In the mist of difficulty lies opportunity!

**Gaynor Heeks** In 30 years of professional work I have never experienced team support and synergy quite like this. Having the tracks to run on and a proven system to follow the only variable is the effort you are prepared to commit and learn the processes involved and any time you find yourself walking through treacle there is someone to give you a hand up and set you back on firm ground... an amazing energy and team spirit like no other in my experience.

**David Miller** I joined this Team before they ever knew what they were doing because I trusted wholeheartedly that over a short period of time they would create the training, support, systems and pure energy that could match doTerra's fabulous products that I could see were in great demand. We have only just got started really and I am so proud to be associated with this Team and to contribute to driving it forward

Strength doesn't come from what you can do, it comes from overcoming the things you thought you couldn't!

**Charles Parker** TEAM, Together Everyone Achieves More. That is true but I am a firm believer that it depends what team your are in and I believe we, being in Peter and Neil's Teams (for we are in both of course) are blessed with two of the greatest leaders worldwide. Where else could one find two guys that work so endlessly and tirelessly to ensure that each and every one in their team has the opportunity to succeed. They understand that everyone of us has their own pace and are prepared to accept that as long as we keep keeping on we will succeed. I am so proud to be part of Peter's team and to have met a man that has not only helped me with my business but has become a wonderful friend. Peter has installed so much belief in both Tina and I and although it is perhaps taking just a little longer to make it to the top of the hill, tip the scales in our favour and accelerate down the other side it is this amazing man that has been by our side teaching and encouraging us. We could not ask for anything else in our team and hope we can install the same belief in everyone we introduce to this amazing business. You see I believe our success will come because Tina and I work as a team.

**Vikki Ede** Systems and Support - you and Neil do your utmost to make everything as simple as possible for people. Follow the Step by Step process and you can easily get started. Then there is the support from yourselves and everyone else - any questions, simply post them and you will receive so much help. Regular online and offline training with great sessions on products and processes. I'm very thankful to be a member of this team and for my fabulous upline **Rachel** who is a great asset to the team too.

If you want something you've never had, you must do something you've never done!

**Debra Williams** 🌟 I joined dōTERRA initially for the business opportunity. People join people, and I totally trusted, respected & admired the leaders of this group, Peter & Neil, who have a combined 40 years experience as top leaders in this type of industry. I knew, from their success in previous networks, that their knowledge, support & experience would be immeasurable, you get all this for free by being apart of our team! The resources, training & duplicable systems in place means that everyone has the same opportunity to be successful, never before has the saying 'in the right place at the right time' been more true. Also, I had no personal experience of dōTERRA Essential Oils but trusted Peter & Neil enough to know that they must be good! It's so important with MLM that you have the right product. I have been totally blown away not only by the benefits of the products & will never stop using them, but also by the huge feeling of 'belonging', this is my family & I love them all! The friendship, camaraderie, sharing & support that everyone gives each other is something I've never experienced before! We all feel valued, appreciated & part of something massive! This is part of my life now, for ever! Very, very special, I feel grateful every day, for this life changing opportunity giving me & my family a bright future

**Jon Whitwell** For me having been in the corporate world I've seen many different training systems and resources I can honestly say nothing compares to the comprehensive training and resources Neil and Peter have put together to help all of us. Just when you think it can't possibly get any better they announce improvements to the systems giving constant wow 🤩 moments so it's ever-evolving and adapting which I think is nothing short of incredible. The resources we all have at our disposal are second to none and certainly shouldn't be underestimated what we have access to in this amazing team! The team camaraderie here is extremely special how everyone is there to support and encourage 🤝 each other and the new friendships you form 😊 In summary RIGHT industry ✅ RIGHT company ✅ RIGHT leaders ✅ definitely RIGHT team ✅ at the RIGHT time! ✅ There's nowhere else I'd rather be and determined not to let this opportunity pass me by. Here's to all our futures 🌱💧🌿🙌💜😊

**Steve Gibson** I usually sit in the background but felt compelled to respond to this. I have been involved with MLM since 1994 with 3 other companies (1 twice). There is a tired old mantra associated with this industry which is often quoted "You are in business for yourself but, not by yourself." This is the first time where I can, truly say, that this is the case. Whether it be the Resources website, the company support, the ongoing training, FB Groups or the sheer fact that anyone can bring anyone, who they have who is interested, to a class run by Neil or Pete - there are no excuses anymore. This is accepted as the fastest growing team in Europe so I guess that it works. The only reason that anyone will "Be on their own" with this team is if they choose to be. Help and support is everywhere - you have only to hold on and ride the wave. Steve out. 🏆
