1) This is my [#Qanon](#) thread for posts from February 5th to the present.  
The theme of this thread is the transfer of wealth of the puppet masters.

Q posts can be found here: [gcodefag.github.io](https://gcodefag.github.io)

2) [#Qanon](#) begins with a screenshot of a tweet by POTUS responding to a tweet from Adam Schiff.

[#Trump](#) accuses [@AdamSchiffCA](#) of being a liar and a leaker, on par with James [@Comey](#), [@MarkWarner](#), [@JohnBrennan](#) & James Clapper.

Little Adam Schiff, who is desperate to run for higher office, is one of the biggest liars and leakers in Washington, right up there with Comey, Warner, Brennan and Clapper! Adam leaves closed committee hearings to illegally leak confidential information. Must be stopped!

Mr. President, I see you've had a busy morning of "Executive Time." Instead of tweeting false smears, the American people would appreciate it if you turned off the TV and helped solve the funding crisis, protected Dreamers or...really anything else.

There are many theories about what Q is referencing, including allegations of sexual abuse of children. That was definitely indicated in previous posts, but I don't see that here. I believe, in this post, [#Qanon](#) is simply referring to the loss of capital.

29) First, let's look at the reference to Article 3 Section 3.

Article 3 Section 3 of the Constitution describes treason. Here's a short description.

[#Qanon](#)

Treason is the only crime specifically defined in the **Constitution**. According to **Article III, Section 3**, a person is guilty of treason if he or she goes to war against the United States or gives "aid or comfort" to an enemy. He or she does not have to physically pick up a weapon and fight in combat against U.S. troops.

<https://pbs.twimg.com/media/DVZYSPEV4AAHoLh.jpg>

30) Here's the text of the Constitution.

[#Qanon](#)

### Article III Section 3

Treason against the United States shall consist only in levying War against them, or in adhering to their Enemies, giving them Aid and Comfort. No person shall be convicted of Treason unless on the Testimony of two Witnesses to the same overt Act, or on Confession in open Court.

The Congress shall have Power to declare the Punishment of Treason, but no Attainder of Treason shall work Corruption of Blood, or Forfeiture except during the Life of the Person attainted.

[#Qanon](#) has suggested that he knows about a private phone call between Valerie Jarret and Adam Schiff that makes them guilty of treason. No one could know this unless they had a high-level security clearance.

43) [#Qanon](#) claims that a publicly available image taken in Congress has been altered and that he knows what the text in the original image says. Again, the only way he would know this is if he has access to highly sensitive intelligence.

44) [#Qanon](#) has drawn a line in the sand. If his claims are untrue then he's a fraud. If he's a fraud, you should pay no attention to him. He's a deceiver.

45) But if [#Qanon](#)'s claims are true, then he is a patriot who is in close contact with the President and has a high-level security clearance. If that is so, we must regard him accordingly.

Q has removed the middle ground.

So why are you hesitating? If you recommend to prosecute, you will at least have the perception of being trustworthy to the US public. If you don't, a lot of people are going to know the jig is up, and the US has lost all shred of integrity. Ditto for other countries.

Why are you guys even debating letting the cancer spread? Why are you considering allowing the corruption to spread to you?

>>79484598

Your moral inclinations may look good on the internet, but in real life the situation is complicated. You cannot possibly ask the entire government to prosecute itself. Lynch has also given to the Foundation, and has many ties to many people she should not. Remember that Bill appointed her. She is a great prosecutor, but she did not get where she is by simply being good at her job.

MIS = Management Information System

MAG = Make America Great

RDB = Relation Database Management

RDB is a fast, portable, relational database management system without arbitrary limits, other than memory and processor speed) that runs under, and interacts with, the UNIX Operating system.
