2) Yesterday, Q posted this message with a link to a video.
Some people were less than impressed with the message.

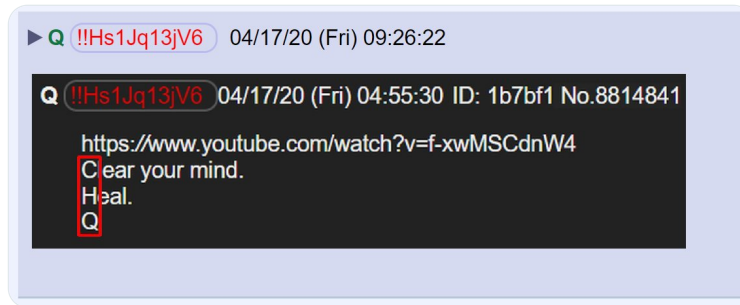

(Irrespective of the video, I think healing, in general, is underappreciated by society.)

3) Last night, @bbQd11 sent me this message.
He thought the post had a double meaning.
If you take the first letter from each line in the post, you get CHQ.

4) Q confirmed this morning that it's a valid decode.

5) Interesting decode, but why is it relevant?

If you rearrange the letters, you get HCQ, the abbreviation for hydroxychloroquine—the drug currently being used to treat Covid-19.

[Hydroxychloroquine - Wikipedia](https://en.wikipedia.org/wiki/Hydroxychloroquine)

W <https://en.wikipedia.org/wiki/Hydroxychloroquine>

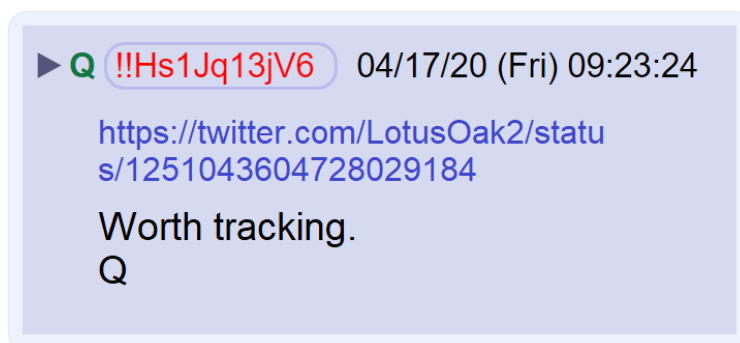

Hydroxychloroquine (HCQ), sold under the brand name Plaquenil among others, is a medication used to prevent and treat malaria in areas where malaria remains sensitive to chloroquine. Other uses include treatment of rheumatoid arthritis, lupus, and porphyria cutanea tarda. It is taken by mouth.

6) [@LotusOak2](#) posted an interview with Dr. Stephen Smith who reported on his use of hydroxychloroquine and azithromycin to treat Covid-19.

"It's an absolute game-changer... I think this is the beginning of the end of the pandemic. I'm very serious."

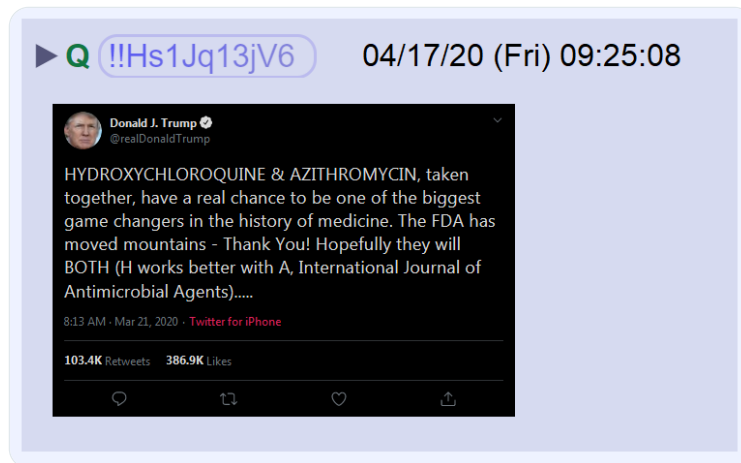

7) Q said this story is worth tracking.

8) Q posted a screenshot of a tweet by the President, who expressed his optimism for the

efficacy of azithromycin and hydroxychloroquine when used against Covid-19.

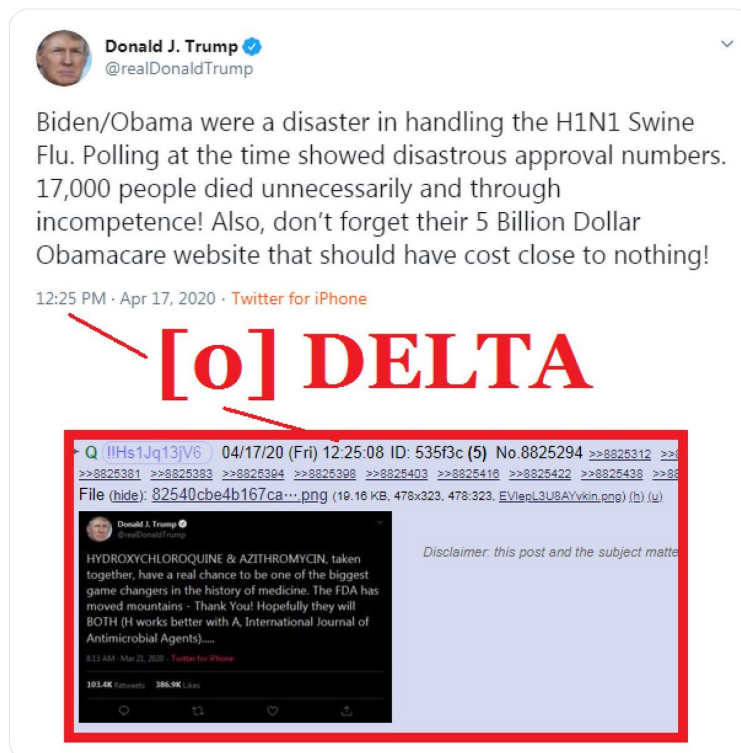

Why is this relevant?

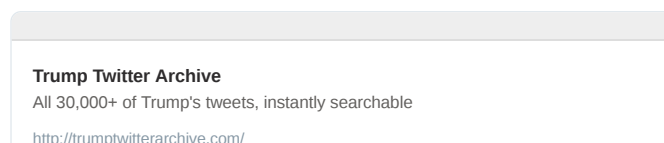

9) Q posted the above message 22 seconds before the President tweeted about the ineffectiveness of the Obama administrator in handling the H1N1 outbreak.

(When POTUS tweets and Q posts within 1 minute, anons call it a 0 Delta)

H/T [@elenochle](#)

10) If you'd like to compare timestamps of Q's posts with the President's tweets, you can find the President's twitter timestamps (accurate to the second) here:

11) If you're not sure why a 0 delta is relevant, consider that Q only posts about 5 times a day.

Try posting a message on social media 22 seconds before the President tweets.
(You only have 5 chances per day.)

Good luck!

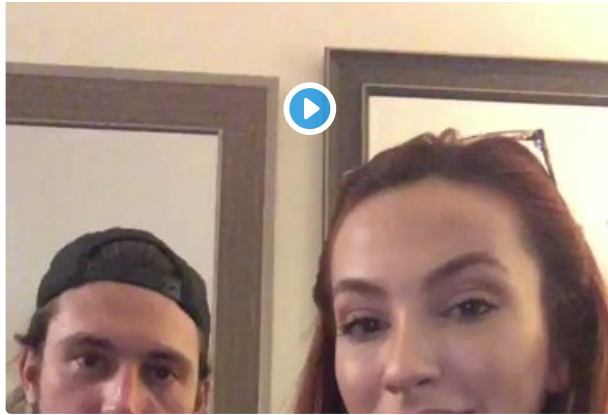

12) The world's elites express a deep hatred toward President Trump.
He's the most visible and accessible target for them, but it is really you that they fear and loathe.

POTUS stands in our place and takes the full force of their hatred.

13) Q posted a link to a WWG1WGA video.
