Ingredients

At BioSwitch, we believe in harnessing the power of nature. Our advanced supplement contains a blend of carefully selected natural ingredients that work synergistically to enhance metabolism, suppress appetite, and improve overall well-being.

Ingredients in BioSwitch Advanced:

- **Raspberry ketone:** Raspberry ketone is a naturally occurring compound found in red raspberries. It is thought to promote weight loss by increasing the production of adiponectin, a hormone that helps regulate fat metabolism.
- **African mango:** African mango (*Irvingia gabonensis*) is a fruit native to West Africa. It is traditionally used for weight loss and is thought to work by suppressing appetite and reducing fat storage.
- **Capsicum:** Capsicum (*capsicum annum*) is the pepper plant that produces chili peppers. It contains capsaicin, a compound that is thought to boost metabolism and promote weight loss.
- **Maca powder:** Maca powder is made from the dried root of the maca plant (*Lepidium meyenii*). It is a traditional superfood that is thought to promote fertility, energy levels, and mood.
- **Grapeseed pyruvate:** Grapeseed pyruvate is a compound derived from grapeseeds. It is thought to promote weight loss by increasing the body's use of pyruvate, a molecule that plays a role in energy production.
- **Guarana:** Guarana (*Paullinia cupana*) is a South American plant that is a rich source of caffeine. It is traditionally used for energy and is also thought to promote weight loss by increasing metabolism.
