That event that has been attributed to lens flare, a helicopter or other visual anomalies.

The MSM categorically denies the possibility that it could have been a missile

From Wikipedia, the free encyclopedia
(Redirected from National Airborne Operations Center)

The **Boeing E-4 Advanced Airborne Command Post**, the current "Nightwatch" aircraft,^[2] is a strategic **command and control military aircraft** operated by the **United States Air Force** (USAF). The E-4 series was specially modified from the **Boeing 747-200B** for the **National Emergency Airborne Command Post** (**NEACP**) program. The E-4 serves as a survivable mobile command post for the **National Command Authority**, namely the President of the United States, the **Secretary of Defense**, and successors. The four E-4Bs are operated by the 1st Airborne Command and Control Squadron of the 595th Command and Control Group located at Offutt Air Force Base, near **Omaha, Nebraska**. An E-4B when in action is denoted a "National Airborne Operations Center".^[3]

David E. Kendall, Esq.
Williams & Connolly LLP
725 Twelfth Street, N.W.
Washington, DC 20005

September 22, 2015

Dear Mr. Kendall,

We are in receipt of your letter dated September 21, 2015, which offers, among other things, access to what you have referred to as a "successor server" to the server equipment previously produced to the FBI on August 12, 2015. Based upon the FBI's investigation, we understand that this "successor server" is in the custody of, and is being operated by, Platte River Networks and that it, at least for some time, contained emails to or from Secretary Clinton's @clintonemail.com account.

We are concerned that, notwithstanding your repeated statements in oral and written correspondence regarding your and your client's willingness to cooperate in this matter, you had not raised the existence of the "successor server" or offered access to it prior to your September 21 letter. We remind you that this server is covered by the preservation letters delivered to Williams & Connolly LLP on July 31, 2015, and Platte River Networks on July 30, 2015, and we request that you ensure that this server remain operational with a continuous power source (i.e., that it is not unplugged or its operation otherwise interrupted) until further notice.

We also reiterate that the aforementioned preservation letters cover any other equipment or devices, whether or not previously disclosed, that contain or contained emails to or from the domain account @clintonemail.com, including all equipment related to the server voluntarily produced to the FBI on August 12, the "successor server" and all related equipment, any other server and all related equipment that received or sent emails for this domain account, and all backup devices, including backup hardware purchased from or maintained by Data, Inc. While we will seek to proceed in a manner that causes the least amount of disruption to otherwise unrelated accounts and activities, we will take all necessary and appropriate steps to obtain any and all such equipment and items.

BY EMAIL AND FIRST CLASS MAIL

United States Department of Justice
National Security Division
500 E Street, NW
Washington, DC 20530

Dear [redacted],

On behalf of former Secretary of State Clinton, I want to reiterate our desire to facilitate the security inquiry we understand the Department is conducting at the behest of the Intelligence Community Inspector General into the storage of recently-classified e-mails at the hdx22@clintonemail.com address.

As you know, shortly after this inquiry was announced, we voluntarily provided a thumb drive (and copies) and the server equipment which supported this email account during the Secretary's tenure at the State Department. I also shared with you that the Secretary would voluntarily answer any questions you might have. Should you need to access the successor server which for a time hosted this address and the successor hrod17@clintonemail.com address, we also would be happy to assist you in that regard, consistent with maintaining the privacy of other e-mail accounts that are not part of your inquiry.

In short, we want to facilitate the efficiency of this security inquiry and look forward to learning from you if there are ways of which we can be of assistance.

Sincerely,
David E. Kendall

19) [@tracybeanz](#) did a thread on the FBI's release of information regarding the email investigation.
[#Qanon](#)

20) Notable in the FBI Vault release is proof that the Bureau did not initiate an investigation of Anthony Weiner's laptop (which contained about 700,000 emails and messages) until after the 2016 Presidential election.
[#Qanon](#)

21) Peter Strzok & James Comey said that due to advanced technology, they were able to review emails on Weiner's laptop prior to the 2016 election.

The Bureau's own people said they were not able to de-duplicate emails because of absent metadata.
[#Qanon](#)

The laptop was taken directly to Quantico where the FBI's Operational Technology Division (OTD) began processing the laptop. The Lead Analyst told us that given the volume of emails on the laptop and the difficulty with de-duplicating the emails that "at least for the first few days, the scale of what we're doing seem[ed] really, really big."

Strzok told us that OTD was able "to do some amazing things" to "rapidly de-duplicate" the emails on the laptop, which significantly lowered the number of emails that the Midyear team would have to individually review. Strzok stated that only after that technological breakthrough did he begin to think it was "possible we might wrap up before the election." (pg.388)

The key takeaway here is two-fold. First, the laptop is in the custody of the FBI; that's important moving forward (I'll explain later). Also, specifically important, FBI Agent Peter Strzok, the lead investigative authority in the Hillary Clinton MYE (Mid-Year-Exam), is explaining to the IG how they were able to process an exhaustive volume of emails (350,000) and Blackberry communications (344,000) in a few days; [Oct 30 to Nov 5]

The FBI analysis of the review noted that "[b]ecause metadata was largely absent, the emails could not be completely, automatically de-duplicated or evaluated against prior emails recovered during the investigation" and therefore the FBI could not determine how many of the potentially work-related emails were duplicative of emails previously obtained in the Midyear investigation. (pg.389)

See the problem? See the contradiction?

Strzok is saying due to some amazing wizardry the FBI forensics team was able to de-duplicate the emails. However, FBI forensics is saying they were NOT able to de-duplicate the emails.

<https://pbs.twimg.com/media/Dj3WxCGU0AAGfRH.jpg>

22) According to the FBI's records, Strzok didn't submit the request for Weiner's laptop to be investigated until November 9th, the day after the election.

Strzok & Comey lied.

(But they never thought the documents would be made public.)

FOR THOSE NOT GETTING IT...

We all want justice and arrests, but timing is so important. Q has to be mainstream so the public can absorb it all. Optics. Happening right now.

Sessions recuses and appoints HUBER to join with IG Horowitz (both Obama appointees) because they are in a hurry to indict and charge these people BEFORE the midterms in Nov. HRC and Obama's only hope would be to win at the midterms and hijack the investigations.

A special counsel would have taken too long, and HUBER + IG and 470 attorneys with grand juries outside of DC not only make for quicker justice, but ensure actual justice with no leaks in the interim. PLUS EOs by POTUS.

The first IG report won't be un-redacted until the 2ND IG report is released on the Clinton investigation. CF/Haiti, the servers, U1, TARMAC, SR 187, LL & AS 187...all of that comes out, then the 1st IG report gets declassified proving the cover up and the conspiracy. It connects the other people to her in her corruption. All while the DOJ and FBI are gutted, and fair minded judges are placed.

Projection. Their own accusations reveal their guilt. "Trump Foundation" (false) because the CF (true). "Trump and Russia" (false) because Hillary and Russia (true). Etc. Their symbols and signs will be their downfall as well.

I assume next domino to fall is the FISA Memo [20] pages, and then the 2nd IG report, then IRAN. BOOM. BOOM. BOOM. After that, ES/GOOG, MZ/FB, @Jack/T, Bezos, and the rest all go down. MSM goes down. Then we rebuild properly.

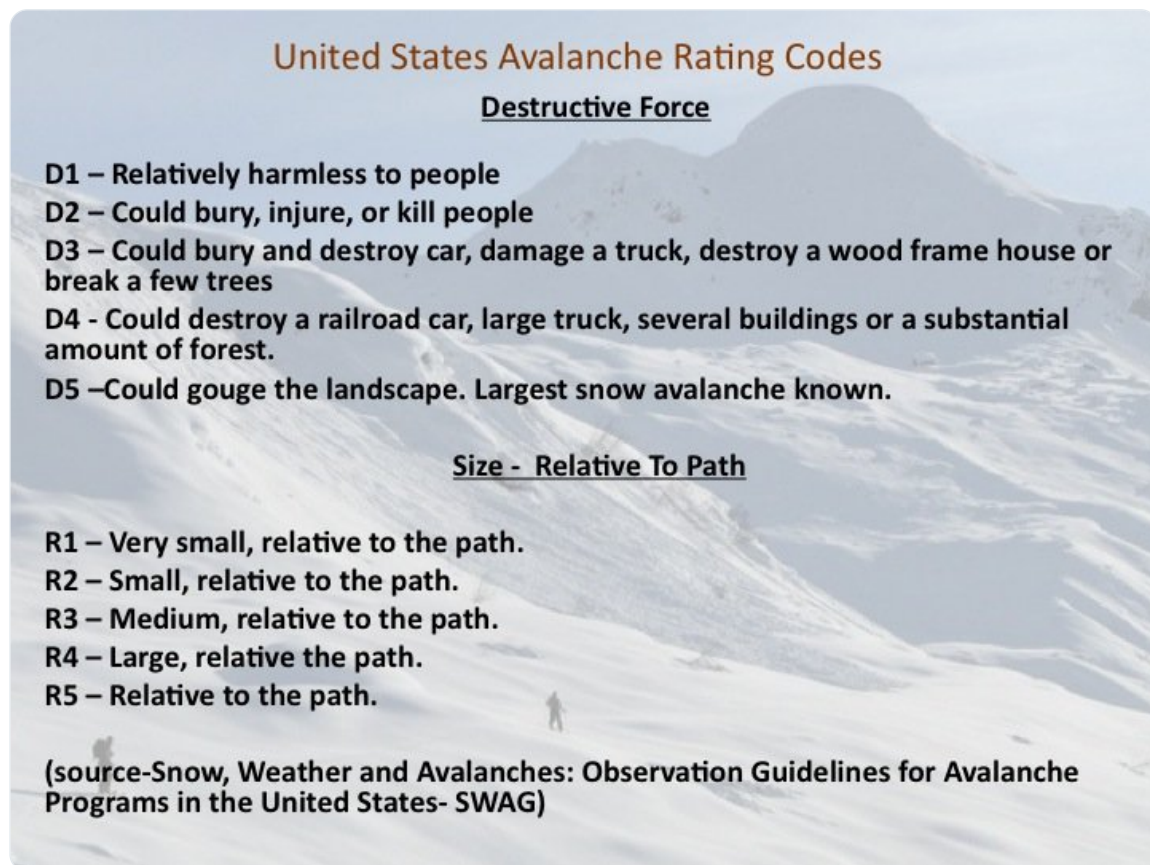

Stay the course Patriots. We are almost there. Let's get our friends and family ready. 11-11 Celebration of our lifetime.

I just want to thank you for your detailed analysis. Prior to finding your site, I was on the fence as to whether "Q" was a hoax, ruse, or legitimate. I would ask other friends who are Trump supporters and half would say "hoax" and others say "I don't know" or "I don't care" and one person said "I trust it to be true." One so I decided to research and was not impressed with so many also reporting.. I even tried to listen to some guy in Australia...HUH? AND then, found The Praying Medic. As a former History teacher and now a management consultant, FACTS are important to me. I TRUST YOU and pray for our President's safety. I truly fear for his life. So much hatred and division. I pray that our country can be healed. Blessings on your work. AND, for sure I pray "Q" is the real deal and that SOMETHING BIG will be the exposure of the crimes of Hussein, HRC and the cabal that protected/still protect them both.
