

HomeLife Under Cabinet LED Lights Reviews

A popular trend in home design for 2019 is adding DIY under cabinet lighting in your kitchen. This is an easy way to dress up your kitchen cabinets and make them look spectacular without spending a fortune. One particular brand that is leading this charge is the Homelife LED Bar lights. In this Homelife LED Light review you will learn why you should invest in these inexpensive lights to spruce up your kitchen.

Homelife Motion Sensor LED Lights

Everyone wants a more modern looking kitchen and keep up with the latest trends. Under cabinet lighting has always been of interest to many people but no one wants to spend thousands of dollars it would potentially cost to hire an electrician to install lights.

Compare Homelife LED Lights with the top selling Under Cabinet lights on Amazon. Consider the **URPower Motion Sensor Light. It has over 2,100 customer reviews and 62% of customers rated the product 5 stars, [click to read Amazon reviews](#)!!**

With the Homelife LED Bars there's no need for an electrician and no expensive price tag. They provide plenty of light and have a number of features:

Motion Sensor

These lights utilize smart technology. They are activated by a motion sensor. The motion detectors turn the lights on automatically when there is movement within 10 feet. You won't need to turn them on but instead when you are in distance they will automatically turn on and turn off within 15 to 18 seconds when you walk away.

Easy To Install

You won't need a screwdriver or screws to attach the Homelife LED lights to your cabinets. They are attached with a peel and stick approach. A strong adhesive is attached to the light bar. You simply peel away the coating and place it underneath the cabinet. No drilling holes is necessary.

Smart LED Lighting Technology

The Homelife lights are powered by rechargeable AAA batteries that will last up to 100,000 hours without needing a battery charge. Each light bar has installed 10 LED ultra-bright lights. These powerful LED lights will illuminate the area you're trying to brighten.

Door sensor

Homelife lights also has a door sensor option that will turn on the lights automatically when you open your door. It will also turn off by itself after a few seconds.

On Amazon.com one of the best selling under cabinet lighting products is the URPower Motion Sensor Light. It has over 2,100 customer reviews and 62% of customers rated the product 5 stars, [click to read Amazon reviews](#)!!

Homelife Light Bars Installation Instructions

Remember this is a simple DIY installation that only takes a couple minutes from beginning to end.

Insert AAA batteries

Remove adhesive strip from the back of the light

Stick the light to your desired location

There is a magnetic strip that allows you to remove the light and easily re-attach it whenever you need to replace batteries

Places Lights Can Be Used

If you can think outside the box for a minute you can see many different areas around your home that could use these Homelife motion sensor LED lights. Here are some areas that customers are enjoying these lights:

Under-cabinets

Inside cabinets

Staircases

Closets

In basement

Along baseboards

In glove compartment

In hallway

Inside drawers

In garage tool shed

In pantry

Toilet area

The great thing about the adhesive that is attached to the light bar is it will stick to almost any surface.

Light Bar Costs

Most people that purchase the Homelife under cabinet lights typically purchase more than one because they already see the areas in their home where they can use these. Here is a breakdown of the costs of the Homelife lights:

Cost

1 - \$19.95

3 - \$49.95

5 - \$79.95

10 - \$149.95

20 - \$199.95

Each light comes with a No Hassle Returns option and a 90 days of purchase for a full refund if you're not satisfied with the product. You also receive a 1 year warranty.

I hope this Homelife LED Light review was a big help for deciding if you want to take the next step in adding more light to your kitchen/home.
