

Q May 12, 2022

This update covers the messages posted by @q account on Truth Social. I **can't** say with certainty that this is the same person or group that posted on 4chan, 8chan and 8kun, but evidence is growing to suggest that it is.

In response to a comment by @JoanM, @q posted this reply and later deleted it.

The above message uses tap (or knock) code. The decoded message is: “things we **can’t say aloud.**”

Tap Code / Knock Code

Find Tools...

The **tap code** is a simple way to encode messages. The messages are sent by translating letters into knock sounds. It was used by prisoners in Vietnam, and is sometimes called knock code or Smitty code. It uses a 5x5 square to assign two numbers (row and column) to each letter. Then the sender knocks as many times as each number, and makes pauses between the numbers.

Thank you Qonas1776 for the info on tap code.

On May 3rd, @q retruthed Carpe Donktum. The post was not deleted but is **does not appear** on @q's timeline.

With the way dems are reacting to the news about Roe vs Wade, you would think someone just killed their kid.

Reality is hard to swallow.
FAKE NEWS keeps you asleep (sheep) and fixed in a pre_designed false reality (narrative).
Google altering search results to 'support' the pre_designed narrative and 'prevent' (make harder) for one to learn the TRUTH?
Those (w/ influence) who challenge the narrative are banned, shunned, threatened.....
[Planned Parenthood is GOOD]_narrative
[China is NOT a threat]_narrative
Do you know the market price for a fetus?
Correlation of market price & days old of fetus/baby?
As age (days) increases so does the value?
<https://www.foxnews.com/politics/senate-to-vote-on-born-alive-bill-to-protect-infants-who-survive-a-failed-abortion>
D's block 'born alive' bill?
Planned Parenthood political donations?
What party?
Do you believe this has anything to do w/ a Woman's Right to Choose?
Welcome to the Real World.

Ask and though shalt receive...

I just asked at @q for a clue and @q graciously responded. @q just liked my first post on the top of this linked thread. It contains my list originally liked by @q sometime ago, but I also added a few posts which differ by 117, so I'm not sure if it was a like for the list again or a new component of the analysis presented there. @q?

@prayingmedic @anon_fa_mous
@JuliansRum @stormypatriotjoe +++

truthsocial.com/users/YalePhD/...

..

The following posts on the list liked by @q also happen to differ by 117:

$$896 - 779 = 117$$

$$986 - 869 = 117$$

$$995 - 878 = 117$$

Non are redundant!
