My theme: We Are Under Attack

<https://pbs.twimg.com/media/DkQxyKhU4AEt3Bb.jpg>

2) You may have noticed that leaders and supporters of the [#Qanon](#) movement have come under increasing attack.

(It isn't necessary to send me links to posts or broadcasts from people who are attacking me.)

3) The strategy of the enemy isn't to discredit [#Qanon](#).

It's to attack you, personally so you defend yourself.

When you do, you push into their hand.

This isn't about you.

It's about POTUS, Q & America. Eventually, they'll attack them and expose their true motives.

<https://pbs.twimg.com/media/DkQ47hgUUAIB1K.jpg>

4) I prefer to ignore trolls, shills and haters.

I have no desire to force anyone to follow [#Qanon](#)

Arguments about Q are pointless.

And besides... there's too much work to be done.

5) The political pundits are about to learn a painful lesson. As they continue attacking [#Qanon](#) without doing research, and as Q is proven to be a reliable source of information, they're becoming less relevant.

44) [#Qanon](#) said the previews are over. It's showtime.

<https://pbs.twimg.com/media/DkRJP6kVAAAsIdD.jpg>

45) [#Qanon](#) occasionally posts messages that are mostly abbreviations. That's the case with this post, which describes the people involved in the illegal surveillance of candidate Trump during [#Spygate](#), which Q has renamed [SPY OP]

<https://pbs.twimg.com/media/DkRKLFKVSAEzO1.jpg>

46) It may look like a mess, but it's a cohesive message that can be unraveled if you're patient and if you're willing to do a little research.

Two-letter abbreviations nearly always indicate people or nations. The context of the post indicates which is being discussed.

#Qanon

47) Three letter abbreviations used by [#Qanon](#) nearly always indicate government agencies. The Centralized_intelligence_agency is often misspelled or oddly configured to throw off Artificial Intelligence which scans for mentions of the agency.

48) Brackets [] have multiple uses in [#Qanon](#) posts. They can be used to set off individuals, agencies, numbers or phrases from the rest of a line of text.

47) But they can also indicate the level of danger a person or agency is in at the present time.

More brackets = greater immediate danger.

What was negotiated on the tarmac between BC and Lynch?
Remember it was expected HRC was going to win during this time period.
What if the wizards and warlocks tipped off a local reporter as to the supposed unscheduled stop?
What if the NSA under the personal direction from Adm R had this meeting miscat and logged under a false identity to prevent bad actors from locating while also verifying to said players all was clear _ no logs.
What really happened when the wizards and warlocks revealed what they had?
Was Comey forced into the spotlight shortly thereafter not by choice? Right before the election no doubt which would cast suspicion?
These are crumbs and you cannot imagine the full and complete picture.

Camp Peary is an approximately 9,000 acre U.S. military reservation in York County near Williamsburg, Virginia. Officially referred to as an **Armed Forces Experimental Training Activity (AFETA)** under the authority of the Department of Defense, Camp Peary hosts a covert CIA training facility known as "The Farm", which is used to train officers of the CIA's Directorate of Operations, as well as those of the DIA's Defense Clandestine Service,^[1] among other intelligence entities.
