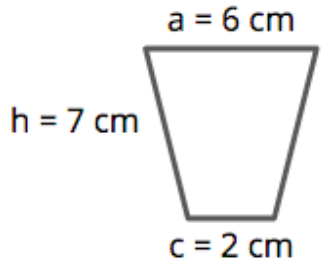
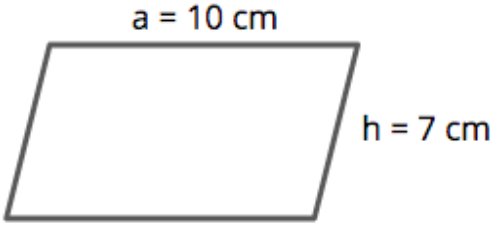
Mathematik
Andere Vierecke

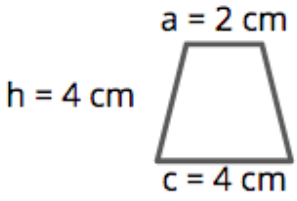
Arbeitsauftrag:
1. Berechne den Flächeninhalt der Vierecke.



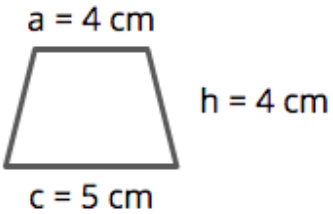
A = (6+2) / 2 · 7 = 28 cm²



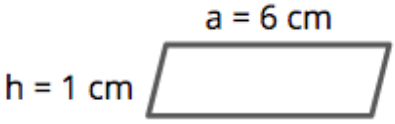
A = 10 · 7 = 70 cm²



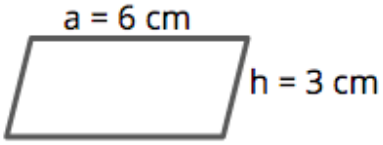
A = (2+4) / 2 · 4 = 7 cm²



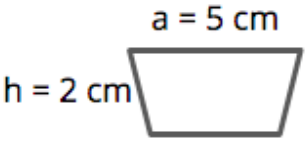
A = (4+5) / 2 · 4 = 18 cm²



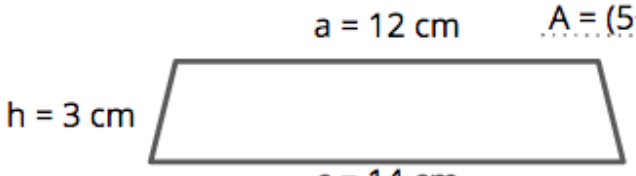
A = 6 · 1 = 6 cm²



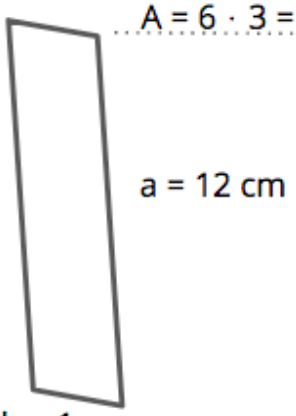
A = 6 · 3 = 18 cm²



A = (5+4) / 2 · 2 = 9 cm²



A = (12+14) / 2 · 3 = 39 cm²



A = 12 · 1 = 12 cm²
