What would you like to achieve in doTERRA?

*The first Wealth is....  
Health!*

Preventative Healthcare – daily habits!

# Disease prevention relies on anticipatory actions

Preventive healthcare is especially important given the worldwide rise in prevalence of chronic diseases and serious illness. **In doTERRA you have an opportunity to increase your understanding of how you can take control your health naturally, reducing your risks and improving the probability of living better for longer!**

## Supporting optimal immune system function

**Preventative health care consists of measures taken for disease prevention, as opposed to disease treatment.** Just as health comprises a variety of physical and mental states, so do disease and disability, which are affected by lifestyle behaviours, environmental factors, genetic predisposition, and disease agents.

*We must pay more attention to these 4 key areas of health!*

- ✓ Alternative to support existing conditions
- ✓ Preventative Health Care
