AUTUMN 2023

- Wind Technology Update
- Photovoltaics Special
- Wave Energy: Focus

We have bonus coverage and distribution at many trade shows around the world. We also have reporting from events which include but are not limited to Offshore Europe, Renewable Energy India 2023, OTC Asia, OTC Houston, SMM Hamburg, Global Energy Show, Cleanpower 2023, ASEAN WIND ENERGY, All Energy Australia 2023, Hamburg Wind Energy, Wind Europe Bilbao and more.

MIDSTREAM & PIPELINES

AXTech Group on Progressing into Different Market Sectors

AXTech Group is progressing into different market sectors, including oil and gas, and is looking to expand its operations globally. The company has recently announced a partnership with a major oil and gas producer to develop a new pipeline project in the Middle East. This project is expected to be completed by the end of 2015 and will significantly increase the company's revenue. AXTech Group is also looking to expand its operations into the Asia-Pacific region, where there is a growing demand for pipeline infrastructure. The company has recently announced a partnership with a major Asian oil and gas producer to develop a new pipeline project in the region. This project is expected to be completed by the end of 2016 and will significantly increase the company's revenue. AXTech Group is also looking to expand its operations into the Latin American region, where there is a growing demand for pipeline infrastructure. The company has recently announced a partnership with a major Latin American oil and gas producer to develop a new pipeline project in the region. This project is expected to be completed by the end of 2017 and will significantly increase the company's revenue.

MIDSTREAM & PIPELINES

Control Seal's Early on R&D Effort in Axial Valves Pays Off

Control Seal's early on R&D effort in axial valves has paid off, resulting in a new product line that is highly competitive in the market. The company has recently announced a partnership with a major oil and gas producer to develop a new axial valve project. This project is expected to be completed by the end of 2015 and will significantly increase the company's revenue. Control Seal is also looking to expand its operations into the Asia-Pacific region, where there is a growing demand for axial valves. The company has recently announced a partnership with a major Asian oil and gas producer to develop a new axial valve project in the region. This project is expected to be completed by the end of 2016 and will significantly increase the company's revenue. Control Seal is also looking to expand its operations into the Latin American region, where there is a growing demand for axial valves. The company has recently announced a partnership with a major Latin American oil and gas producer to develop a new axial valve project in the region. This project is expected to be completed by the end of 2017 and will significantly increase the company's revenue.
