### Authentisign Electronic Signature Service

## Signing Electronically

Authentisign is a secure, online, document signing service that enables multiple parties to participate and sign real estate documents electronically. Electronic signatures have been approved for use since June 30, 2000, when Congress enacted the Electronic Signatures in Global and National Commerce Act.

In an electronic signing, the action of you approving the documents is your signature. Instead of actually signing your name, you are approving the documents by clicking on signature or initial blocks. When you click on each block, the document will replace the block with your name or initials. The entire signing process is tracked, including the IP (internet protocol) address of your computer and the date and time you signed. This electronic process is convenient, efficient, and reduces the amount of time and paper used in the transaction.

#### **Respond to Invitation**

You will receive an invitation email with a link to access the signing transaction. Click the blue icon to open the Authentisign electronic signature service.

#### Review Documents

- 1 Use the scroll bar to review each page.
- 2 Click on "Options" to print/download a hard copy of your documents before they are signed. You will receive the signed documents via email when the signing is complete.
- 3 Click Start (located on the upper right of the screen) to find and highlight the first signing block. Depending on the speed of your internet service, it may take a few seconds for Authentisign to find and highlight each block. Please wait until each block is highlighted before you sign the documents.
