- 1) This is my [#Qanon](#) proofs thread—a series of posts by Q with related news articles and Twitter posts.

This thread will allow you to compare selected posts by Q to see if his (or her) claims are true.

<https://pbs.twimg.com/media/DhnRvLoVQAArS1E.jpg>

- 2) [#Qanon](#) posts can be found here: [qanon.pub](#)
- 3) I've done my best to research [#Qanon](#) posts, relevant articles and twitter posts for accuracy. In preparing this thread, I discarded posts that others claimed as proofs because, under close inspection, the claims made by the posters were found to be incorrect.
- 4) That's not to say that any post itself was invalid or that [#QAnon](#) was proven to be wrong.

It means that I found claims by individuals that certain posts by Q were said to pre-empt tweets or news articles when that was not the case,

- 5) Here's an example:  
I said in my previous thread that it seemed as if [#Qanon](#) had posted several weeks ahead of major news outlets about Jeff Sessions' appointment of John Huber instead of a second Special Counsel.
- 6) [#Qanon](#) didn't actually claim to have the scoop on that story. In fact, Q said the appointment of Huber had been announced publicly. My mistake was not finding the news article Q mentioned.
- 7) [@\\_ImperatorRex](#) and [@themarketswork](#) informed me that there were news reports prior to [#Qanon](#)'s post on that story.

Lesson learned. Be sure to do your research before making claims about Q.

- 8) In this thread, you'll find tweets with timestamps. A word of caution is in order.

Twitter timestamps are not universal. The timestamp a person sees on an original tweet on the Twitter website is determined by their time zone setting.

[#Qanon](#)

- 9) If you search for an image of a particular tweet on the internet, you'll find many different timestamps. Each one captured in a different time zone.

## #Qanon

The image displays four separate screenshots of Donald J. Trump's Twitter profile (@realDonaldTrump). Each screenshot shows a tweet with the same text: "James Comey better hope that there are no "tapes" of our conversations before he starts leaking to the press!" The timestamp for each tweet is 9:26 AM - 12 May 2017. The screenshots differ in their metadata and interaction counts:

- Screenshot 1: 16,709 RETWEETS, 45,805 LIKES
- Screenshot 2: 5,910 RETWEETS, 15,407 LIKES
- Screenshot 3: 14,007 RETWEETS, 37,435 LIKES
- Screenshot 4: 15,153 RETWEETS, 40,953 LIKES

- 10) Which means that when you research Twitter posts and compare timestamps of other people's images, you have to know what time zone the tweet was viewed in to know if the timestamp is correct as a reference point.

## #Qanon

- 11) If you take a screen capture of a tweet from the Twitter website, it will display the timestamp in your selected time zone.

Researchers should take their own screen captures so they know the time zone and can properly reference tweets with other posts.

## #Qanon

- 12) This website is a handy way to find tweets by the President. It has an archive of his tweets and a calendar tool that allows you to find the tweets from that day. Timestamps are displayed in your local time zone.

## #Qanon

[didtrumptweetit.com](http://didtrumptweetit.com)

- 13) No post by itself would be a compelling argument proving the claims of #Qanon.

I would ask you to objectively and thoughtfully consider them as a whole and ask yourself what their relevance might be.

- 14) #Qanon has echoed the President's view of the mainstream media. Part of Q's mission is to provide valid information that counters the often false information of the mainstream media.

Trump wants to empower average people to become creators and distributors of information.

16) [#Qanon](#) suggested that Saudi Arabi has an important role to play in a global game of RISK.

(RISK is a board game where players try to gain control of the entire world.)

17) The following day, November 3rd, [#Qanon](#) again mentioned Saudi Arabia and this time, Jared Kushner who had recently traveled there.

Q suggested the Saudis were a source of funding for politicians.

Hence, why we are dedicating 'critical' time to distribute crumbs which can be followed in greater detail to paint the entire picture once more information is released.

Why has POTUS dedicated so much time into labeling the MSM as fake news?

Why is this relevant?

We are fully prepared that all social media will be shut down to prevent the spread of this information (i.e. POTUS' Twitter etc. and/or mass censoring).

Sealed Federal orders pre-submitted as prevention and masked as 'in general' (though that does not account for rogue agents/programmers within).

Nonetheless, the investigators considered obtaining additional information from or about the private email accounts of all three senior aides. Emails sent to or from the private email accounts were potentially relevant to: (1) further reconstructing the full collection of work-related emails and emails containing classified information that were sent to or from Clinton's servers; (2) finding additional emails containing classified information that were transmitted and stored on unclassified systems other than the Clinton's servers; (3) finding evidence of knowledge or intent on the part of Clinton, the senior aides, and possibly others regarding the transmission or storage of classified information on unclassified

<sup>75</sup> FBI analysts and Prosecutor 2 told us that former President Barack Obama was one of the 13 individuals with whom Clinton had direct contact using her clintonemail.com account. Obama, like other high level government officials, used a pseudonym for his username on his official government email account. The analysts told us that they questioned whether Obama's email address (combined with salutations that revealed that the emails were being exchanged with Obama) or other information contained in the emails were classified and, thus, sent the emails to relevant USIC agencies for classification review. However, they stated that the USIC agencies determined that none of the emails contained classified information.

## 'Flood Is Coming': FBI Front Office Discussed Trump Dossier With CNN

 Matt Vespa | [@mvespa1](#) | Posted: May 22, 2018 12:45 PM

Wait—so, disgraced Deputy FBI Director Andrew McCabe not only lied to investigators multiple times about unauthorized media leaks, he also discussed the infamous Trump dossier with CNN? The funny thing is the reason then-FBI Director James Comey said he briefed the president on the dossier, which was an opposition research project funded by the Democrats and the Hillary Clinton campaign, is that CNN had it. In [a series of emails](#) obtained by Sen. Ron Johnson (R-WI), chair of the Senate Homeland Security Committee, it shows top FBI officials were in contact with the news organizations about the dossier.

Mccabe is seen writing, "a flood is coming." All of this on top of the allegation that the FBI had someone spying on the Trump campaign. Comey said prior to the briefing that CNN was angling for a "news hook." Well, what better way to unleash the Russian collusion hysteria than the top domestic law enforcement and intelligence chief briefing the incoming president about a document that's one of the centerpieces of this shoddy theory. Just a friendly reminder, *there is zero evidence* that the Kremlin colluded with the Trump team to tilt an election. Zero.

# 2018 Hawaii false missile alert

From Wikipedia, the free encyclopedia

On January 13, 2018, a false ballistic missile alert was issued via the Emergency Alert System and Commercial Mobile Alert System over television, radio, and cellphones in the U.S. state of Hawaii. The alert stated that there was an incoming ballistic missile threat to Hawaii, advised residents to seek shelter, and concluded "This is not a drill". The message was sent at 8:07 a.m. local time. However, no civil defense outdoor warning sirens were authorized or sounded by the state.

A second message, sent 38 minutes later, described the first as a "false alarm". State officials blamed a miscommunication during a drill at the Hawaii Emergency Management Agency for the first message. Governor David Ige publicly apologized for the erroneous alert, which caused panic and disruption throughout the state. The Federal Communications Commission and the Hawaii House of Representatives launched investigations into the incident, leading to the resignation of the state's emergency management administrator.
