Q

15) Does POTUS have evidence that covid-19 was developed as a bioweapon?

What would happen if that information were made public?

How do you prevent a war?

Australian researchers see virus design manipulation

A forthcoming Australian scientific study concludes that the coronavirus causing the global pandemic contains unique properties suggesting it was manipulated in a Chinese laboratory and was not the r...

<https://www.washingtontimes.com/news/2020/may/21/australian-researchers-see-virus...>

of the virus' ability to infect various animals, including humans. It was published May 13 on the Cornell University website arXiv.org, which is used for discussion of pre-publication papers.

Nikolai Petrovsky, the lead researcher, said his team suspects human manipulation in Wuhan because of the unmatched ability of the virus' protruding spike to infect human cells.

The virus' binding strength for human cells "far exceeds" similar properties for infecting other animals, he said in a statement on the forthcoming report.

"This, plus the fact that no corresponding virus has been found to exist in nature, leads to the possibility that COVID-19 is a human-created virus," said Mr. Petrovsky, a professor at the College of Medicine and Public Health at Flinders University in Adelaide, Australia.

"It is therefore entirely plausible that the virus was created in the biosecurity facility in Wuhan by selection on cells expressing human ACE2, a laboratory that was known to be cultivating exotic bat coronaviruses at the time."

ACE2 is the acronym for angiotensin-converting enzyme 2, which is on cell surfaces. The enzyme is the entry point the coronavirus uses to infect organisms and spread.

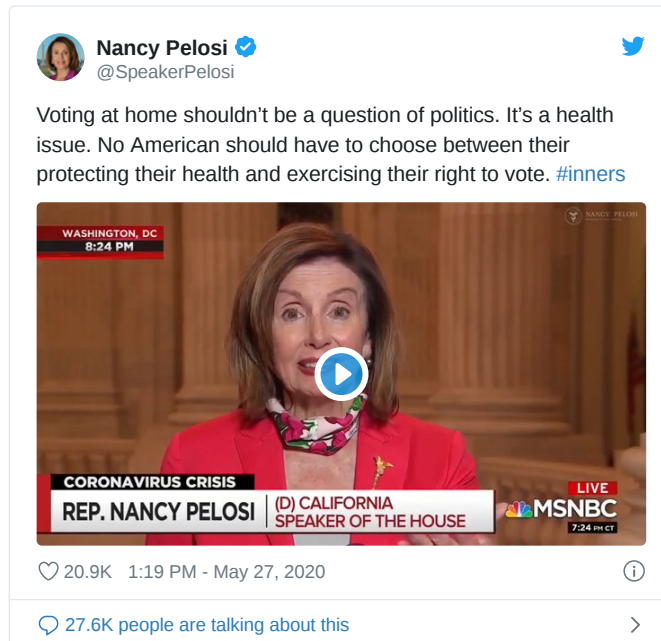

Human lung cells contain ACE2 receptors that have been shown to be key targets of the SARS-CoV-2.

A laboratory-treated coronavirus also could have escaped the facility through an accidental infection of a staff member who then visited the Wuhan wild animal market, Mr. Petrovsky said. Other potential sources include inappropriate disposal of medical waste at a Wuhan laboratory or transmission from a cat or other animal that came into contact with infected waste.

16) Nancy Pelosi makes her pitch for vote-by-mail.

NEW YORK
STATE OF OPPORTUNITY.

Department of Health

ANDREW M. CUOMO
Governor

HOWARD A. ZUCKER, M.D., J.D.
Commissioner

SALLY DRESLIN, M.S., R.N.
Executive Deputy Commissioner

DATE: March 25, 2020
TO: Nursing Home Administrators, Directors of Nursing, and Hospital Discharge Planners
FROM: New York State Department of Health

Advisory: Hospital Discharges and Admissions to Nursing Homes

**Please distribute immediately to:
Nursing Home Administrators, Directors of Nursing, Directors of Social Work, Hospital Discharge Planners**

COVID-19 has been detected in multiple communities throughout New York State. There is an urgent need to expand hospital capacity in New York State to be able to meet the demand for patients with COVID-19 requiring acute care. As a result, this directive is being issued to clarify expectations for nursing homes (NHs) receiving residents returning from hospitalization and for NHs accepting new admissions.

Hospital discharge planning staff and NHs should carefully review this guidance with all staff directly involved in resident admission, transfer, and discharges.

During this global health emergency, all NHs must comply with the expedited receipt of residents returning from hospitals to NHs. Residents are deemed appropriate for return to a NH upon a determination by the hospital physician or designee that the resident is medically stable for return.

Hospital discharge planners **must** confirm to the NH, by telephone, that the resident is medically stable for discharge. Comprehensive discharge instructions must be provided by the hospital prior to the transport of a resident to the NH.

No resident shall be denied re-admission or admission to the NH solely based on a confirmed or suspected diagnosis of COVID-19. NHs are prohibited from requiring a hospitalized resident who is determined medically stable to be tested for COVID-19 prior to admission or readmission.

Information for healthcare providers on COVID-19 is readily available on the New York State Department of Health public website at <https://coronavirus.health.ny.gov/information-healthcare-providers>. As always, standard precautions must be maintained, and environmental cleaning made a priority, during this public health emergency.

Critical personal protective equipment (PPE) needs should be immediately communicated to your local Office of Emergency Management, with the appropriate information provided at the time of request. Requests **MUST** include:

- o Type and quantity of PPE by size;
- o Point of contact at the requesting facility or system;
- o Delivery location;
- o Date request is needed to be filled by; AND
- o Record of pending orders.

Thank you for your ongoing support and cooperation in responding to COVID-19. General questions or comments about this advisory can be sent to covidnursinghomeinfo@health.ny.gov.

Empire State Plaza, Corning Tower, Albany, NY 12237 | health.ny.gov

22) Since there was capacity to care for elderly patients with covid in other hospitals and the USNS Comfort, was the decision to have them admitted to nursing homes, intended to increase the spread of the disease?

Q !!Hs1Jq13jV6 05/27/20 (Wed) 09:05:45

Q !!Hs1Jq13jV6 05/27/20 (Wed) 09:48:43

>>9332438

Anonymous 05/27/20 (Wed) 09:46:48

>>9332398

We hold these truths to be self-evident, that all men (& women) are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men (& Women), deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn that mankind are more disposed to suffer, while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Member this Q?

24) While keyboard warriors dug for the facts, the legacy media pushed a contrived narrative about Donald Trump and Russia.

Welcome to UK Q Research

UKAnons it's about time we start fighting and take our country back, but to do that we need all the information and proof of the corruption that is destroying our country and we need to understand our part in spygate. We also need to look in to our own government and MP's especially the ones who who are trying to stop Brexit

It's our job now to start waking the British public, I know it's going to be hard I've noticed most are in a coma or they are not bothered, so get digging and twisting and be part of the British revolution. Our MSM needs to be shown we know they are fake news and try to counter them with the truth.

Re-post from the end of last bread-

TO ALL UK ANONS
 A UK Anon is working on a big London pics decode that he plans to drop on the General Research board. This will have anons scrambling for information on the make-up of the British Government that goes much earlier than all of the current focus on 2015/2016. You might want to start looking at the composition of the British Government during the first term of the Hussein administration (2008 to 2012) and into the first part of his second term (2013/2014). Become familiar with PMs, Foreign Secretaries, Intelligence heads, etc. If you want to be the "belle of the ball" or if you always wanted to be that anon who has all the info when other anons who are unfamiliar with the UK are starting to ask questions about the London pics, then I recommend UK anons start digging on the players from that time. Let's show folks in the General thread what the UK thread can do.

39)

► **Anonymous** 05/23/20 (Sat) 00:51:22 ID: 6c80a4 (44) No.9285467

Cameron in 2010

Prime Minister of the United Kingdom	
In office	
11 May 2010 – 13 July 2016	
Monarch	Elizabeth II
Deputy	Nick Clegg (2010–2015)
First Secretary	William Hague

The Lord Hague of Richmond
PC FRSL

Hague in 2010

First Secretary of State	
In office	
12 May 2010 – 8 May 2015	
Prime Minister	David Cameron

>>9285314
PM David Cameron
Foreign Sec'y William Hague

Start with these two.
Things to look at:
Middle East policies
Iran- US Iran \$ deal
Syria- coup, civil war
Cyprus- money laundering
Russia- Spy poisonings
Afghanistan- opium \$
China/UK deals
Et al.

Leader - David Cameron

David Cameron was virtually unknown outside Westminster when he was elected Tory leader in December 2005 at the age of 39.

The Old Etonian had dazzled that year's party conference with his youthful dynamism and charisma, reportedly telling journalists he was the "heir to Blair".

He has sought to plant the Conservative flag firmly in the centre ground of British politics, but his assault on traditional Tory touchstones, such as grammar schools, has brought him into conflict with the party's grassroots.

PHILIP D. MURPHY
 Governor
 SHEILA Y. OLIVER
 Lt. Governor

JUDITH M. PERSICHELLI, RN, BSN, MA
 Commissioner

March 31, 2020

TO: Nursing Home and Comprehensive Rehabilitation Hospital Administrators, Directors of Nursing, and Hospital Discharge Planners
FROM: Judith M. Persichilli, R.N., B.S.N., M.A., Commissioner
SUBJECT: Hospital Discharges and Admissions to Post-Acute Care Settings

On March 9, 2020 Governor Philip D. Murphy issued Executive Order No. 103, declaring a Public Health Emergency in New Jersey as a result of the COVID-19 pandemic. In order to respond to the increase in positive cases there is an urgent need to expand hospital capacity to be able to meet the demand for patients with COVID-19 requiring acute care. As a result, this directive is being issued to clarify expectations post-acute care settings receiving patients/residents returning from hospitalization and for accepting new admissions.

The New Jersey Department of Health directs hospital discharge planning staff and post-acute care facilities to carefully review this guidance with all staff directly involved in patient/resident admissions, transfers, and discharges.

During this global health emergency, all post-acute care settings must comply with the expedited receipt of patients/residents discharging from hospitals. Patients/residents are deemed appropriate for discharge to the post-acute care setting upon a determination by the hospital physician or designee that the resident is medically stable for return. A rapid review of necessary resources to provide adequate, safe care in the post-acute care setting is imperative during this time.

Hospital discharge planners must confirm to the post-acute care setting, by telephone, that the patient/resident is medically stable for discharge. Comprehensive discharge instructions must be provided by the hospital prior to the transport of a patient/resident to the post-acute care setting.

1

No patient/resident shall be denied re-admission or admission to the post-acute care setting solely based on a confirmed diagnosis of COVID-19. Persons under investigation for COVID-19 who have undergone testing in the hospital shall not be discharged until results are available. Post-acute care facilities are prohibited from requiring a hospitalized patient/resident who is determined medically stable to be tested for COVID-19 prior to admission or readmission.

Information for healthcare providers on COVID-19 is available on the New Jersey Department of Health website at https://www.nj.gov/health/ncd/topics/covid2019_healthcare.shtml. As always, strict adherence to infection prevention and control measures and environmental cleaning must be made a priority during this public health emergency.

Thank you for your ongoing support and cooperation in responding to COVID-19. General questions or comments about this advisory can be sent to Jean DeVitto jean.devitto@doh.nj.gov.

Q

56) Pennsylvania Representative Scott Perry is requesting a Federal investigation into the state's policies that led to more than 2,700 covid deaths in nursing homes.

https://perry.house.gov/uploadedfiles/perry_calls_for_federal_investigation_5.14.20.pdf

Congress of the United States
Washington, DC 20515

May 14, 2020

Gary Cantrell, Deputy Inspector General
Office of Investigations
US Department of Health and Human Services
120 Independence Avenue, SW
Washington, DC 20201

Dear Deputy Inspector General Cantrell,

I respectfully request that the HHS Office of Investigations immediately commences an independent investigation into whether the Pennsylvania Department of Health's *Interim Guidance for Nursing Facilities during COVID-19* (March 18, 2020) has contributed to an increase in COVID-19 infections and deaths in Pennsylvania nursing homes, assisted living and elder care. The urgency of this request cannot be understated as Pennsylvania has made clear that the *Interim Guidance* will remain in place even as other states repeal or revise similar policies in response to the inordinate number of deaths in these facilities. Instead of fairly and impartially assessing the impact of this *Guidance* on the high number of deaths, the Governor Wolf announced a criminal investigation into the facilities themselves. His breathtaking failure to protect the most vulnerable population in Pennsylvania warrants an independent investigation. I implore you to begin such an investigation immediately.

On March 18, 2020, Pennsylvania Department of Health published the *Interim Guidance*, stating:

Nursing care facilities must continue to accept new admissions and receive readmissions for current residents who have been discharged from the hospital who are stable to alleviate the increasing burden in the acute care setting. This may include stable patients who have had the COVID-19 virus.

The medical community quickly condemned this guidance as dangerous to the residents of these facilities. The American Health Care Association (AHPA) denounced the guidance and correctly stated that it will, "result in more people going to the hospital and more deaths." Unfortunately, AHPA's prediction has come to fruition.

Since April 16, when the Commonwealth began releasing data specific to nursing homes, personal care homes, and assisted living facilities, infections within these facilities increased over three times the rate as those elsewhere—the number of cases rising more than 238%. The tragic loss of more than 2,600 older Pennsylvanians—nearly 70% of all COVID-19 deaths in the Commonwealth—continues unabated. More concerning, this trend appears to be worsening, as in-facility deaths have accounted for 74% of deaths since May 1. While other states repealed similar policies in light of the widespread death, Governor Wolf has allowed the suffering to continue. Attempts to bring transparency to the deteriorating situation in these facilities have been met with overt hostility from his Administration as it continues to keep Pennsylvanians in the dark.

On May 12, the Pennsylvania Attorney General announced a criminal investigation into nursing home facilities in the Commonwealth with regard to the death of residents. This development is particularly concerning due to its potential chilling effect on the willingness of facility operators and employees to speak out about the role of the PA Department of Health's *Interim Guidance* in the spread of COVID-19 infections and deaths. The threat of criminal prosecution alone may be enough to ensure silence about the Commonwealth's role in this tragedy. The blatant attempt to obfuscate the Governor's contribution to these deaths through intimidation is despicable and unjust. These developments warrant an outside investigation.

Without a formal HHS OIG investigation, the true cause of the mass suffering and loss occurring in Pennsylvania's nursing homes will remain hidden. The families and loved ones of the people who have suffered and died deserve justice. Pennsylvanians deserve to know exactly what role their government played in the spread of COVID-19 infections, and the resulting deaths in nursing home, personal care, and assisted living facilities across the

Commonwealth. Most importantly, residents in these facilities across the Commonwealth must be protected from further undue harm as the result of Governor Wolf's policies.

I respectfully request and urge a formal investigation into these matters as quickly as possible. I appreciate your time and attention to this vital matter. If you have any questions or if I may provide additional information, please let me know.

Very Respectfully,

SCOTT PERRY
Member of Congress
10th Congressional District
