Probably symbolically, they have the Red October that they were hunting, which is @snowden. And this really means, not that they HAVE HIM but that he is talking and cooperating. We have had glimpses of how @snowden was groomed for his job for a long time by people who seemed to be senior agents (assume most start in college so the chronological age correlates with seniority). This would mean that he has some serious intel to share.

27) Another possibility is that the sub is a reference to an actual submarine that was found. Perhaps the Argentine submarine that was lost in November which many nations searched for.

Hello everyone, this is my first time posting on 4chan, but I need to get this out. And I need to stay anonymous.

I work for Google, I'm not going to name the internal tech department for obvious reasons, I don't want anyone to pinpoint who I am. But I'm in tech, and work with AI. I'll explain.

My team and I created AI bots for twitter. These bots are slightly different than regular AI bots, these are remote signal bots, but I'll explain what they do.

My team, and a "human intelligence" team, which is really just a propaganda team, work together to make certain topics trend, and persuade public opinion, which persuades political pressure. We do this by a groupthink method, we have a name for it internally, but "consensus cracking" is a more used name externally. But the bots we created, go into twitter conversations and push a narrative. Some of the bots are verified accounts. And they start by arguing a point of view against someone, and then more bots join in and thumbs up the comment. We are doing it with gun control now. More people see a "consensus" of gun control and people on the fence get persuaded to our narrative, and politicians get pressured by thinking it's actual people. We had whole meetings about 4chan, because you guys, specifically this board, are disrupting the bots. You are basically doing what we are doing, but you are real people. We (not necessarily me) devised a plan to knock you guys from twitter. We accused Russia of doing what WE are doing, and used the narrative to wipe out "suspected bots", which we knew weren't bots at all.

I feel like shit about this. Here's the thing, I'm actually a democrat, and I HATE guns, but i believe in balance of the people more than anything. We are using software as a political tool instead of the will of the people.

This is also a violation of the SEC, we are fabricating twitter users and using them for stocks & advertisers. I signed that I wouldn't discuss this, so I need to stay anonymous.

And he has a score to settle, according to one close friend.

“I think he is gearing up to name names,” Flynn’s confidant said. “He knows where many political bodies are buried in D.C. and what does he have to lose? Nothing.”

That fact makes Flynn a very dangerous man, especially in Washington D.C., a place held together by secrets and people who want to keep them hidden. And elites recognize the fact that a rogue Flynn could add up to big trouble for such secrets and those they would expose.

53) I was not able to verify whether the Marines (USMC) were activated, but here's a website showing how many Navy personnel and ships are deployed and on reserve.

When the full extent of your venality, moral turpitude, and political corruption becomes known, you will take your rightful place as a disgraced demagogue in the dustbin of history. You may scapegoat Andy McCabe, but you will not destroy America...America will triumph over you.

Donald J. Trump  @realDonaldTrump

Andrew McCabe FIRED, a great day for the hard working men and women of the FBI - A great day for Democracy. Sanctimonious James Comey was his boss and made McCabe look like a choirboy. He knew all about the lies and corruption going on at the highest levels of the FBI!

57) Chuck Schumer warned POTUS that the deep state has six ways from Sunday to get even with you. Samantha Power reminded him that Brennan is a dangerous enemy.

They're questioning Trump's character because their own character is lacking (Projection)

I believe the question is:

If Hillary has been before a judge, why is she allowed to make trips overseas?

60) She's allowed to make trips for a couple of reasons:

First, her base of support erodes with each trip, due to her insensitive comments.

Second, the countries she visits have been "whitelisted."

[#Qanon](#)

61) An internet "whitelist" contains websites that are known to be safe. A "blacklist" has websites that are unsafe.

Hillary is allowed to travel only to cities where she can do no damage to POTUS and where an extradition treaty exists—places that are on the 'whitelist"
