

AMATUC MTeM 2017

The 13th INTERNATIONAL CONFERENCE MODERN TECHNOLOGIES IN MANUFACTURING

FINAL PROGRAM

Cluj-Napoca ROMANIA 12th - 13th October 2017

WELCOME MESSAGE

Dear Guests and Friends.

On behalf of the organizing committee of the 13th International Conference MTeM 2017 - AMaTUC, I wish you a warm welcome to Cluj-Napoca! Please find details in this program, regarding the timetable of the events and paper

presentations, within the eight conference sections.

The aim of the AMaTUC - MTeM Conference is to bring together experts in Manufacturing Engineering, in order to exchange ideas and make new connections to extend and develop partnerships between the researchers from Romania and other European Countries.

The MTeM-AMaTUC Proceedings 2017 will be published online with open-access in a volume of MATEC Web of Conferences (https://www.matec-conferences.org/forthcoming). MATEC Web of Conferences (ISSN: 2261-236X) is indexed in major international databases: CAS, Compendex, Conference Proceedings Citation Index (Web of Science – WoS), DOAJ, Google Scholar, Inspect, Polymer Library, Scopus.

I strongly appreciate the contribution of the authors, who submitted valuable papers and agreed to do successive revisions of their papers, following the recommendations received from the reviewers.

Many thanks to the members of the Scientific Committee, who accepted to do the reviewing free of charge, which spent their time and effort to bring a substantial contribution to the AMaTUC - MTeM 2017 Conference, by providing professional evaluation of the papers and suitable recommendations.

Welcome to the Deans and other representatives from the Mechanical and Industrial Engineering Faculties from Romania, who are having the National Consortium meeting within the AMaTUC-MTeM 2017 Conference, in Cluj-Napoca.

I am grateful to the AMaTUC partners for their support in boosting the scientific excellence and innovation capacity in additive manufacturing of the Department of Manufacturing Engineering (DME) from TUCN and for their support in organizing this Conference. Bringing over the FabBUS mobile 3D Printing laboratory from Aachen is great, to be explored by the AMaTUC-MTeM Conference participants, in Clui-Napoca.

My colleagues from the DME have done their best and without their excellent work it would have been impossible to organize this event. Thank you very much to the Organizing Committee!

Let's hope that all the participants will be having fruitful scientific activities and will spend enjoyable days, during the AMaTUC-MTeM 2017 Conference!
