Tea Burn Ingredients

Tea Burn ingredients contain 100% natural, pure and FDA-approved ingredients that have been sourced from the organic. The primary ingredients in the Tea Burn supplement include L-Theanine, Green Tea Extract, Caffeine, Coffee Extract, L-Carnitine, and Chromium.

Tea Burn Ingredients List

Tea Burn manufacturers promise that the product is "absolutely 100% natural, safe, and efficient." Tea Burn

contains only the purest of ingredients like herbal extracts, plant extracts, vitamins and minerals.

Tea Burn supplement is made up of 100% natural ingredients that boost energy production and extra elimination fat in the body. It's a powerful fat burner that comes with an exclusive natural formula which makes this tea blend one of the most effective methods to lose weight. Here are a few of the key ingredients in this Tea Burn supplement:

L-Theanine

L-Theanine is a protein-free amino acid that can be naturally present within green tea. It has been proven to boost Serotonin production, dopamine, as well as GABA neurotransmitters.

Green Tea Extract

Tea Burn includes extracts of green tea. It is the concentrated version of green tea. It is rich in antioxidants and may help protect against destruction to cells within your body, decrease the accumulation of fat and stress and increase your immunity.

Caffeine

Caffeine is the most well-known fat burner. According to research, caffeine boosts metabolism and allows the body to produce more calories when you're at rest.

Coffee Extract

Coffee is a source of an extract called "chlorogenic acid" that is believed to decrease hunger and increase the metabolism of energy.

L-Carnitine

It aids the body in reducing fat by providing energy to produce Adenosine Triphosphate (ATP). The primary purpose of L-Carnitine is to aid cells in the use of fatty acids as an energy source.

Chromium

Chromium is a mineral that is well-known because of its loss in weight properties and blood sugar-related effects. It is a powerful regulator of blood sugar, which results in a decrease in hunger and cravings.
